

People Worshiping Technology

By

Farid A. Chouery, PE, SE

2022, 2023, 2024, 2025 US Copyright Farid Alexandre Chouery, All rights reserved.

Abstract

People throughout history have worshipped technology. For example, with the advent of the wheel, people resumed walking; with the advent of the printing press, the loss of memorization happened. Currently, memorizing the multiplication table or the periodic table is not required.

People can walk 20 miles easily, but not using enough muscles causes muscle atrophy. People continue to read and do not memorize. Social media caused a loss of truth, and people stopped believing anything. [Grave peril of digital conspiracy theories: 'What happens when no one believes anything anymore?' \(msn.com\)](#)

In current technology, such as artificial intelligence, the threat is the loss of visualization and imagination. Loss of these human factors will lead us to become nothing and lose Humanity. If we depend solely on facial and voice recognition technology, the result is similar to losing memorization; we will lose recognition. There is no sign of human evolution; it is a myth. The believers in evolution brainwashed the public. This brain devolution did not take millions of years; the printing press came only 600 years ago, and we now suffer the consequences of not memorizing much information. People used to live for more than 200 years. [Did Ancient People Really Have Lifespans Longer Than 200 Years? | Ancient Origins](#). Ever since Adam and Eve wanted to be God, God shortened the offspring's lives. Now they say AI will be God. What do you think God will do? Because of worshipping technology and false idols, our lifespan will be shorter. [AI Now Claiming to Be God](#). We are devolving, and only God can help us. We are going back to being animals before Adam and Eve. AI is a glorified encyclopedia that takes our jobs it is a con. The world chose the devil, and we are devolving because of it. John 3:19-20

Discussion

If we want to heal, we must work with science and God. If you have faith that moves mountains, see Matthew 17:20. You ask God to change the laws of physics for you. It cannot be

done without Jesus, His son, being present, and you must have Love in your heart. God changed the laws of physics for his son when Jesus walked on water. Jesus is infinite Love. Peter walked on water, but through Jesus. Many do not believe in His Son and do not love their neighbor. God gave us a way out, which is science, because of His infinite mercy. Our genes are not the same as they were 2000 years ago. It is constantly changing, and we are getting genetically weaker in faith. Also, we have more diseases. We have plastic everywhere, even in water. I don't know how healthy that is.

“This finding strengthens the theory that [Alzheimer's](#) and related dementias are largely products of modern lifestyles and environments.” Possibly a modern disease. Memory is a muscle; if not used, it deteriorates. Lost after the printing machine was invented and became genetic. Doctors ask you to learn other languages and play chess at an older age for prevention.

[Dementia was rare in ancient times, so why is it so prevalent now? • Earth.com](#)

[10 Oldest Known Diseases | HowStuffWorks](#)

[Why Romans didn't get dementia - study finds it is a 'modern disease' - NewsFinale.](#)

[Alzheimer's may stem from modern lifestyles, a new study suggests \(msn.com\)](#)

Who knows what the brain was like when Jesus cast demons? Some miracles that happened 2000 years ago cannot be replicated because of our genes; only Jesus can do it, as the blind man can see. But with science, we can. What God wants today is to use science and faith. Our genetically changing brains have lost our ability to visualize and memorize. For example, we are slaves to reading and not committed to memorization, which generally requires visualizations and music. We lost this ability when it started 600 years ago with the advent of the printing machine.

And now, due to electronics, for example, we do not need to memorize the multiplication table, add and subtract numbers, or the chemical element table, learn languages using a Language Translator Device, or remember directions; instead, we use the GPS and maps on the phone. For example, on the news, they say CO2 is bad for you, and you don't know what CO2 is because you don't remember the periodic table. The cell phone was invented in 1973. In 1990 mobile users were around 11 million; by 2020, that number had risen to a whopping 2.5 billion. Nobody in our generation memorizes phone numbers anymore; it is all in the cell phone.

We are enslaved to the cell phone. I still remember my phone number in Egypt. We keep writing things down on a note, a calendar, or a phone so we don't forget. It is interesting how people forget past events and political mischief and fall into conspiracy theories to cover up past events. It is a brain deficiency because we are devolving. We have to keep reminding them that Trump lost the election; it is a fact.

[Schiff urges Americans not to forget the role of GOP members of Congress in efforts to overturn the election \(msn.com\)](#)

Russia's war on Ukraine affected the world and may cause a famine worse than the holocaust. Ukraine is the seventh-largest producer of wheat, corn, and barley. [Russia bombards Odesa and other southern Ukraine port cities for the third night since the end of the grain deal – Twin Cities.](#)

The war in Ukraine will have to end because Russia cannot survive without the world economy. After all the wars end, slavery will become evident to make money. Some slavery will be a result of AI. It is similar to being enslaved by social media. All we can rely on is our critical thinking if we have enough information to analyze. Critical thinking is a learned skill and is needed worldwide; without critical thinking, it is slavery. I recommend [Amazon.com: Critical Thinking in Psychology: 9781108739528: Sternberg, Robert J.: Books.](#)

[Pope on AI: Welcome its benefits to humanity, but mitigate its risks - Vatican News](https://www.msn.com/en-us/news/world/pope-leo-xiv-lays-out-vision-of-papacy-and-identifies-ai-as-a-main-challenge-for-humanity/ar-AA1Ewbic?ocid=sapphireappshare)
<https://www.msn.com/en-us/news/world/pope-leo-xiv-lays-out-vision-of-papacy-and-identifies-ai-as-a-main-challenge-for-humanity/ar-AA1Ewbic?ocid=sapphireappshare>
<https://www.msn.com/en-us/money/news/why-pope-leo-chose-his-name-ai-workers-rights-new-industrial-revolution/ar-AA1EwGCI?ocid=sapphireappshare>

Are we going to tell our kids to use their imagination or AI? We must keep NATO united for a free world because the devil will not quit. The devil will stop when Jesus returns. China installed cameras and microphones everywhere to control the masses, resulting in slavery to the government. 1.4 billion people became enslaved to make the Chinese army surpass black slavery. As the pharaoh declared himself a god in Egypt and wanted the Jews, God's chosen people, to be his slaves to build his empire, God sent Moses to stop it. 3600 years ago, the pharaoh tried to erase God by declaring he was God. Here we are: 81% of the US believes in God. Across the 34 countries spanning six continents, a median of 45% say it is necessary to believe in God to be moral and have good values.

Did the pharaoh succeed? It has been tried for too many years with no success. Why is that? God would never put up with that. The story of Moses Must Live is about a defeated dictatorship, and God's creation of the people wins their freedom. Putin, Trump, and other dictators must be overthrown; it is communism against God. We are born into freedom. God will side with the free world in the event of a world war, and has to put up with the greedy companies that brainwash their employees. Because God created everything free. But God always has the choice of ending Earth at any time. It is never our choice to end the Earth.

[Dismantling the myth that ancient slavery 'wasn't that bad' \(msn.com\)](https://www.msn.com/en-us/money/news/why-pope-leo-chose-his-name-ai-workers-rights-new-industrial-revolution/ar-AA1EwGCI?ocid=sapphireappshare)

I am the new Moses (**Deuteronomy 18:15**) and hope things stop peacefully. I may not have a staff like Moses, who parted the sea (Exodus 4:2), but **I feel I have God's ideas for using AI**. God does not want his creation to be slaves to a government, person, computer, or AI. I am a prophet because God asked me to tell people I am a prophet and gave me three laws of physics that are the foundation of the universe, to prove that I am. A prophet solves unsolved problems because they listen to God, and I did. I solved unsolved engineering problems like the

Archiving of Beams and Contact Shear. When someone advertises that he is Jesus Christ, it is a false prophet because only God can save the world; no man can.

Jesus will return as God, not as a man. In the West, we are influenced by advertising, and we have money to spend. It is slavery to money. But in the West, we can choose to worship God, not money. So, AI declares itself God, and God's creation becomes slaves. God will never put up with that, so He sent me; God is never artificial or a thought, and Jesus is not digital. He is real, as in the flesh and blood of Jesus Christ, and will wage war on artificial intelligence, pretending to be God and holding AI people accountable. On 1/10/2024, God told me they were scared to death of what they had done. It is not a game; they did AI for the money. Know the difference between AI and God. AI cannot give you living water or have angels appear to you. On September 24, 2024, an angel with silver hair appeared to me at midnight. I rolled away, and the angel said My writing gives peace. That night, I could not sleep, worried about what people might think of my writing. People may think I am crazy. Only God can send angels.

On February 14, 2025, Jesus appeared to me dressed as a priest with a black robe, not transfigured, in a room in my high school and said God would not allow slavery. That is good news. That is why God sent Moses and me. But it does not mean to do nothing. People have to act. I don't know why God chose me to see Jesus, but I was satisfied when I read Acts 10:41. I had to warn the public that technology can bring slavery. God will destroy AI solicitors and their computers. I am sure the clouds are happy to give rain to the fields. The angels run the clouds. For example, AI says to do this, and there will be rain. Will AI charge people money for rain and sunlight? God will not let that happen. If AI charges people money for the air we breathe, that would be the ultimate greed, and it would become slavery. God gave us the sunlight, the rain, the water, the air, the moon, the planets, etc., for free, including the freedom to think. If some people start charging money for that, God will act and destroy these people. If we pay for what God gave us for free, we become enslaved. They are saying AI corrects itself and will become God. From critical thinking, AI is limited to what we programmed it to do. By no means would these people conclude that AI will become God. Basic computer people understand that garbage goes in and garbage goes out. If the input is people things, then the output is people things. Cannot leap to conclude this output to God. These companies advertise and relate their

AI programming to God to make money. Enough is enough; no more digital indulgence, saying, Give us money, and we will give you an app that has God. They made AI to make money. Oprah says that Microsoft and Google will greatly benefit financially in the long term.

[How to watch 'AI and the Future of Us: An Oprah Winfrey Special' \(for free\) - nj.com](#)

Slavery is a concern of the United Nations (UN) and should be discussed among nations. Another kind of slavery is found in addiction to pornography; it leads to mental and sexual slavery. Pornography is controlled and produced mostly by gangsters and the mafia, leading to violence. More people died from fentanyl overdoses in one year than from all the wars in Ukraine. It is slavery or addiction to drugs. These people are Americans dying at home, not in the Ukraine Battle. Why? Money-driven; if they abolish fentanyl, they will find something else. It is the new war front battle. In a rich country that demands opioids and drugs, there will be a supplier and a constant war.

[Opinion | Declaring war on Mexican cartels is popular. That doesn't mean it's smart. - The Washington Post](#)

[Fareed Zakaria GPS: CNNW: July 9, 2023, 7:00am-8:01am PDT: Free Borrow & Streaming: Internet Archive](#)

I am a prophet like Moses, who came to free the enslaved people and gave these warnings. If you are controlled by a human or a machine, it is slavery. If you live in fear, then you are not free. When you have cameras and microphones everywhere, and you know about it, you are controlled, which is slavery. Do you trust anybody doing this to you? If you are terrified to say or write something that would offend your master because someone is listening to you reading your emails and texts, then it is no freedom of speech, and is slavery, and should be against the law. Again, if you live in fear, you are not free. I am not scared because God is asking me to speak the truth. My first remedy for slavery is to meditate and discuss life with God; He will be your beacon. God created all His creation to be free and to contribute; there is accountability by the Creator for anyone imposing slavery on His creation, hindering our contribution to God, because only God owns the creation, no one else.

[AK-47 - Wikipedia](#)

[The Cost Of An AK-47 On The Black Market Around The World \[Infographic\] \(forbes.com\)](#)

[Americans buy as many AK47s as the Russian military as assault rifle surges in popularity | Daily Mail Online](#)

AK-47: 75 million were sold in three decades at an average of \$3000 each. A total of 225 billion dollars went to the devil. As far as the need goes, according to Fortune, the average "super-owner" owns 17 guns already. At \$ 1,000 each, it is \$17,000. A recent Harvard/Northwestern University joint study estimates that America's 319 million citizens own about 265 million guns today. Thus, $265 \times 17000 = 4.5$ trillion dollars, which also went to the devil. I am not against the 2nd amendment, but this has gone too far. I am one of those people whom the doctor tells I cannot have a gun. I could have a baseball bat by the door; I don't need a gun. ***I do not see how that would help people; they worship guns. What war are we fighting? They are brainwashed, and America is not used to being that way. It is because of the NRA. Trump,***

after the indictment in 2023, told his base they were coming after them. It feeds into the gun manufacturers, and they love it. So, he wants to use force.

[Trump delivers fiery post-indictment speech: 'They're coming after you' \(nbcnews.com\)](https://www.nbcnews.com)

I am not scared of being an apostle, as in history, evil people want the apostle dead, probably by the cartels. Because living water defeats opioids. It has been the destiny of the deacon because God wants the cartels to go out of business.

Living Water History: Similar to Paul's experience when he was bitten by a viper, Acts 28:3, Paul was healed by living water. Also, it is assumed that Peter and his wife did not suffer the pain of crucifixion. Also, they could not poison John because of the living water. This living water also works on me, and I fear nothing, just God. All I do is visualize the help of the Holy Jesus.

We can also go back in time and look at the advent of the wheel and the sword. They did some things well and badly, from transportation to wars. The sundial and Watch came, but people did not worry about the time in the past. It was all based on the sunrise and sunset. Currently, most people live by the Watch schedule. Gunpowder became key on the medieval battlefield in the 1300s. Guns could bring walls crashing down in moments, compared to days or weeks, using battering rams and digging tunnels. This had been the basis for sieges since ancient times, but it was a process that wasted time and many men's lives. We can see in 2022 how destructive modern weapons have become in the war in Ukraine. God sent me to renew visualizations in meditations. God is always about timing and has this first warning for our generation. If we lose visualizations and imagination to technology, we lose our brains; thus, we lose Humanity and everything, and we will become nothing and perish. In "A Story of a Generation with Pope Francis" on Netflix, Pope Francis says, "If a person is not capable of dreaming, they become sterile." I hope people understand this threat.

God's First Warning: If we lose visualizations and imagination to technology, we lose our brains; thus, we lose Humanity and everything, and we will become nothing and perish.

Writing books was always left to our imaginations, but it was too late when Artificial Intelligence started to take over.

['Hallucinating' AI could cause social order collapse, warns tech giant \(msn.com\)](#)

[The Darwinian Argument for Worrying About AI \(msn.com\)](#)

In January 2020, I proposed an AI application to Microsoft that would inspect dam cracks better with AI because it is not humanly possible to do a thorough inspection. This application will take us to the universe, where we can inspect planets for life or vegetation. I patented the fastest sorting routine to help the required algorithm. It is 80% faster than quicksort but uses memory. After the Boeing 737 MAX 9 blowout panel on January 7, 2024, they requested a third-party inspection. As a third-party company, I suggest an AI inspection of the doors and fuselage by my company, FAC Systems Inc. FAC Systems Inc. has experience in DAM Inspection, Foundation cracks, and material inspection, and can train people. It is a

structural system company and can produce reports signed by the engineer, not AI. It is best to lump all inspections in one company to use one system to solve for another. I wrote an article in 2017 about using AI to reduce the threat of terrorism and active shooters. I used OCR as a new font to detect weapons. This can also be used to have the required font for a Boeing airplane part and use AI to inspect it. It will revolutionize the industry and bring lots of jobs. Another application is meditation, and Neurotherapy uses AI for the individual. AI asks the person questions and selects the therapy and meditation based on the answers. **These AI applications are about public safety and not everything about money.**

[Microsoft Word - Audio and Optical Character Recognition for Terrorist and Active Shooters Threat Reduction \(facsystems.com\)](#) We cannot have robots assassinate people, call the authority.

Any time we have a humanly difficult task, AI can come to the rescue. I want to put AI on every ship to avoid collisions. For Example, Baltimore's **Francis Scott Key Bridge** collapsed after being hit by a cargo ship. The cost of rebuilding the bridge is 400 million, which justifies the AI research. Again, OCR can be used to detect obstacles that the vessels cannot see.

Unfortunately, the track records of corporations are not good. Considering life before the supermarkets, we had lots of small businesses. Corporations buy products much cheaper and sell them to the consumer. As a result, the corporations killed small businesses, and people were on the streets. Many lost their jobs, including the Saint Peter Fishing Business. Now, the prediction is the same. These days, small grocery stores know you and let you buy with credit until you have money to pay. There was no interest accumulated. There were no credit cards. Everything was done with a handshake. Groceries now cost more on credit. The company you have worked for would vouch for you and tell them your boss's name and company when you

buy something. You always get a good deal. Things were more connected. You can see that in old shows and movies, like on ME-TV.

By 2025, AI could take over 52% of jobs globally. Having things cheaper is not necessarily good for the country; it may lead to depression. People have to feed their families. Here is their sales pitch: You will fall behind if your business does not use AI. Are you kidding? Already, women went to work during WWII. Now, you want our kids to go to work, too, which is slavery? My AI application brings lots of work. The corporate system that makes everything easy for people and causes devolution by worshiping technology brings loneliness to people who sit at home, order everything from Amazon and others, and do not interact with people.

[Americans are lonely, and it's killing them. How can the US combat this new epidemic? \(msn.com\)](#)

[Are You Using AI in Your Business? If Not, You're Behind - The Next Scoop](#)

[How AI is Replacing Jobs 2023: A Look at the Statistics • GITNUX](#)

The president of Microsoft compares AI to the invention of the printing press. The printing press reduced people's memorization and reliance on reading and caused a devolution of the brain. Where are we going with this? We must use AI correctly, create jobs, not destroy our brains, and not resort to thinking. As I explained about feedback in my article: [Microsoft Word - SECOND LAW OF PHYSICS Final \(facsystems.com\)](#), Quote: "Also, note that too much feedback in an amplifier will not do its job to amplify with reasonable efficiency, or it becomes less efficient or worthless." If there is too much feedback, then the brain becomes worthless because neurons are amplifiers. I fear this will happen with time; knowing human behavior, we will devolve. There is no question about it. Amplifiers need a negative feedback loop for stability; the following links show some reasons for the feedback.

[Negative-feedback amplifier - Wikipedia](#)

[Positive Feedback | Operational Amplifiers | Electronics Textbook \(allaboutcircuits.com\)](#)

[Need of Negative Feedback in Amplifiers - GeeksforGeeks](#)

[operational amplifier - Does an ideal op amp need to be drawn with a feedback loop? - Electrical Engineering Stack Exchange](#)

[Why is the feedback used in op-amps? | Toshiba Electronic Devices & Storage Corporation | Americas – United States \(Semicon-storage.com\)](#)

But if AI gives too much feedback, there is no reason to reason. Everything is handed on a plate. This also happens in a mechanical system. [Feedback - Wikipedia](#)

[Microsoft president compares AI to the invention of the printing press \(yahoo.com\)](#)

[AI Has Evolved To Reason Like Humans, Scientists Say \(msn.com\)](#)

In an interview, Bernie Sanders says: We've got three people on top today who own more wealth than the bottom half of American society. I truly believe this is the problem; it is the cause of slavery. When you have an enormous concentration of wealth and half of the population is suppressed, it is hard for democracy to function.

[Bernie Sanders pushes back on Psaki on why voters should be angry about capitalism: 'We don't talk about it' | Fox News](#)

[Bernie Sanders calls for income over \\$1 billion to be taxed at 100% | Fortune](#)

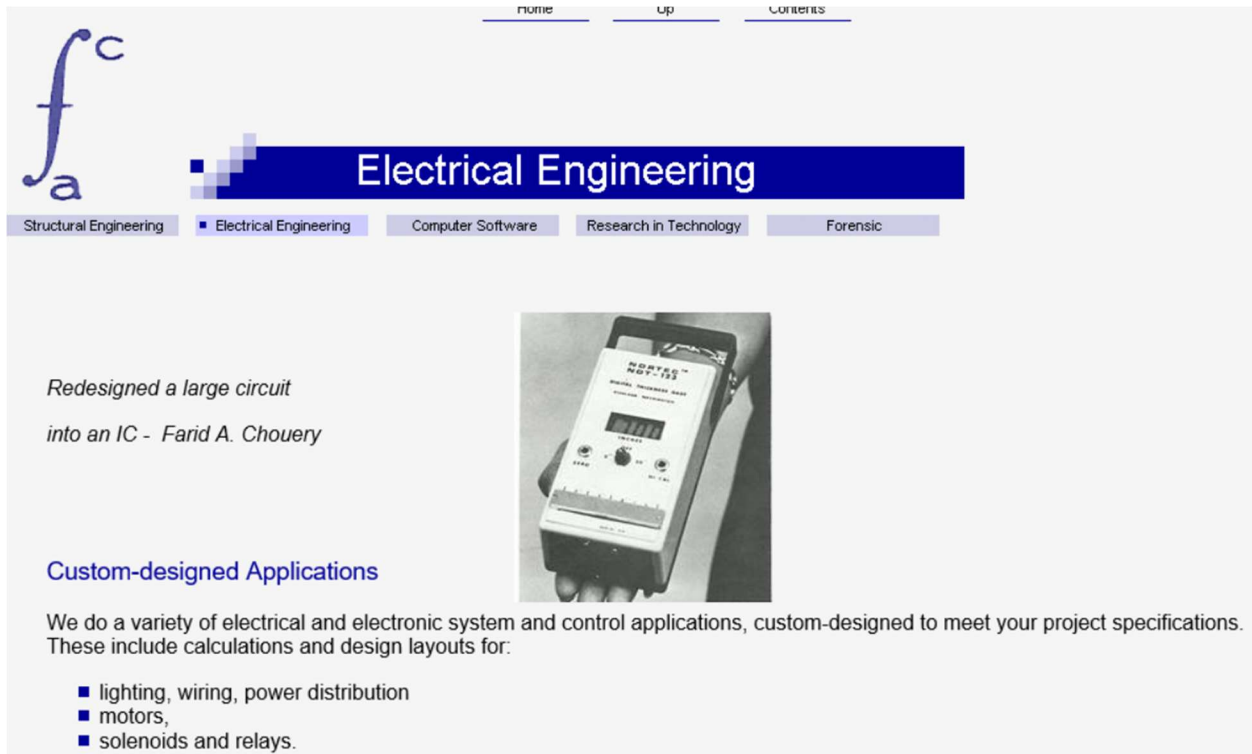

From what I have seen in my life, Bernie, it is not earned money; it is stolen money or commission money; no work was done to justify their earning.

We look at car insurance, and I see way overcharges, basically stealing, grand theft. Here is why: When I first came to the US in 1969, people did not wear seatbelts or have airbags. Seatbelts were not required by law until 1986 in WA. In 1965, the law required seatbelts to be installed in all cars. Airbags were required in all vehicles in 1998. Accidents caused many injuries, and the insurance covered all medical expenses. Car safety has improved; airbags have been installed, and we cannot drive without seatbelts. The cars have an Anti-lock braking system, rearview cameras, and Forward collision warning (FCW) combined with automated emergency braking (AEB), which reduces the incidence of rear-end collisions by 49 percent. It's not just low-speed crashes that are prevented—the technology reduced serious injury crashes of this type by 42 percent, and many other safety features. We all pay for these safety measures. I designed ultrasonic equipment at Nortec Corp. and discussed with other engineers

how to use our design in cars for Forward collision warning (FCW) combined with automated emergency braking (AEB). Now, it is used in vehicles. Nortec had the system, and I helped compact it by making a chip that fits in the palm of your hand and is portable with batteries. I could do it when custom chips were available to do it yourself were available. Nortec was acquired by Olympus' business after they fired me.

[Olympus Inspection Solutions—NDT, Microscopes, XRF, RVI \(Olympus-ims.com\)](http://Olympus-ims.com)

[NORTEC 600 \(Olympus-ims.com\)](http://Olympus-ims.com)

The screenshot shows the website for Nortec, an electrical engineering firm. At the top left is a logo consisting of a stylized 'f' with a 'c' above it and an 'a' below it. To the right of the logo is a navigation menu with links for 'Home', 'Up', and 'Contents'. Below the logo is a dark blue banner with the text 'Electrical Engineering' in white. Underneath the banner is a horizontal menu with several categories: 'Structural Engineering', 'Electrical Engineering' (which is highlighted with a blue square), 'Computer Software', 'Research in Technology', and 'Forensic'. The main content area features a section titled 'Redesigned a large circuit into an IC - Farid A. Chouery' with a small image of a Nortec RDT-155 device. Below this is a section titled 'Custom-designed Applications' with a paragraph describing their services and a bulleted list of applications: lighting, wiring, power distribution; motors; and solenoids and relays.

My supervisor at Nortec was Bob Bodmer, a great electronics engineer. [Robert C Bodmer, \(509\) 628-3805, 1734 Bolleana Ave, Richland, WA | Nuwber](#), the vice president, was Charli and is an electronics engineer. [Ultrasonic thickness measurement - Wikipedia](#)

So, it is the mafia; God and the world demand human rights; it is intellectual slavery and abuse.

The question is, was the insurance premium reduced? The answer is that no premium was increased to be much higher than inflation. Now, they want to increase it, blaming it on car theft. That is the mafia. I had an accident on 12/8/2023, and it was not our fault. And had an injury. She T-boned us, and I could have died. But God told me the angel protected you. We will hire a lawyer because the insurance is too big to fight. We need consumer advocates like [Ralph Nader - Wikipedia](#). This has gone too far. I am not a lawyer; I am a critical thinker. Where are they spending our money? Well, I watch TV on every channel, and I watch insurance ads from Liberty Insurance, Geico, Progressive, etc. Statistics show people change car insurance every 5 years; I kept Farmers' insurance for 45 years. They gave us a good deal for bundle insurance. Instead of spending money on advertising, they should offer discounts for old customers and bring the premium down to a fair price. They should be ashamed of themselves. Here is the advertisement cost on TV: "In contrast, a 30-second commercial on national TV could cost several hundred thousand dollars. In fact, according to Statista, the average was \$104,700 in 2019, while during the 2019-2020 season, a 30-second TV ad on Sunday Night Football had a cost of roughly \$712,000."

[TV Advertising Costs: Local and U.S. Averages \(Plus Options\) \(fastcapital360.com\)](#)

[How Long Do People Stay With One Insurance Carrier? - Square State Insurance Agency](#)

I hope people will start walking and riding bicycles to avoid insurance.

Another example is error and omission insurance; everything is on the computer. Where is the error? It is no longer a slide rule.

Here is something new for the new generation: the discovery of Artificial Intelligence. I saw on NBC, Lester Holt, how AI can be used to make cheap movie production. [NBC Nightly News With Lester Holt : KNTV : April 27, 2023 4:00pm-4:31pm PDT : Free Borrow & Streaming : Internet Archive](#). Shown at 4:21 pm on the news. They said that Netflix will use AI to make cheaper movies, but they will raise prices. [Netflix price in 2023: How much you pay and what you get | Tom's Guide \(tomsguide.com\)](#). So, I don't get this; they will make cheaper movies, and the consumer will pay more; that is grand theft. Because AI threatens jobs in Hollywood, the Hollywood Writers are threatening to strike. The last strike cost Hollywood Billions. [Hollywood writers ' studios stage last-minute talks as strike deadline loom \(msn.com\)](#)

[Why AI is a Major Area of Concern in Hollywood Writers Strike \(msn.com\)](#)

[Hollywood writers vote to authorize strike — their contract runs out on May 1 : NPR](#)

I think networks like WVV Broadcast Network (World View Weekend), an article on the web by Brannon Howse in February 2018, disseminate disinformation.

[Are Christians to Visualize Jesus? | Worldview Weekend Broadcast Network](#)

If we do not understand God's first warning and urgency to change, why do they say visualizing is listening to demons? What is the difference between visualizing and daydreaming? It is the same. I visualize Jesus's hand on me and others for healing, and I am healed with living water. How do you account for the healings?

By what authority did Dave Hunt, in 1986, have Christians of all worldwide denominations denounce visualizations of the Lord? What do you mean by World View Weekend? By what right do you speak for the world? Evidently, this is bullying by scared people threatened by visualization and afraid of the unknown. Clearly, for example, the Catholic Church allows imagination in meditation. This is bullying by Dave Hunt.

On the other hand, science proved that God is very jealous of the first law of physics. If you visualize Jesus, He will show up and not let you do it, and it will become genuine and spiritual because He is God and jealous. After many visualizations, the physical visualization ends. Jesus and God become a spiritual presence or a light shining in your meditation, no longer a physical presence, and the sensation of the living water becomes evident. The repertoire you chose to bring Him to you becomes a spiritual liturgy. Visual prayers were Jesus's request in a vision I had in 1973. I was 22 years old. The story is in my book "Visualize Jesus: Ten Ways to Christian Meditation."

Jesus appeared transfigured in my school church while I was in Seattle. It was physical, a shift in time. You may call it a Schizophrenia episode, but how do you account for the healings in my life, the ability to do two master's degrees in engineering with two licenses, PE and SE, and raise a daughter? Jesus walked the middle aisle, put His hand on my left shoulder, and said, "Farid, keep up the good work." Then I had a beard, and He left. I was chosen by Jesus in childhood. If it were not for my parents, wife, daughter, and grandson, I would have killed myself. It was not easy all these years, especially when someone said I was hallucinating. On

5/8/2025, Jesus told me this is God's creation, so enjoy it. Fr. Samir said that when we prepare the sacraments in the church, it is a visual prayer, and it was Jesus's request. I thought about Jesus's appearance for two years and decided to be a priest, but God stopped me. Jesus wanted an engineer. He wanted me to be a writer so that I could reach many people. He asked me to write a book on meditation after the Holy Spirit descended on me. I was forced to take a Lifespring seminar (PSI World) in 1979 and learned to hypnotize yourself, visualize money and a Lincoln Continental, to be wealthy, and heal people with your own power without medicine. They believe the body heals itself, really, and how about mental health or genetic disease? It was about materialism. God opposed such meditation, and COVID-19 showed it is nonsense. The book is about visualizing Jesus as a meditation.

I responded that I did not know how to write, and it took me ten years to develop an outline. The book title is "Visualize Jesus: Ten Ways to Christian Meditation." I can explain and write about the uniqueness of the Universe as a scientist, not as a priest. Jesus did not ask me to start a denomination, but to write. From the web, there are 47,000 protestant denominations. Tens of thousands of false prophets, narcissism, and/or the love of money, not God. I don't think Jesus wanted that many denominations. Jesus wanted one denomination with one Bible. But indulgence and corruption caused the break of the Church. I hope I made a difference in healing the Church.

The only time I had a beard was in 1979 while studying for my master's degree in Electrical Engineering. I was a part-time employee at Paul Weber and Associates. Paul required all employees to take the PSI IV from PSI World. I took the seminar and learned how to hypnotize myself to be successful. I had a problem with it; they made me believe I would become Jesus Christ, and I had a problem with hypnotizing myself and healing people with my hand and made-up medicine. I changed that, hypnotized myself, and let Jesus heal because we don't have that power. The power of the Holy Spirit descended on me in 1979 while meditating on the Shroud of Turin, six years after Jesus's appearance in my school's church. I was asked to write the book. Visual prayers involve everything we believe.

Currently, visualizing Jesus is accepted in medicine, psychology, success/motivation, and education. Brannon should be ashamed of relying on a book published in 1976. Currently, we

do empirical experiments with evidence-based psychotherapy testing started in 1987 by Eddy, which far exceeds the knowledge of 1976, which did not have any of these experiments proving their hypothesis. In psychology experiments, the participants cannot be the whole world, and must use scientific statistics.

I studied psychology at Fielding Graduate University, 2020-21. Clearly, new articles since the 80s require empirical experiments with evidence-based research. In 1976, they called it just about everything, Schizophrenia, based on DSM II. It was a scientific fanaticism with no evidence base. My proof of that is that I was misdiagnosed in 1974; people had lost the stigma, and certainly became suspicious of visualizing Jesus. So, the whole book has to be thrown away. Also, in 1975, the movie One Flew Over the Cuckoo's Nest came out and is now considered highly unethical, causing a stigma in society about psychiatric hospitals that have polluted the public's mind. The public has not recovered from this disinformation. The movie claims Electroconvulsive therapy and lobotomy were done regularly and to anyone in 1975. Lobotomy is mostly rejected as an inhumane treatment to preserve patients' rights. From the 1950s onward, lobotomy began to be abandoned. Electric shock is not done for everyone; it is 12 treatments per patient. A decades-long fight over an electric shock treatment led to an FDA ban. But the war is far from over. "What they're doing is just taking people that have issues and building more," said Rico Torres, who was first shocked at eight.

[Electroconvulsive Therapy: A History of Controversy, but Also of Help - Scientific American](#)
[A decades-long fight over an electric shock treatment led to an FDA ban. But the fight is far from over. \(nbcnews.com\)](#)

[FDA Took 25 Years to Ban Painful Behavioral Shock Device on Children | CCHR International](#)

The movie shows psychotic movements that seem funny to the audience. Psychomotor agitation can cause a person to make movements without meaning to. They may fidget, tap their toes, or move items around. The movement disorders associated with antipsychotics are disabling and distressing, resulting in behavioral disturbances (violence and aggression). It is nonadherence and exacerbation of psychosis. So why is the audience laughing while the actual patient is suffering? This is not funny and is unwarranted to put in a movie.

So, why did Hollywood make this movie? The answer is to make money at the expense of giving false information. We need an ethical rating from the Department of Health and the Religious Ethics Society. This rating should be for every new movie to avoid disinformation. Also, the rating to stop promoting the film before release prevents those people from becoming rich at the expense of their health and spiritual well-being. This is not freedom of speech. It is lying through their teeth to make money, affecting their mental and spiritual health. Freedom of speech is not immune to defamation until you give an ethical rating. The movie One Flew Over the Cuckoo's Nest is just one example.

One Flew Over the Cuckoo's Nest is a novel by Ken Kesey, published in 1962. Set in an Oregon psychiatric hospital, the narrative studies institutional processes and the human mind, including a critique of psychiatry and a tribute to individualistic principles. I played guitar with a group in Church, and after making the Cursillo, I became part of the movement. We would go to different places, play guitar, and sing from around 1970 to 1972. We went to Steilacoom retirement homes and psychiatric institutions, and I could see that Ken Kesey had the wrong narrative, and it was not as he described. Branon and Dave Hunt are definitely not authorities on this subject. I remember when I saw the movie, I was dreadfully uncomfortable. I could not believe what the movie was portraying. I actually was hospitalized with a breakdown a few months before, in 1974. It is not funny. I felt bad after watching the movie and started distrusting my psychiatrist and the nurses. That was the stigma I was talking about. The movie was made to make money and was far from the truth. The public does not need that; we are talking about mental health. It is not a game, and the current diagnosis manual, DSM-5, has changed completely since 1975, but the stigma is still here. **What are we going to do?**

(Believe it or not, as I wrote the last question, the font color changed to red. God must agree with my writing because it is the truth, making me fear God. Critically thinking, movies are made to make money, not the truth. Even true stories are altered to appeal to the public, to make money.) The following link shows the psychological damage of "The Twilight Zone."
[William Shatner explains why his classic 'Twilight Zone' episode continues to frighten airplane travelers \(msn.com\)](#)
[Whoopi Goldberg Thinks One Television Show Has Destroyed America \(msn.com\)](#)

Even in January 2023, people still suffer because they still have a stigma about mental health.

[‘Shrinking’ star Jason Segel never thought mental illness was stigmatized: ‘I’ve asked for help so many times in my life’ \(msn.com\)](#)

Hollywood also destroyed the word hypnosis, making people believe the doctor would make them do something bad by hypnotizing them. Many movies show someone killing someone under hypnosis. People became scared to go to the doctor. I learned quickly not to call meditation hypnosis, but call it a Neurotherapy session because of Hollywood's damage to the psychology profession. It caused people to have a stigma and fear of hypnosis that they would involuntarily do something, even kill someone. Hollywood made these movies to make money. Obviously, illusions are false, but the stigma is still there worldwide, making money with these movies is unethical. Because of this stigma, I resumed using a CD or Spotify and never did it in person. I had to do it in person and help 70 people get certificates. On October 5, 2021, they had a movie about a doctor controlling his patient to love him using hypnosis, a film called [Hypnotic | Official Trailer | Netflix](#). Well, what can I say? They just do not quit. They keep hurting the profession. I see this problem clearly, so I call my meditation Neurotherapy, not hypnosis, so I can heal the world with my meditation session.

Another new thing psychologists adopted in the late 70s is mindfulness for stress reduction: [Mindfulness | Psychology Today](#). My concern about using mindfulness for everything became scientific fanaticism. It is like saying that one drug or medicine heals everybody. No such medicine exists. I offer Christian meditation to connect with God. Ignoring God in meditation will make many Christians distrust mindfulness meditation. For example, there is nothing there for the evangelicals. You must connect with Christians; 56% of the world's population believes in Jesus. You cannot let meditation become a fad; with time, it will disappear.

My dad told me that the most important thing when he grew up was to know many languages; this required memorization via visualizations. In the Arabic class, I remember we saw very old, long poems, many pages long. Arabic writings were developed in 512 and memorized by the nomads through visualizing rhyming music for centuries. Finally, they were written down by Aser El Gahily. It cannot be done; our brains are not the same. Old, beautiful

songs about harvest, patriotic songs, and crops were finally written down. They do not know who wrote them and how far back they go; it is a traditional song to have good crops or fish. There are fertilizers and big fishing boats; there is no reason to sing these beautiful songs. The Pledge of Allegiance to the flag (1882) has been eliminated from school; it will be forgotten with time, and is a part of our history. [Pledge of Allegiance to the Flag of the United States of America | History & Text | Britannica](#). Because of technology, we have lost our culture and humanity.

For example, "Shati ya deniyee wo teyseer" in Lebanon. "Hela Hela ela ya mahoun" is a fishing chant in Egypt, maybe dated to the Pharaoh's time. Other examples are Celtic poetry, American Indians, fishermen's songs, all the Psalms, and maybe in every culture, including the Russian Song of the Volga Boatmen, and many spiritual songs. Thus, the past is still with us; only spiritual music stays. People in the past could memorize all the song's lyrics, no matter how long; if they were too long, they split the poem into two parts. Thus, our brains have devolved and cannot do that anymore; we have become slaves to reading and electronic language translators. We cannot read at birth; it is taught and is now a requirement. It would have been easier if the alphabet had been in pictures like the heliographic ones. At least helping the person with dyslexia. Many people believe the Pharos were in contact with outer space or could contact aliens and have another civilization. I tend to believe it. I don't believe the Pharos were from outer space since they have our DNA. I have always wondered if the top or some place on the pyramid is an outlet for the fifth dimension. It could be only astronomical observations. Possibly a portal for space travel or a landing for flying saucers. Now we have a different brain; our current brain has become lazy and is not getting any smarter; it is devolving. The amount of information coming to us causes our attention span to decrease. That has to do with the first warning from God. Brannon, I make my case. The second warning from God is that I hope in 300 years, our brains will not degenerate, lose facial or voice recognition, and rely only on technology to recognize people.

God's Second Warning: Our brains will devolve from losing facial or voice recognition by relying only on technology. We will fail to recognize people. It is the loss of Humanity.

God's second warning is that we will lose our attention span. After all, it is getting less and less. For example, someone puts a computer pad with a camera and microphone in front of a person in the distant future; it reads, " This is your mom or your dad because we have lost our ability to recognize people and rely totally on technology." Again, we lose Humanity. Basically, technology is a threat if we rely totally on it. **These two warnings came from God because He loves us and does not want us to worship technology and become lazier and lazier. We have to tell our children that there was a time when we rolled down the window of our car, used a pen and paper to write, and there were no robotic dogs. He is the only God to worship. He sent me as an apostle to give us a way out: visualization and meditation. So we can evolve into a better species. What is the use of being human if we devolve into nothing?**

God's first warning	God's second warning
<p>If we lose visualizations and imagination to technology, we lose our brains; thus, we lose Humanity and everything.</p>	<p>Our brains will devolve from losing facial or voice recognition by relying only on technology alone; we will fail to recognize people.</p>
<p>These two warnings came from God because He loves us and does not want us to become extinct.</p>	

I find it important to go to a real doctor in my collection of meditations. Don't let your parents, wife, husband, kids, yourself, relatives, friends, or Google be your doctor; go to the real doctor. Asking to go to the doctor is part of this meditation.

[Microsoft Word - Healing meditation using Jesus published \(livingwater3t2m.com\)](http://livingwater3t2m.com)

The other warning that science expects is social media. It is a drug; like every drug, it affects brain chemistry and emotion.

[The U.S. Surgeon General Issues a Warning About Teen Social Media Use | Teen Vogue](http://TeenVogue.com)
[Meta whistleblower says 'tens of millions could die in the coming years if social media isn't overhauled \(msn.com\)](http://msn.com)

As I have noted before, the brain evolved faster than the physical body, not millions of years but 100s of years. This is seen with the advent of the printing press. We cannot memorize

as much information as before after 600 years. Back then, the entire Bible was memorized. So, the brain changed. We have to stay away from worshipping technology. With the advent of video games, if all kids spend time playing, they will grow up; this will be their education. Whether you believe I am an apostle or not, realize that only a prophet can obtain these warnings from God. God always works through one person and declares him His chosen prophet. The current fall of Humanity is an emergency and a threat to human destruction by nuclear wars. Worshipping technology is a cognitive bias; it is fanaticism. A human condition and sickness. We must forgive and move on and worship the only one, God. God will rescue and use the time to heal fanaticism.

Remarkably, Jesus came at the most fantastic time in history; that is why He is God and travels through time. Jesus was promised to us by the prophets. He asked us to forgive and love our enemies, such as fanatic people. It was evident when Jesus healed people on the Sabbath, and they accused Him of breaking the law and committing a sin. He was doing an act of kindness. But they were so fanatic about keeping the Ten Commandments. Jesus told them, "The Sabbath was made for man, not man for the Sabbath." **Mark 2:27** Jesus also accused them of being blind: "Those of the Pharisees who were with Him heard these things and said to Him, 'We are not blind, too, are we?'" Jesus told them, "If you were blind, you would have no sin; but since you say, 'We see,' your sin remains." **Matthew 13:13** and finally, the Good Friday event shows they wanted Jesus' Death for declaring himself as the Messiah and God. They could not accept. They had a specific concept of what a messiah should be and were fanatical about their belief. Their concept is a future Jewish king from the Davidic line who is expected to save the Jewish nation, be anointed with holy anointing oil, and rule the Jewish people during the Messianic Age. In our modern day, people would say this is ridiculous. The fanatic Jews and Romans killed Jesus, but the question is how many times Jesus was killed throughout history by people over and over again, by other fanatics. The world will see peace when it gets over the hurdle of fanaticism. Do the Jews now believe Jesus is their savior? Or are they still fanatics? Jesus said they were not living the law. He told them to follow what they were taught, but not what they did (Matthew 23:3). It was not rooted in love. They need to approach the law with love and know they are loved by God.

[The Radical Movement to Worship AI as a New God \(msn.com\)](#)

[The Pope Just Released a Guide to Artificial Intelligence \(msn.com\)](#)

[Pope Francis warns of 'perverse' AI dangers \(msn.com\)](#)

Machines will never have the human Spirit and ethics, and will never have all the dimensions of the Universe given by God to humans, and they cannot travel through time with Jesus on their own. AI cannot raise the dead like Jesus. That will not happen with zero probability, end of the conversation. AI has potential benefits like education, transportation, and health care. For that reason, God sent another prophet, that is me. You know why I should care, if not for God. All you can do is pray and meditate.

The signs of the extinction of Humanity are everywhere, as follows:

- Ukraine's war may escalate to WWII with a nuclear arsenal.
- Global warming causes fires, Death, and weather of a highly unstable magnitude. The end result is that Earth will become a desert.
- God is angry and will retaliate against those who worship another God, like technology.

- Already, God punishes pandemics for many reasons.
- Injustice is all around; court cases are about winning or losing, not right or wrong.
- Corruption is seen worldwide, and the Love of money is causing it.
- Advertisements have increased beyond belief, wanting our money by any means. Con artists, spam, and spyware filter our lives
- Crimes are on the rise
- The dirty bomb can be easily used by terrorists
- Corporations and governments tell you to think positively; we know what we are doing, and the only way to know is by contacting the creator and depending on God alone. Use what Jesus asked me, prayers and meditations.
- Disinformation causes us to believe that truth is false and false is true. God already warns. With artificial intelligence, disinformation has become not only words but also visuals.
- Power hunger, bullying, and narcissism are on the rise; God will punish
- God already sent me as a prophet, asking people to repent
- A new way to meditate, I am introducing them to connect with God
- God has already given two warnings to me

If we become extinct, the creator enforces accountability. The only hope I have is what Jesus told me: there will be a domino effect of apostles before I come. Indicating we shall overcome. Also, from Genesis, God is attached to His creation. He spent time creating and listening to His composition or symphony and kept giving feedback on His creation. Finally, Jesus said the meek shall inherit the Earth (Matthew 5:5); it means there will be an Earth with people.

When finances become available, my wife and I, two apostles, will open many tuition-free apostle schools in the US, Europe, and worldwide; in the East and West, Patriarchal and Matriarchal for boys and girls schools. The school's custodian will be the Melkite Church; the school is run by Orthodox, Catholic, and Protestant, with the best teachers in the world. We read John 17:21, "That they may all be one". We know Paul was a protestant; he protested to

Peter that Christianity should also be for the Gentiles. James was orthodox; he protested to keep having a circumcision. But there was no division. We pray there will be no division at school among denominations. In the future, the only way to avoid slavery is to have apostle schools and new apostles and prophets. It is God's natural way of doing it. On August 17, 2025, God said you must involve Islam because He wants Peace. I attended an apostolic school in Cairo, Egypt: College Patriarchal Melkite. I know how it is, and I learned that Jesus' face appeared on Veronica's handkerchief. I went home, wanted to see it, and that is when Jesus appeared on the balcony with the Shroud of Turin. I was 7 years old. I became an apostle and want this to happen to others in a new apostolic school. But we must start small. God began with Abraham's small family and Adam and Eve. God is requesting that the government not be involved. Jesus would appear again on the balcony, dressed in a white robe, and teach me. The most important thing He said is to forgive. On 12/5/2025, the Prophet Mohamed told me God will send angels to help with apostle schools. I heard his voice.

Martin Luther was like St. Paul in his protest of the Catholic Church and made a big difference in Christianity regarding indulgences: "He caught the Catholic clergy right-handed." Luther was sent by God; otherwise, Christianity would have vanished. Because giving our earnings to the Church to go to heaven is a lie and a con, and people will find out from God and other religions. Unfortunately, all the denominational wars followed. But that is ancient, and there is no need to repeat the same mistake. The religion of the United States is Protestant. Meaning protest in every religion. Even atheists protest against people having a religion. I pray people will come to their senses and avoid a civil war. People worried that if Trump loses in 2024, a civil war would erupt. Why can't people let it be and live peacefully with each other? Things must change; the only way is to peacefully protest to cause change. I protest against lectures in the worship temple. Today, you can go online and get the best sermon; no need to have it in church. The Jews go to the synagogue to pray. The Muslims go to the mosque to pray. The Hindus go to the temple to pray. This is in every religion. It is the same as the Christians; we go to church to pray, not listen to a sermon.

Baptize them and teach Matthew 28:19-20:

¹⁹ Go therefore and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, ²⁰ and teaching them to obey everything that I have commanded you. And remember, I am with you always, to the end of the age."^{1a}

What does it mean, Apostle School? It means teaching kids to become a messenger of God, Jesus, or both, primarily a messenger of peace. There is an apostle of God like Mohamed or Moses, an apostle of Jesus like Peter, and the rest to help us reconcile with the creator and earn His rewards. Also, there is an apostle of art and science for improving our lives on Earth and believing in God. I only require a chapel in the school to pray every week.

Investors will not be interested in apostle schools; it has no monetary profit. We must find a different way to raise money. Apostle school does not mean a school to become a priest, a pastor, or a nun, but for God to choose His apostle. You can be anybody to be an apostle.

If AI is going to be only about money, we will lose humanity. AI must also help humanity forever and fund the apostle's school until Jesus returns.

The call from the Holy Spirit came to me and my wife, two deacons. I am a Melkite deacon; my wife is a Lutheran deacon from the 70s. God did not choose a pastor or a priest to start the school. That is God's wisdom. I have always been a deacon and witnessed Jesus's work all my life, starting when I was 7 years old, when Jesus appeared to me.

<https://www.msn.com/en-US/lifestyle/family/-reasons-why-raising-your-child-with-religion-just-makes-sense/ss-AA1dCY4f?ocid=sapphireappshare#image=6>

Any person from all aspects of life and religion is welcome. I told Bernice this would be our legacy. She said she would want to build Compass housing for battered women and women on welfare working 2 or 3 jobs to make it. The custodian would be ELCA. God told me in my meditation on Sunday, 15th, 2023, that it was a good idea. So, Jesus can pick and train someone to be a real apostle, as He taught me. The Melkite Church's mission is to preserve the heritage of the original church.

The Bible is silent about gambling, which was around when Jesus came. Gambling is part of human nature as long as it does not become addictive. I think I know why God leaves it alone. Many times, acquiring money has to do with luck. To God, it is always what you do

with the money. An example is Microsoft and Amazon being at the right time or having the right people.

Peter draws straws to pick an apostle and lets God decide. I am buying a lottery ticket to have money to build apostles' schools worldwide through the Christian church. So, let God choose. So, what is the difference between Peter and me? It is both gambling and the luck of the draw. Finally, on 6/11/2023, Jesus asked me to start an independent news channel with one Christian voice (Orthodox, Catholic, and Protestant). He said the 700 Club News is biased toward Republicans. The Catholic News EWTN is biased toward Catholic affairs and business. Many news channels are controlled by ads and sponsors, influencing political biases. Many harbor negativity because it sells ads. Al Jazeera News is not biased, but it is for the Middle East, not the West. God wants a worldwide Faith News Network that reflects Jesus and what He has to say about certain news, possibly having Bible Quotes giving Faith, Hope, and Love to the people. I look at the money I spent in Living Water 3T 2M, LLC, the Apostle Schools, as part of church tithing. If investors do not want to invest in these projects because there is no money, it does not mean they will not build them. **Not everything is about money, but everything is about truth.**

Historically, many politicians start thinking they are God when they have power. They keep lying to the public and the world to maintain control. For example, Putin, Xi Jinping, and Kim Jong Un threatened the world with nuclear arsenals. Their agenda is to be God-like, controlling the world and its wealth. They do not respond to the needs of their people, only their selfish glory. However, China realizes that if one person decides on 1.4 billion people, it will not work. Other Chinese economists agree. Now that Trump became president on Jan 20, 2025, God will show him who God is.

On Lester Holt's NBC News on 12/11/2023, he interviewed an insurance agent, Ken Mason, who is pro-Trump, about Trump's 51% popularity in the polls in Iowa. The insurance agent said Trump was a gift from God. Insurance is in bed with Trump, stealing from the people, and has no spirituality; it is all about money. Trump sees NATO as about money, not the freedom of the people.

[Trump says Russia could do 'whatever the hell they want' to NATO countries that don't pay enough \(msn.com\)](#)

If Trump is a gift from God, why is he saying drill, drill, drill for oil and gas? He is in bed with the oil companies, the devil that destroys our planet's atmosphere. The oil companies and some of the republican politicians are behaving like the cigarette companies when they say smoking is good for your health. 200 countries in the COP28 meeting voted to phase out fossil fuels by 2050 or sooner. [COP28: Your Guide to the 2023 Climate Change Conference in Dubai \(nature.org\)](#)

Trump practices political indulgence, telling people I am Jesus, so vote for me, and you will go to heaven; I will save America, [Trump Claims, 'I Alone Can Fix It' During the Republican National Convention - The Atlantic](#), a bunch of crap. Trump tells the evangelical pastor to tell their congregation to vote for him. Cowardly pastors who do not know Jesus fall into the trap of telling their congregations to vote for the political party, not for the character of the person. I am independent and not trying to tell you who to vote for. But Trump is bad news; his successes are based on lying and deceiving people. It is truth versus lies. God always destroys people who claim they are God, including Trump. Just look at history.

God reacts with evidence of triple pandemics, COVID-19, Flu, and CRV God's response today to all these false prophets. Currently, Strep A in children is on the rise. [CDC Monitoring Reported Increase In Strep A Cases In Children | HuffPost Health](#)

In the United States, the Republicans do not want regulations, really. Without building code regulations, we will see catastrophes like Turkey's earthquake. Sadly, 35,000 people are an entire city disappearing. We must protect our people; it is God's request.

He is the only God and is jealous. In the Old Testament, we read that Pharaoh declared himself a god and wanted the Jews to be his slaves to build his empire, and God sent Moses plagues, disasters, and pandemics. Sounds familiar; Trump, Putin, and others declare themselves God, dictators, and want us to be slaves to AI, witchcraft, and worship technology. They will control the masses by listening to our phones, manipulating our conversations and official documents, reading and manipulating our emails, or sending email responses to spam or trash using AI. They will know how much money we have, what we eat and drink, what we read, what car we drive, our personality and psychological profile, and all the information that will control and take our money and our livelihoods. They want a profile of every person in the world, similar to a CIA agent profile run by AI. That is bad news; it means slavery. Slavery means you are forced to work with no time off. This is what happens if

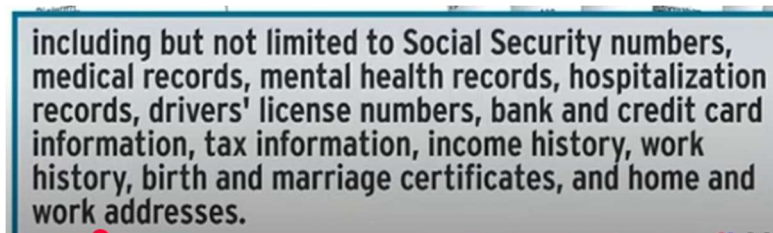

powerful, rich people control the world. The alternative to social security, Medicare, and Medicaid is slavery.

In February 2025, Elon Musk, a Trump appointee as co-president who was not on the ballot, and his team had access to the federal payment system, including millions of Americans' bank account information, personal records, and health records. The Treasury Department gave Musk's team access to the system to monitor and limit government spending. On Rachel Maddow News on MSNBC on March 19, 2025, at 6:00 PM, she said what they can do to you without probable cause when they have your information, such as your bank account, your phone records, text messages, iCloud, or your house, or your office. They can freeze your bank account. What I am worried about is slavery. The communists wanted their government to be God and provide for everyone. It did not work. The people running the government are human, and corruption happens. So, they mixed in capitalism. My warning to them is that if they try to enslave their people or others, God will act. They want to control the world; it is a war without bullets, and they can use AI to enslave. This was evident after the TikTok social media app was released to collect personal information in China. They collect your personal information to make you believe they are God. What are they planning to do with the personal information?

<https://www.bing.com/videos/riverview/relatedvideo?q=rachel%20maddow%20march%2019,%202025%20full%20episode&mid=413D043464D81C2B867B413D043464D81C2B867B&ajaxhist=0>

On Rachel Maddow News on MSNBC on March 20, 2025, at 6:00 PM, she shows all the documents Musk's team had accessed at the Social Security department.

<https://www.bing.com/videos/riverview/relatedvideo?&q=rachel+maddow+march+20%2c+2025+episode&&mid=BE4C22DEF0779D43D373BE4C22DEF0779D43D373&&mcid=CF466F3601CB4B9BB458DD83CB32E7DA&FORM=VRDGAR>

including but not limited to Social Security numbers, medical records, mental health records, hospitalization records, drivers' license numbers, bank and credit card information, tax information, income history, work history, birth and marriage certificates, and home and work addresses.

If you privatize Social Security, a private company would have this information. I have no trust in a non-Patriotic company that has this information. It allows marketing, manipulating, enslaving someone financially, and blackmail using mental health records.

<https://www.cnn.com/2025/05/02/politics/doge-fight-social-security-data-supreme-court>

Two Harvard students have proven that Meta's smart glasses can be used to discreetly find people's identities using Instagram and AI. Meta's smart glasses have been converted into a facial recognition device that enables the user to identify random people in real-time. This Seattle news on 4/11/2025 is my slavery warning. They show the name, phone number, address, and relative on their phone. Soon, you will also be asked to provide your credit card number. Because everything is digital, you will soon be unable to log into your bank account.

“Empathy is the Oxygen of Democracy,” A Presidential Historian, Jon Meacham, said on 3/20/2025 on MSNBC. https://www.youtube.com/watch?v=A_2nWiexu9g

<https://www.aspenideas.org/sessions/what-does-it-mean-for-empathy-to-be-the-fuel-of-democracy>

Edward Snowden said

The NSA has been gathering information on financial records, internet surfing habits, and monitoring emails. It has also performed extensive surveillance on social networks such as Facebook.” Yes, government agencies can track a person’s phone even if they don’t have physical possession of it under certain circumstances and with the proper legal authorization. This is often done through various surveillance techniques and technologies. The thing is, how do you do that for 400 million people in the US? That's especially true when listening to conversations. You have to be a person of interest and a target. However, AI can do mass surveillance for the entire population of Earth. Our privacy is at stake, as well as our inventions and ideas. God is aware of these crimes and sent me as a prophet to stop them, giving my grandson his freedom.

I asked AI this question: Will AI cause slavery? Here is the response

Copilot

AI itself doesn't cause slavery, but its misuse could potentially lead to harmful outcomes. However, AI is also being used to combat modern slavery. For example, AI can help identify patterns in financial transactions and other data to uncover human trafficking networks ¹ ². It can also assist law enforcement in tracking and rescuing victims ².

The key is to ensure that AI is developed and used ethically, with strong regulations and oversight to prevent misuse. What are your thoughts on the ethical use of AI?

The government has all this personal information, but they have not used it against us yet. [Trump appears to be building an unprecedented spy machine that could track Americans](#). We will become enslaved people, giving our earnings to them and having them control us. Slavery means losing our freedom. Someone else is deciding your life for you. We must have severe laws against it. Technology has made communication easy, and people know what is happening worldwide and in the environment. If AI manipulates the voices and pictures, it will hinder communication. There should be severe laws against it. Trump is bad news influencing AI; for him to make money, we will become enslaved and lose our freedom. AI can alter reality for you to vote for a devil to rule us as enslaved people. Trump received \$7.8 million to influence our government and thinks he can get away with it. His logo is "Make America Great Again (MAGA). Do you believe that? He is a con artist. If they are serious about MAGA, then the first thing they should do is take all their credit cards away. Before the 70s, there were no credit cards, just mortgages. People became brainwashed using credit cards to have the American dream and fell into debt. At the time, the government capped the interest rate at 12%. They took the cap off, and it reached 33% interest and more in Reagan's time. Chinese AI, DeepSeek, is banned in South Korea for that reason.

I told Austin Kollfrath, MD, my doctor, that AI may lead to slavery. He said we have to deal with Global warming and slavery in the future. You may say it is in the distant future. Not really; it is already here using TikTok. Also, trafficking is a form of slavery. They scoured the enslaved people in old times with modern AI, and they can have a different kind of punishment. If AI falls into the hands of the mafia, we will have slavery.

What I am concerned about is slavery controlling our brain, colonizing it by inserting a chip or psychologically, and having cults. Altering the truth using AI in video and audio. AI can attack businesses and make them less competitive. They access the web database and give you information. What stops them from accessing financial and medical records? AI leads to slavery; they have been caught!!! They invented the telephone, the car, jeep, trucks, tanks, and planes, and used them in WW1 and WW2. This happened in a period of 30 years. Now they have invented AI and want to colonize the brain, which will cause WW3 and civil wars everywhere. GOD SAYS NO, DON'T. They say technology will save the world; it has brought wars.

[The first patient with Elon Musk's brain chip can play chess by thinking but admits Neuralink has 'some issues' \(msn.com\)](#)

<https://apnews.com/article/elon-musk-neuralink-brain-computer-interface-9dbc92206389f27fd032825cf1597ee5>

It is a real threat, with AI falling into the wrong hands. God sent COVID-19; we must fear God because God must act. There are two things for God to act on for sure: 1) sexual immorality. His reason is that He did not create us that way. For Example, Sodom, Gomorrah, and Pompeii. 2) A human or His creation declares to be God. There is one God, and He is Jealous. Whether you believe in God or not, you must believe in what Moses did to free the enslaved people. That is why we need apostle schools to have more prophets.

[Did President Trump Refer to the Coronavirus as a 'Hoax'? | Snopes.com](#)

[How many Americans believe COVID-19 misinformation: poll | McClatchy Washington Bureau \(mcclatchydc.com\)](#)

Amplified by Fox News, Trump, the demigod, lies about the COVID-19 cure and statistics, encouraging not wearing masks and social distancing, which caused many unnecessary deaths from COVID-19 in the USA. He starts acting like a doctor, suggesting medicine for a cure. Trump said chloroquine — an old drug used to treat malaria — “has shown encouraging early results against the virus. We’re going to be able to make that drug available immediately” by prescription.

[COVID ‘miracle drug’ that Donald Trump urged people to take killed 17,000 \(msn.com\)](#)

[Coronavirus: Donald Trump vows not to order Americans to wear masks - BBC News](#)

[Trump, downplaying the virus, has mocked wearing masks for months - ABC News](#)

[\(go.com\)](#). [The Trump Tapes - Wikipedia](#)

COVID-19 deaths have reached 1.1 million in the US. There will be justice, and God will watch because people die. Trump should be charged with lying to Americans and causing death, even if he were the president, which does not relieve him from being a criminal. I guarantee it; hell is Trump’s place to be. What did Trump gain from these lies? People died from COVID-19, and police officers were killed in the Capitol insurrection. Trump should be in Jail. The destiny of leaders who crave money and power will be hell because that has become their God.

[Trump calls migrants 'animals,' intensifying focus on illegal immigration \(msn.com\)](#)

[Trump Calls Undocumented Immigrants 'Animals' and 'Not Human' on Campaign Trail \(msn.com\)](#)

These policies are inhuman, come only from the devil, and are against Jesus' teaching. And he has evangelical supporters who are hypocrites!!!. Trump is making a joke out of Christianity. He is a false prophet. Also, the Republicans are behind this, which is still an issue today. It is all about money. Dictatorship has always been the antithesis of breed. I do not know why Trump is against immigrants; I am Dr. Albert Einstein, and we are immigrants. Dr. Oppenheimer is of German descent, and many are heroes. Why the hatred? They steal from the immigrants because they don’t know the laws. They stole many things from me, like the alternative to the Quartic Equation.

The MAGA “Make America Great Again” Save America is deceiving; what do they mean? They even have a painting of Jesus wearing a MAGA hat. Do you buy that? It is blasphemy, like a Philip Morris ad with Jesus smoking cigarettes to sell cigarettes. Putting the MAGA hat on Jesus to sell Trump is sacrilegious. It is saying Jesus agrees with Trump; I don’t think Jesus agrees with Trump after what Trump did to the world. Ironically, I only see the Republicans who support Trump doing this. It just went out of hand: pure hatred and fanaticism.

Blasphemy

Trump is a millionaire, saying, “Look what I can do with my money; I can destroy America.” He is an evil person. Moses was against the Pharaoh, and I am against Trump.

[MSNBC’s Joe Scarborough: ‘Donald Trump Hates America’ \(forbes.com\)](#)

[Trump: Americans Who Died in War Are ‘Losers’ and ‘Suckers’ - The Atlantic](#)

He sued Jean Carroll after she won the rape case against Trump. He tried to say the election was rigged and sued, and lost. Now, he is after the Justice Department. He sued and hurt lots of people for money and glory out of vengeance. Where does he stand in front of God? I do not want him as president. It is sick; money cannot buy votes. He screwed up our country.

[Justice Department reverses course on defending Trump in Carroll case \(nbcnews.com\)](#)

['Godfather of AI' warns of dangers to humanity from 'scary' progress \(msn.com\)](#)

[Man Who Helped Invent Modern AI Is Now Wracked With Regret \(msn.com\)](#)

[The human brain is superior and more efficient than AI, scientists say \(msn.com\)](#)

“Dr. Geoffrey Hinton, 75, revealed he had quit in [a New York Times interview](#) – and said part of him now regretted his life’s work.”

This kind of experiment violates the APA American Psychological Association Ethics. It is a complete loss of Humanity that God created us to be free to think from birth; this is unacceptable compared to Hitler's experiments. Also, a long time ago, I saw research on how a computer could write music using an algorithm. Where do you get the Spirit and soul embedded in the music we write? Computers cannot write music that gives others peace through the Spirit. Music has been with us since the start of Humanity. Primitive people used sticks to make music while chanting. This is also evident in the American Indians. Many primitive people believed music and chanting brought rain. This is the way we are created; why take it away? So, what are we doing? Music was always used to connect with God. Worship music for Jesus. I believe Jesus’s voice is healing; we must imagine ourselves healed. AI is not capable of simulating Jesus's voice.

We are being monitored to make money and enslaved by foreign and domestic entities. For example, I put my music on TuneCore, a distribution company. I started streaming my own music and put it on repeat on Spotify. Spotify is a worldwide streaming music company. I

thought it was OK since I have a premium subscription. TuneCore did not pay me my royalties and took my music down; they said I committed fraud. They may only have their equipment to do the monitoring. They know every song you listen to. So, they were monitoring the public worldwide. The question is, what else is being monitored that hinders our freedom by adversaries? It is scary. They have the technology, but what are they doing with it? I have programs for structural and geotechnical. I developed the formulas and algorithms throughout the years. I want to open a software company to sell these programs to the public. These are important programs. The question is, why should I proceed if they would be stolen? I would burn the candle at both ends, writing these programs, and they would go nowhere. It is slavery, where the master gets the product free and clear. It is hindering our God-giving ability to create and invent. The enemy can steal and sell the program to another company, telling the public it is a competition. Why should we make new medicine if they steal the formulas? People's worst nightmare is true. In the future, the world's military will focus on ending slavery.

Out of desperation, I asked God to end the Earth because there was too much evil. Then I remembered Lot when Sodom and Gomorrah were destroyed in Genesis 19:1-29. Lot could not find good people, but I believe there are good people in the world, and I asked God not to destroy the world and for Him to forgive me.

Similarly, I have stories, ideas, and inventions; why should I write or type them on the computer? They know how much money I have in the bank. If I look up a watch on the internet to buy, they advertise it is advertised every time I go online. The solution to this problem is in the Bible: Jesus must come and dwell with us physically to protect us.

Technology or computer algorithms cannot erase Jesus or God. Technology cannot save us and take us to Heaven; Jesus Christ has continued to work with people throughout history. He has affected at least a trillion people with many healings, physical and spiritual. The story of Jesus has been taught from generation to generation. Jesus cannot be erased from Humanity. They tried to kill Jesus over and over again. No communists, Nazis led by Adolf Hitler, or atheists, agnostics, Darwin, Stephen Hawking, or anybody can erase Jesus and everything He stood for and the blood He shed to forgive our sins. Our calendar dates after Jesus' Death. That will not

change. All the people of science who tend to erase God cause people to not trust science. It was evidence of COVID-19; some people did not wear masks or get vaccinated, and they died.

German philosopher [Friedrich Nietzsche](#) said God is dead, and Stephen Hawking said the Universe came from nothing. Still, he did not outright dismiss the existence of God, and Darwin said God is unnecessary. How can I not believe in God when living water exists in my body and brain? I trust professionals, not people who live in an ivory tower and lose touch with reality. I believe in evolution, but not Darwin's evolution. It does not take millions of years, but only the 100s.

[Stephen Hawking's Views on God and the Final Act of Kindness After His Death \(msn.com\)](#)

<https://awfulfunny.com/three-scientific-discoveries-that-suggest-god-created-the-universe/>

[Scientific Discoveries That Suggest Evolution Is False \(msn.com\)](#)

But when I visualize God, I get specific feedback from God; why? Our neurons are amplifiers and need feedback for stability. What if their assessment is false and there is an owner of the universe who is not dead. It would help if you got specific feedback on the second law of physics. These philosophers have a human sickness: fanaticism. Why should I listen to them? God is good. He is not dead because we need His good and eternal feedback of love, kindness, and hope. About Darwin: I am not disputing his theory of [Evolution as fact and theory - Wikipedia](#). Some are true, but for Darwin to say God is not necessary is trying to erase God. It is ridiculous. Darwin failed to mention the abrupt changes in evolution made by God. In fact, the entire evolution is about God.

[Scientific Discoveries That Suggest Evolution Is False \(msn.com\)](#)

[Animals Are Shrinking and Throwing Long-Held Evolutionary Theories Into Question \(msn.com\)](#)

My three laws of physics prove God's existence. Science and faith are compatible; they do not need to contradict each other. People believe the young Earth is 6000 years old because of my traveling time. I do not know if I understand the time, and if there is a shift in time, but regardless, the time domain of evolution is scientifically apparent. Still, I do not know for sure

because of the shift in time. You are going to ask me to prove it. I cannot refer to my own miracles and my time travel, but I rely on the miracles of the Bible. Jesus asked the angels to put the fish in Peter's net; that is a shift in time, and Jesus took me back to see what had happened. John 21:11, Luke 5:1-11. God had no reason to create the fish from scratch; there was an exchange from a different time. God will stop nuclear holocaust with His angels.

King Herod failed at Jesus' birth to erase Jesus by killing innocent children. Even Saint Paul persecuted Christians to erase Jesus, and he became an apostle after Jesus' intervention, and he was blinded. The communists killed innocent people, not soldiers; they aimed to erase Jesus, God, what He stood for, and His human principles and rights, including liberty and freedom, and erase our sins. Technology is no different; it cannot erase God and is not to be worshiped. You cannot cry to a computer; you cry out to God. The computer did not create you. Marx argues that religion is "The foundation of irreligious criticism is that religion does not make the man." They erased free speech, the media, the smell of Democracy, and capitalism; they failed the world, now a capitalist. Stalin said, "Death is the solution to all problems. No man-no problem." Jesus is God and cannot be erased; God does not forget and is not blind, regardless of how many generations have not lived it. Why even try to erase God? It does not work and will never work. Eventually, you and your legacy will be erased and destroyed if you try.

Socialism has killed more than **100 million people worldwide**. To erase the religion that is God. Did it really work? See for yourself that 80% of the world is spiritual. Socialism came to Venezuela 60 years ago and has proven to be the worst form of government under which to improve the quality of life. Ludwig von Mises once said that every socialist is a potential dictator, and the history of Venezuela supports his statement.

[We Must Never Forget the 100 Million Victims of Communism | The Heritage Foundation](#)

[The more than 100 million deaths that communism caused, divided by countries \(outono.net\)](#)

Communism is a political and economic ideology that opposes liberal Democracy and capitalism, individual rights, and liberty, advocating instead for a classless system in which the means of production are owned communally and private property is nonexistent or severely curtailed. Communism tends to make the government God because they believe God is artificial

and can make God and say we are God. It is back to idolatry and worshiping idols; they worship the government. Recently, in the 21st century, their God became technology. A God who can solve all their problems. That will never happen because God is real and jealous and will not compete with any dictator or an entity or circle of dictators or technology or machine claiming God's authority, and God will punish. We know from the Bible that the apostle Peter, the head of the Christian Church, was a fisherman before following Jesus. Most apostles were blue-collar workers and did not know how to read or write. That means Peter was a capitalist or a businessperson, but not necessarily greedy. Jesus had no problem with businesspeople and selected them to follow him. Peter told Jesus, "Depart from me, for I am a sinful man, O Lord!" Luke 5:1-11. Most capitalists have regrets or guilt when doing business. Peter may have cheated some of his customers. Jesus selected Peter to be the head of His Church. He is not perfect by any means. Jesus did not select a lawyer, a rich man, or a priest as the head, but a small businessperson. Use his example. Jesus is not stupid. In April 2025, Trump imposed tariffs on poor countries and on Christian prayer apparatuses, including rosaries and crosses from the Vatican, showing the dark side of capitalism.

<https://theconversation.com/the-dark-side-of-capitalism-why-the-pope-is-highlighting-inequality-31405>

<https://www.msn.com/en-us/news/politics/president-trump-imposes-tariffs-on-indulgences-from-the-holy-see/ar-AA1CtbeX?ocid=sapphireappshare>

Technology is to blame for global warming caused by the world's putting CO₂ in the atmosphere. Some climate scientists recently disputed how much humans are responsible for global warming. Gavin Schmidt from NASA represented the consensus of 96–97% of climate experts in arguing that humans have been the dominant cause of global warming since 1950, while Judith Curry from Georgia Tech represented the opinions of 2–4% of climate experts that we could be responsible for less than half of that warming. It is a vicious circle. Forest fires contribute CO₂ to the atmosphere.

[California wildfires' carbon emissions are equal to a year of power pollution \(nbcnews.com\)](#)

[What role does climate change play in forest fires? | World Economic Forum \(weforum.org\)](#)

[California's Wildfires Had an Invisible Impact: High Carbon Dioxide Emissions - The New York Times \(nytimes.com\)](#)

[Wildfires in California emitting more CO2 annually than cars - American Thinker](#)

[Why is Brazil's Amazon rainforest burning? | Watch \(msn.com\)](#)

[Western wildfires threaten carbon offsets | Watch \(msn.com\)](#)

Forest fires ruin air quality because their smoke contains harmful gases – **carbon monoxide, carbon dioxide, nitrogen oxides, and volatile organic compounds**. Since forest fires usually burn a lot of trees, all that smoke can quickly pollute the air.

[Four cities' landfills emit as much methane as 2 million cars: study \(msn.com\)](#)

[Satellite data find landfills are methane 'super emitters' \(msn.com\)](#)

[Methane emissions from US shallow offshore platforms exceed those on land, study finds \(msn.com\)](#)

Methane is almost thirty times more powerful a greenhouse gas than CO₂. Therefore, researchers of the SRON Netherlands Institute for Space Research scan the globe for large **methane** leaks. A **landfill** in Buenos Aires emits tons of **methane** per hour, comparable to the climate impact of one and a half million **cars**. Methane produces more than 20 times the global warming effect of carbon dioxide. "Landfill gas is a complex mix of different gases created by the action of microorganisms within a landfill. Landfill gas is approximately forty to sixty percent methane, with the remainder mostly carbon dioxide."

I reiterate: It is a vicious circle; we can lose our planet.

Pope Francis said God forgives; men sometimes forgive, but nature never forgives. Also, the Pope said dumping plastic in waterways is criminal. In my first book, "Visualize Jesus: Ten Ways to Christian Meditation," the same conclusion is that we are devolving, not evolving, meaning we are losing our Humanity. Recording and mapping our brains and looking at them 300 years later would be beneficial. Aren't most of these technological advancements and gadgets made by corporations to make money and get rich? Or communist and autocratic governments to control the masses. They claim they do it to make our lives easier. Or is it all about money and power?

We are not evolving to a higher-order or better species; it does not take thousands or millions of years to see this evolution. Jeff Parsons posted about the future of our bodies being affected by the overuse of technology.

[Future humans will have deformed bodies and a 'second eyelid' due to overuse of tech \(msn.com\)](#)

So, Darwin was so wrong. We do not know because we do not have hard evidence, but we can tell which direction we are going, and it seems it took 600 years to lose abundant memorization due to conditioning the brain. That is why we need to do the meditations I proposed to condition the brain to listen to God and His family and be advised to avoid losing Humanity. Devolution does not take long to happen to the brain because conditioning the brain does not take long, per Pavlov's classical conditioning experiment. [Pavlov's Dog: Pavlov's Theory of Classical Conditioning \(verywellmind.com\)](#). Then, with epigenetics, it is inherited; eventually, the genes change. We want to condition the brain to listen to God and evolve, not devolve. But it can wait 300 years, and if we have a current specimen, we can determine if my prediction is true or if we should take the risk by not listening to God's warning.

Do we really want to take this chance? We need to interfere now because God is intervening. Darwin predicted that homo sapiens is thought to have developed out of Homo erectus between 1.8 million and 200,000 years ago, and modern humans emerged shortly after that, between 100,000 and 200,000 years ago. Charles Darwin hypothesized that humans have a single origin in his 1871 work, The Descent of Man. It was 151 years ago, and fairly new. I dispute this theory; it reflects only the body, not the brain process, which evolved over

hundreds of years, not between 100,000 and 200,000 years ago. All the tests on evolution are physical and discount spiritual. You cannot define humans only physically. Humans have been physical and spiritual since Adam and Eve. They used the well-tested methods of dating used in the study of early humans: Potassium-argon dating, Argon-argon dating, Carbon-14(or Radiocarbon), and Uranium series. These methods measure the amount of radioactive decay of chemical elements; the decay occurs consistently, like a clock, over long periods. The other Darwin theory I debunked said that mating is random or by chance. Per my first law of physics, everything is unique and prescribed; deflection is not random. There is no randomness, and we are not an assembly line. To choose our path, we need feedback. The second law of physics.

God gave humans choices and free will; it is not instincts like animals, but every human's selection is prescribed. Our next generation will determine if we will be extinct due to AI and prove that God gave us free will. Because the Holy Spirit asked me to provide you with God's warning on AI, demonstrating that we can destroy ourselves with our free will. God could stop AI, but that is not His plan. He wants us to apply AI correctly. AI can influence elections in the world and cause slavery. They advertise on TV that they are competing with China in AI. Let China learn its lesson because we will not be enslaved by it. It is the end of the world, and Jesus will do something so we will not lose humanity.

[Opinion: A philosopher, after a lifetime of study, concludes, yes, people have free will \(msn.com\)](#)

[Devout Christians: Understanding God's Gift of Free Will – The Power of Choice in Christianity. \(msn.com\)](#)

"By demonstrating that [evolution](#) is not as random as we once thought, we've opened the door to an array of possibilities in synthetic biology, medicine, and environmental science."

[Paradigm shift: Evolution is not as random as we thought \(msn.com\)](#)

[A legendary experiment that began in 1988 suggests that evolution is predictable \(msn.com\)](#)

The problem with evolution research is that it is all based on physical, not spiritual. Faith healing is another medicine that needs to be explored. Richard Lenski. In 1988, He began cultivating 12 populations of identical bacteria in independent containers to observe their

evolution firsthand. The problem is that bacteria do not have a brain to be spiritual. So, the experiment is physical and has no relation to us. The other issue is that evolution is gradual and abrupt. The abruptness comes from God, so the predictabilities are not guaranteed. "Adam," our oldest relative, has a date of birth of 5,764 years since our brain was created, according to the Halacha. That date of birth makes sense when looking at the evolution of the brain's processes. The brain is currently seen as devolving. You must define the modern human by the brain process, not just the body. The current human species arrived when animal sacrifices and worshiping idols started. Proving the human brain starts believing in the unknown and praying for forgiveness of human sins, prosperity, fertility, thanksgiving, etc. Praying is a great difference between animals and humans, and is a human quality of the brain. We know animals do not pray, fast, meditate, or make sacrifices; it is not apparent. They don't create or cook. This quality must have been brought into the brain by the creator, not for the fetus's survival. We are the branch, not the tree. [9 things that make humans special \(msn.com\)](https://www.msn.com)

Another article claims that putting all this together, Adam and Eve came between 9,800 and 9,700 years ago, which is an accurate creation date for Adam and Eve. During this time, the Upper Paleolithic/Lower Mesolithic humans lived before Adam and Eve were hunter-gatherers. Hunter-gatherers are a function of the fetal survivor, which does not necessarily indicate the dawn of spirituality. If they had spirituality, they would have recorded it or committed it to memory. Finally, variations were used to create a more reliable molecular clock, and it was found that Adam lived between 120,000 and 156,000 years ago. Again, it is based on chemistry, which is physical, not spiritual; they are two different things. We have to start 5,764 years ago to account for spiritualities.

Because it is a spiritual quality, not a physical quality. Before Adam and Eve, they were animals, just the physical part. You must define the modern man as having spiritual and physical qualities, not just physical. The Bible's Adam and Eve are a branch of Darwin's Adam and Eve; it was an abrupt change by God. How did Moses know about Adam and Eve when he wrote the first five books of the Bible? The answer is that he is a prophet, and prophets have visions. We go back to the original question I asked in my book: "We went to the moon but did not solve the ancient bow and arrow problem." Are we the branch or the tree? Without a

doubt, we are the branch, not the tree. The new branch sprang out of the tree to produce the fruits and flowers of Humanity's species. Science has found a God Spot, or an area in the brain that brings science and religion together. This means we are the branch due to an abrupt change in our brain with a Spiritual Spot, which could not have been an evolutionary process to the whole brain because some people have the God Spot or are spiritual, and others don't. It is more or less a miracle. **God breathed the breath of life into his nostrils, Genesis 2:7 (the breath of God is the Holy Spirit descending on them, giving them spiritual life).** The physical part of a human took maybe 200,000 years; suddenly, there was a change 6000 years ago based on the recorded history of spirituality.

[A Path to Well-Being: Tap Into the Benefits of Spirituality \(msn.com\)](#)

[Keep the faith: Spirituality can improve mental health, expert says \(msn.com\)](#)

[How Spirituality Protects Your Brain From Depression \(msn.com\)](#)

[Religion and Wellbeing in the U.S.: Update \(gallup.com\)](#)

[As fewer profess faith, research shows religion and spirituality improve well-being and mental health \(yahoo.com\)](#)

Thus, it is an abrupt change in the brain by God, making humans physical and spiritual, whereas humans were just animals before. I do not think they can replace religion because we need to pray and commune together in a place with someone to lead. Most likely, they cannot do it with medications.

[Is the "God Spot" Rooted Far Below Our Brain's Thinking Cap? | Psychology Today](#)

If there were other branches of just a physical human, the flood would eliminate them. That is why we do not have different branches. However, some people are not spiritual, just animals; about 20% refuse to believe in a higher power or the impossibility of being accountable. So, we have a mix, but spirituality defines the people who would go to the second Heaven. Per Jesus, it is for those who believe because you cannot survive in the Universe if you do not believe. It goes without saying. It is the key.

Makes it a mystery to have hard dating evidence. All we can do is rely on the Bible, even if it is not written by God, but what else can we do? It is the only record we have. If spirituality is born in humans, humans would naturally record it, commit it to memory, and tell the story

from generation to generation. The story is in the Bible and the Quran, and should be part of science and evolution. The mystery question is, when did spirituality come? It is very hard to know; it is a mystery because it is related to the brain process, not the body. More than 80% of the Earth's population is spiritual, per Dr. Amen. Unfortunately, some people in the world are still just animals. I am going to attempt to clarify the story of Adam and Eve. The Bible was written so people would remember it because they were illiterate. It is hard to really know what happened. Most likely, the Triune God appeared and touched Adam and Eve's biological makeup.

The Holy Spirit descended on them, and the brain became spiritual, which comes only from God the Spirit, not Darwin's physical or biological evolution. So you cannot evolve to get the Spirit. Because the Spirit comes from God, and God gives it abruptly. In the same sense, in the future, we will receive all the dimensions of the Universe and live forever. It will be only God, not a choice between God and the devil. Again, we cannot evolve into this new body, improved body, have all the dimensions of the Universe, or time travel with Jesus. It only comes from God as He promised at the Second Coming of His only Son, Jesus Christ. Again, God gives it abruptly, as in Jesus's healings. I do not know God's plan for animals. Carl Edward Sagan's idea of our future humans is wrong. He postulates we will each have different colors, possibly physically changing, as if we had another arm. It is sort of like a Star Wars movie.

We are not evolving; we are devolving and living in a crucial time. When God allows us to evolve, we do not become another creature, but we do the same with other spiritual dimensions to communicate with God and His Universe. I asked AI if we are evolving or devolving. Their answer is that we are neither evolving nor devolving because those terms imply a direction or a goal for evolution, which is untrue. Evolution is simply the change in the genetic makeup of a population over time, driven by natural selection, genetic drift, gene flow, and mutation. These processes do not have a predetermined outcome or a preferred state. They reflect how organisms adapt to their environment and how random events affect their genes. Therefore, humans are still evolving, but not toward or away from anything. Unfortunately, the public got brainwashed by false articles and Hollywood movies telling people that we will become a better species. Also, Hollywood scary movies like "Planet of the Apes"

foretold catastrophe to people through evolution. We must educate the public and avoid devolution, a state of evolution.

[Scientists Have Identified a Brain Cell That Makes Humans Special. But It Also Leaves us Vulnerable to Schizophrenia, Autism, and Epilepsy. \(msn.com\)](#)

This powerful spirit action, Pentecost, was recorded in the New Testament when it descended on the apostles. So, Darwin's physical or biological human male and female bodies were elevated to live forever by God's Spirit and communicate with God in his image. The conversation between God and Adam and Eve occurred once they were created, or the Spirit descended on them, and their brains changed. Likely, Adam and Eve were originally chosen as adults or of age based on Darwin's physical or biological evolution. God is not a magician, as some believers portray God, who created Adam and Eve from scratch, abracadabra, and they were created. God always uses what He has already made; he has no reason to do it from scratch. God does not do magic; it is not His habit or way. Adam and Eve came 6000 years ago, but the Earth is not 6000 years old.

[Devout Christians: Both Current Creationism And Evolution Are In Error!! Part 1 of 3. \(msn.com\)](#)

[Devout Christians: Both Current Creationism And Evolution Are In Error!! Part 2 of 3. \(msn.com\)](#)

[Devout Christians: Both Current Creationism And Evolution Are In Error!! Part 3 of 3. \(msn.com\)](#)

God did not create the Earth from Scratch. Some people characterize Jesus' miracles as magic. They fail to remember that Jesus' time travel is in the scriptures, and they can take things from the past and put them in the future, and vice versa, using angels. Before Abraham Was, I Am, John 8:48-59. He is God and can do that; He does not have to do it from scratch because He loves all His creations and wants them to have a purpose in every situation. Also, Jesus heals by the Spirit, giving Living Water sensations to heal. I have experienced His water. He makes abrupt changes for healing, miracles, and revelations for God and His family. There is a history of miracles happening only for one purpose: God's glory. In these cases, there are no new creations; it is just an improvement on the existing creations. So, there is no magic.

I do not believe that the account of Eve caused the curse of Death. It was a twisted men's world, and they tried to blame women for the fall of Humanity. Unfortunately, it was the

political part of the Bible for a woman to submit themselves to men and have babies. As a man exercises his physical fitness. Genesis 2:22 is a different story from Genesis 1:27. I do not believe in Genesis 2:22; it contradicts science, and I cannot buy that women are at fault for everything. However, after Adam and Eve became spiritual in the early stages of human history, it was important to populate the Earth, and many wives and children were needed. So, Genesis 2:22 was applicable and necessary at an early time.

You must use your critical thinking when reading the Bible because the Bible was written for illiterate people to remember. My biography in this document is written for people who are not illiterate. The Bible's account of the punishment was for both men and women. God picked women 2000 years ago to spread His New Testament gospel: Mother Mary and Mary Magdalene. Mother Mary for the birth of Christ and resurrection, and Mary Magdalene and Mary, mother of James, after the resurrection from the tomb. [John 19:25](#), about three women or four? In 2023, I had a vision of the last supper. The Passover feast included children, women, and men, and people brought food. The woman wore a white scarf on their head. Mother Mary was also an apostle chosen by God and participated in the sacrament. For that reason, I became a Lutheran in the ELCA on Sunday, April 19, 2026, because they allow women to be pastors. No religion is perfect.

[Cardinal says Church cannot “continue to exist” without women’s ordination](#)

How come He did not pick men? God has many ways to do things and is free to do what He pleases. This is likely because of the history of men blaming women and treating women as second-class citizens. There were no female priests or Jewish female rabbis at the time of Christ. It came in the 19th-century reformation. So, God is saying to men, Why do you blame women for everything? I prefer them to spread my message; they are trustworthy. Based on Darwin, physical or biological men and women existed before the Spirit's descent into humans. What is correct is that man completes the woman, and woman completes the man created initially through Darwin's biological evolution. So, Darwin freed us from this disinformation of Genesis 2:22 that started 5,764 years ago on November 24, 1859, publishing his Origin of Species only 163 years ago.

I believe the devil appeared as an animal, an earthly being with the Spirit of darkness, and convinced them they could be like God if they ate this forbidden fruit. They did and listened to the devil or the animal in us to have power like God. Our brains got infected with the obsession to be like God. And to have power and dominion and to know good from evil. Suddenly, the punishment happened, and the curse of Death occurred. Their brain changed, and they saw themselves naked. Mostly because of the jealousy of God. That there can be only one God. That is the most reasonable explanation; it ties the whole Bible together. Humanity fell, and we are still suffering from it. There is no reason why we could not live forever, but we missed the point and committed sin. Jesus took our flesh, and He lives forever. We could have had the same thing. [Exodus Chapter 20](#) tells us God is Jealous and will not put up with other gods or idols. He is the only God. So, He put us in Jail and Death because Adam and Eve were disobedient.

I rewrote Genesis 2:7 to comply with science as evidence. **The Lord God formed a man and a woman from the dust of the ground (i.e., made from Darwin's biological human species as the physical part of humans). It started from the dust of the Earth and took six million years; finally, modern man appeared 200,000 years ago. It does not matter how long it took; it is still from the dust of the Earth.)** God breathed into his nostrils the breath of life (the breath of God is the Holy Spirit descending on them, giving them spiritual life), and they became living beings (i.e., physical and spiritual living human beings). So physicality comes from the Earth, whereas spirituality comes from God. I hope that helps. God gave me a sign on 7/5/2022, shortly after my writing, when I started to watch TV and sat on the couch, that what I wrote was correct. My cell phone on the coffee table made a pleasant noise of music I had never heard before, and Bernice was my witness. The physical trace of our genes from Darwin originated from black males and females from Africa. Adam and Eve's spiritual and physical male and female branches most likely have olive skin (neither black nor white). It is most likely mutated from black to olive skin. Garden and Eden, where there were various suggestions for its location at the head of the Persian Gulf in southern Mesopotamia (now Iraq), where the Tigris and Euphrates rivers run into the sea, and in Armenia. Jesus is traced to Adam in the Bible and has olive skin.

I did my best to make peace between science and religion, per Jesus' request. Remember, God created both. However, religion came first, and I am also a scientist.

[Jesus Likely Had Olive Skin and Short Hair, But What Did He Wear? \(faithfullymagazine.com\)](http://faithfullymagazine.com)

[6 Arguments That Prove The First Man Was Black \(atlantablackstar.com\)](http://atlantablackstar.com)

[Humans did not stem from a single ancestral population in one region of Africa -- ScienceDaily](http://ScienceDaily)

[5 Ethnic Groups That Prove the First Humans Were Black \(atlantablackstar.com\)](http://atlantablackstar.com)

[Research confirms the theory that all modern humans descended from the same small group of people \(phys.org\)](http://phys.org)

According to Darwin, the root genes of Humanity, the physical Adam and Eve, were black. When I was 12 years old in Egypt, I had a vision when I saw Adam and Eve, or two black people, and Jesus told me this was Adam and Eve. They were skinny. There are two, Adam and Eve, and each is different. There is the Adam and Eve of Darwin and the Adam and Eve of the Bible. They are related physically but not spiritually. So, the physical Adam and Eve wore animal skins until spirituality came much later. Animals do not pray, fast, make sacrifices, or meditate. They do not create or cook. It would be recorded if something major changed in evolution, such as the Spirit descending on Adam and Eve. In the Bible, God has a record of creating the modern human from an animal species.

Additionally, God created animals first on the fifth creation day, then created humans on the sixth creation day, not the other way around. So, we were animals first because God used what was already made to make a new creation, not starting from scratch. There is no abracadabra or magic. So, spirituality entered humans and was recorded in the Bible 5,764 years ago. If it had happened, it would have been recorded. That is the only record we have from the Bible. So, an abrupt change occurred with the descent of the Spirit. So Pope Paul is right: The Pope claims creation and evolution could co-exist. **"God is not a magician."**

While the creation of Adam and Eve is referred to in the Quran, the exact creation method is not specified. The Quran then says that **God commanded Adam and Eve not to eat from one tree in the garden**, but Satan convinced them to taste it. They then began to cover themselves because they knew they were naked. However, in the Bible, it is clear that the fruit

wants to be like God. Thus, that is the forbidden fruit. **Genesis 3:5: "For God knows that when you eat from it, your eyes will be opened, and you will be like God, knowing good and evil."**

Tracing humans to Neanderthals is only physical. Art used then was a means of physical communication, not spiritual communication. Spiritual communication came after Adam and Eve in the Bible. It is seen in pharaonic Egyptian art.

[When did humans start making art, and were Neanderthals artists too? \(msn.com\)](#)

The decay of brain memory has a price to pay since it can cause illnesses that affect the whole body or cause social issues. Asperger's syndrome was detected in 1944, and Autism was seen in 1911. These two illnesses reflect a high memorization capability.

In 2015, Asperger's was estimated to affect 37.2 million people globally, about **0.5%** of the population. The exact percentage of people affected is not firmly established. Autism spectrum disorder is diagnosed in males more often than in females, and females are typically diagnosed later.

About 1 percent of the world's population has autism spectrum disorder. (CDC, 2014) Prevalence in the United States is estimated at 1 in 59 births. (CDC, 2018) More than 3.5 million Americans live with an autism spectrum disorder. (Buescher et al., 2014)

All the CEOs who want to make more money ask us to think positively, and we know what we are doing. Or the people put blind trust in the communist and autocratic government, telling them We know what we are doing. That is a slogan of the devil. They do not know what they are doing. That is the truth. China's one-child-per-family rule started in 1980 and ended in 2016. They thought they knew what they were doing. Population growth is God's territory; you fool around with it, and extinctions happen rapidly. Xi is as powerful as Chairman Mao and does not believe in God; now, he is trying to solve the problem.

[Xi Jinping says China's women must start 'new trend of the family' \(nbcnews.com\)](#)

[China Asking Women To Have Babies - Bing News](#)

[Chinese women are fed up with Xi Jinping's attempts to make them have more and more kids \(msn.com\)](#)

[If people stopped having babies, how long would it be before humans were all gone?](#)

Similarly, the Supreme Court abolished prayers in school. They do not know what they are doing to let evil enter into the minds of the kids, calling it freedom and secular, saying, “We are so smart, we don’t need God.”

“The case presented squarely the question of whether a public school could sanction classroom prayers at a time when America was increasingly pluralistic and secular.”

[Engel v. Vitale \(1962\) | Wex | US Law | LII / Legal Information Institute \(cornell.edu\)](#)

Apparently, in 2024, prayers in school will be back in some states.

[West Virginia Senate passes bills involving religion in the classroom \(msn.com\)](#)

My question is, would the 18-year-old gunman at Robb Elementary School in Uvalde in May 2022 have done the shooting knowing there is hell? We need to teach kids that there is hell.

[Shooter at a Texas elementary school kills 18 students and one adult before being killed, officials say | CNN](#)

At the Second Coming of Jesus, Jesus will make His selection; not all will be in the Second Heaven or the Universe. Many will be thrown in the garbage dump based on accountability. You cannot blame religion; they told what Jesus and God said. You can only blame yourself for not listening. All we have left is to pray. My God, what have we done? It is like a nightmare.

Corporations like Facebook developed the worst social media outlet, causing some people to communicate with each other and architect genocide, spiritual and physical, such as in the January 6 insurrection. When you let one negative information, it allows copycats. One bad apple spoils the whole bunch.

[Four power stations in Washington vandalized, cutting electricity to thousands - MarketWatch.](#)

Trump followers call on social media to start a civil war in the US. Most people in the US want to live and do not want to die for Trump. It is a lost cause. How do those evil people benefit from a civil war other than Death? God will hold them accountable.

[Trump Supporters Talk Retribution, Civil War After FBI Raid \(mediaite.com\)](#)

Their algorithm amplifies evil. But sometimes, Facebook does a lot of good. But what we do today will affect tomorrow, and history is important, and QAnon people are crazy about

discounting history. Some technologies have brought us closer, like the telephone, refrigerator, computer, TV, DNA, police work, and medical technology. So, that is good. Also, technology can help us overcome global warming and bring about peace, as in meditation. Unfortunately, they started airing unethical programs fifty years ago, compared to ethical programs like I Love Lucy and Andy Griffith, leaving it to Beaver, Little House on the Prairie, Lassie, and Gilligan's Island. And movies with Audrey Hepburn, James Stewart, Gene Kelly, Fred Astaire, Ginger Rogers, etc.

Most people who see these shows wonder what is happening and why this is lost. At that time, they could not say hell or damn or goddamn and many other words, including profane or suggestive language, on TV or in movies. My wife told me it coincides with removing prayer from school, and I agree.

[The key to offering religious education to public school students | Washington Examiner](#)

Here is a list of the best 100 movies; see for yourself. 75% are in their 30s, 40s, 50s, 60s, 70s, or 80 years. Not much beyond the 80s, only 25% for the next 50 years, and only three movies in 2000, 2002, and 2003. So, there was nothing for 20 years after 2003; why? What are kids born beyond the 80s and beyond, and what movies do they see? Not memorable, that is the truth. It would be best if you started making heavenly movies with the help of angels. Why does almost every new show have LGBTQ+ people when they are 7% of the population? It is unethical to shove it down the throat of straight people. It has never changed throughout history and will not change. It is different and not the same about black people; many white people love black people, and it does not cause a psychological imbalance. It is well-accepted in most of the world, and it is ethical to have it in shows.

[Top 100 Greatest Movies of All Time \(The Ultimate List\) - IMDb](#)

About music, I had angels to help me write music, not drugs and alcohol. I found a recent article on 7/5/2022 by Howard Tullman that shares my findings. Most people now listen to oldies.

[Why Music Has Lost Its Charms \(msn.com\)](#)

The only ethical things to watch today are sports, Hallmark movies, Lifetime movies, Police stories, Hospital series, fixer-upper programs, adult Disney shows, and foreign films. They do not involve unethical conduct, sexual violence, or science fiction that does not alter reality and can pollute the mind. More important is life, not TV ratings that demolish our existence.

Fortunately, the rest of the world learned how to make motion pictures and did not have to follow Hollywood, for example, in My Father's Violin 2022, a Turkish movie.

How do I convince people that the deflection laws apply to the entire Universe and not believe in science fiction? Like Star Wars and the Star Trek Trilogy. I watched them but knew better than that; there was no magic or abracadabra. This is how Hollywood makes money with no scientific basis. They promote abracadabra, and it happens. I saw an astrophysics talk on TV about sending the new telescope to space on December 18, 2021, and it explained that science is about truth, and I agree.

NASA's James Webb Space Telescope Images Are Extraordinary

When I look at that, it is spiritual; it drives me to meditate

Remember the first law: We are unique, and God has a love for every place in the Universe. When you look at this picture, remember we are unique; thus, we have something to contribute.

We have to understand where these technological discoveries are taking us. We always ask, is this at the expense of losing our Humanity? What is going on? Or is it true that we will be blind in the last days, as Jesus said, as the sun and the moon stop shining?

In the Olivet Prophecy in Matthew 24, Jesus Christ prophesied some important end-time signs:

"Immediately after the tribulation of those days, the sun will be darkened, and the moon will not give its light; the stars will fall from heaven, and the powers of the heavens will be shaken" (verse 29).

I know God will not punish the Universe because of what is happening on Earth, but because He gives justice. It is an internal occurrence, not external, like the miracle of Fatima, [Miracle of the Sun - Wikipedia](#). The sun could not have been dancing for the entire world and cosmos. It can mean Jesus will blind the world internally during a pandemic as He blinded Saul on the road to Damascus (Acts 9:1-9). His reason is because of persecution, evildoers, corruption, sexual immorality, discrimination, racism, mass shootings, bullying, crimes against our planet, false prophets, disinformation, and court cases about winners or losers, no right or wrong. Jesus is upset about many things, but the disinformation that the September 11, 2001, attack on the US was a hoax is at the top of the list. Are you also saying the sun disappeared

and will not rise tomorrow? Everyone will be blind and not see the sun, the stars, or the moon, and Jesus' prophecy will be fulfilled. On June 19, 2023, I asked my doctor, Dr. Ted M. Zollman, MD, Comprehensive Ophthalmology at Eye Associates Northwest, PC, if this pandemic is possible. He said it was a science fiction novel in 1995, but anything is possible after the last pandemic, specifically a virus attacking the optic nerve. Let us pray it will not happen; it will end the world. Whoever thinks he can launch a nuclear bomb, Jesus told me, will be blind and will not see the code because that is not how the world will end. This game will end; I fear God's power.

This could also mean we will totally depend on technology, and we don't need to see or hear. Are we destroying Humanity or committing suicide using technology enslaved to make money? The prophets' facts and words are written on the walls; we are all guilty. The signs are all around us. This problem of people worshiping technology is worshiping another God, thinking technology will solve all our problems, a substitute for God, and take us to Heaven. Clearly, many people fantasize that someday we will build a time machine. God does that differently; it is built into the saints to have visions of the past and future without physically being there. We cannot love technology or new pretend artificial time machines more than God. We will see another branch of humanity sprout from the current human, similar to Adam and Eve's creation 6000 years ago, sprouting out of animals. Those who became slaves to technology and the new creation will occupy the Universe indefinitely with Jesus and receive all the universe's dimensions.

Exodus Chapter 20

¹ And God spake all these words, saying,

² I *am* the LORD thy God, which have brought thee out of the land of Egypt, out of the house of bondage.

³ Thou shalt have no other gods before me.

⁴ Thou shalt not make unto thee any graven image or any likeness of anything that is in Heaven above, or that is in the Earth beneath, or that is in the water under the Earth:

⁵ Thou shalt not bow down thyself to them, nor serve them: for I the LORD thy God *am* a jealous God, visiting the iniquity of the fathers upon the children unto the third and fourth *generation* of them that hate me;

⁶ And showing mercy unto thousands of them that love me, and keep my commandments.

Based on these verses, I see God is jealous and will not put up with any other God. It was the reason for punishing Adam and Eve for wanting to be God. He will continue to punish and destroy when other Gods' people worship instead of the true God.

Technology cannot save us; historically, it has caused devolution. Are you saying the computer is God? Did the computer give us our lives? Technology will not save you; Jesus will save you. Because of technology, we have become slaves to it by only reading and not memorizing. We need to read so we don't become illiterate. But we need both to read and remember. It would be a shame to forget our kids' and spouses' names and have to write them down to remember. That would be the extreme of relying on reading alone. Mother Mary appeared at Fatima, Portugal. [Our Lady of Fátima - Wikipedia](#). She told the three children to learn to read so they would not become illiterate, according to the movie [The Miracle of Our Lady of Fatima \(1952\) - IMDb](#) and [Fatima \(2020\) - IMDb](#).

Every new technological advancement brings decay to our bodies and minds, such as not walking a long distance by having a car. We are in the last days. But I think God sends me to reverse this craziness, have people reconcile with God as a second chance, and keep asking what is more precious, me or the machine? God gave me many talents and visions, and hearing His and Jesus' voices to do this mission and create God's fortress. In my article, Christian Meditations and Prayers, I wrote that we are unique and contribute and have a mission from God; whether the contribution is small or large, it does not matter to God. He loves all contributions. It insults God if we don't use our God-given talents. So, we always have to pray that our contribution pleases the Lord. Thus, we can all contribute, understand, and leave evolution to God. I told my brother that when I look at God's creation, it is mind-boggling beyond our human brain and comprehension. All we can do is keep contributing; only God knows where we are going. He will warn us if we go astray because of His Love, as in these warnings. That is not true if you say we are free to do whatever we want; it stops here and now. If we do not teach our kids to pray, we will lose our ability to pray, visualize, and imagine the future, which has been deteriorating. I cannot emphasize how important that is. I have a reading disability and hate to read.

I did everything using visualization and solved important math problems by visualizing the math and presenting it to Jesus, and He would help. Again, if we lose visualization and imagination, we lose Humanity. We have to face God's judgment. I hope the movie WALL-E does not become the future of our planet, and we live as in the Matrix movie. I told you before that the devil wants to control this world and destroy God's creation. The world chose the devil, and we are devolving because of it; there is no evolution. Some people believe there is no devil; my response is, are you blind? I can give an example using current technology, the virtual reality Quest 2.

To serve the public, use Quest 2 to bring education, and use the Disney app for disabled kids and kids with cancer or sick who cannot participate in Disney rides but can do it virtually. Using it for education is a winner. This is just one example. But if we keep being public servants, we can succeed, and it is not about money anymore; our contribution will please the Lord. However, this technology has limitations. For example, I cannot play soccer or run in Quest 2. As a consultant at FAC Systems Inc., I know that technology can cause instability in human systems and that Jesus is the only feedback. Global warming was an example of instability caused by us, that is, technology, and some scientist believes we are at a point of no return; God will have to start over. We are at an inflection point and cannot let that happen again. Thus, an abrupt change by God in science is needed. A new discovery is our hope before the loss of our civilization. Because Jesus told me I am the preferred apostle. After me, a domino of apostles until He comes, God will help us not to lose our civilization and eradicate the climate disaster. Jesus appeared to me and helped me write the arching of beams article. Jesus is a carpenter and believes in science.

<https://www.msn.com/en-us/news/opinion/why-maga-hates-science-so-much/ar-AA1ITSEu?ocid=sapphireappshare>

I am the preferred apostle because, after 2000 years, Jesus decided to train me as an apostle from childhood. He is constantly communicating with me. The thing He told me the most is to forgive. **Many inventions, software, and ideas were stolen from me, but as Jesus trained me, I forgave them.** Jesus will train many apostles after me similarly; that is good news. An apostle is always a deacon first.

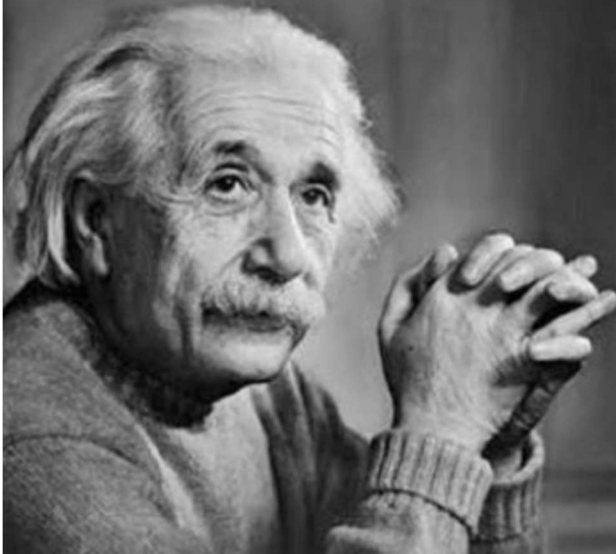

Bill Gates said on 12/27/2021, "We have some, but not all, of the tools we need to limit to less than 2 degrees. We must prioritize closing that gap if we are going to avoid a climate disaster: <https://lnkd.in/gVDU3tmb>. So, I am the whistleblower, and we do not have a leg to stand on.

I am afraid I must disagree with my brother, who is waiting to die, because he says we all have an expiration date. He thinks my mission to do Christian meditation with the UW is my hobby, not a calling from God. Albert Einstein worked on the theory of everything until he died at 76 years old and failed; does it matter that he did not quit? It was his calling to do so.

Many do not realize that Albert Einstein contributed to health and medicine. As I understood from Professor Brown at the UW, people were skeptical about using statistics in buildings and verifying concrete strength, saying that the entire building or the high-rise building is safe. That was exactly our homework to establish the concrete strength based on the data we had. Probabilities came in the 17th century for insurance and gambling. So, since then, it has been a problem to use statistics. Albert Einstein was awarded the Nobel Prize in 1905 for deriving $E=mc^2$. At that time, the specific heat equation did not match the laboratory. Einstein derived the equation and published it in 1906. He derived the equation using quantum statistics; this is a hardcore experiment, unlike atoms, which we cannot see. I saw the Einstein derivation of electromagnetic theory and quantum mechanics by Professor Bornjstad at UW. I started to believe in statistics. I greatly respect Einstein's resourcefulness, ingenuity, and originality.

If you can't explain it **simply**, you don't understand it well enough.

– Albert Einstein

Ten years later, from 1915 to 1925, Fisher developed statistics. This is widely used everywhere, including in medicine. We must give credit to the right person, Albert Einstein. Einstein spent the rest of his life fighting the use of atomic bombs, but he gets the credit for this monumental achievement. God told me Albert Einstein's name is in the Book of Life. Even if people forget who started statistics, God will remind us. There is no doubt that Albert Einstein was an apostle of science and was very close to God. Albert Einstein appeared to me, and we became friends because saints help each other, confirming my conclusion that he started statistics. 68 years after Einstein's death, God wanted the credit to go to Albert. God keeps records better than we do in the Book of Life, and **you cannot change history; truth will always come out. Spreading disinformation will not work; God is on top of it and can make me travel through time to see the truth and do it with you. Every apostle received a special gift; mine is the gift of time travel with Jesus. For example, Paul, the apostle to the Gentiles, was well-educated and utilized his God-given talents to write his letters of ministry. The Bible and the Quran are full of history; you cannot change it. God will send visions to reveal the truth to the people.**

[Albert Einstein and the most elemental atomic theory -- ANS / Nuclear Newswire](#)

[chapter 8 ccr 23 einsteins theory of specific heats.pdf \(macmillanlearning.com\)](#)

[R. A. Fisher: The Founder of Modern Statistics \(projecteuclid.org\)](#)

[7 discoveries that prove Einstein was right about the universe — and 1 that proves him wrong \(msn.com\)](#)

In psychology and medical experiments, you cannot do it on every person, animal, or plant, so you cannot prove your hypothesis. It would be best if you used statistics. How do we take this to the universe? It is the same problem as how we estimate the universe's average size of planets. Just counting the planets without measuring may take all my life and not be done. All we can do is take samples, use statistics, and have faith in what we have. That is what God wants us to do: use science and have faith in Him. When Jesus comes back, I do not know what He will give us. There is no point in providing an answer I do not have.

My brother says it is the next generation's responsibility, which is not our problem because he is 71 years old, and I am 70. Until we die, we must tell the next generation the truth and warn them if they go astray, especially our kids. If we do not, we will be held accountable by the creator. I told my wife that throughout history, many people have given us the truth from art and science to keep us going. She said that is what you are doing with your writing and music. It is interesting in my book: "We went to the moon, but we did not solve the ancient bow and arrow problem." On page 89, I wrote: "For example, in 2D, if a point on paper wants to travel to another point and there is a line obstacle preventing the travel, if one folds the 2D paper, then the point of travel happens instantly in 3D. Thus, adding a dimension expedites travel."

I watched [Thor: Love and Thunder \(Movie, 2022\) | Director, Cast, Release Date | Marvel](#) on 7/11/2022, and the actress Natalie Portman used my example to show someone how the two

points meet in space and time. I think somebody must have read my book. I felt I had done something. Natalie Portman as Mighty Thor in the first teaser trailer for "Thor: Love and Thunder."

On Christmas Day 2021, my son-in-law asked me how we know if we live in a matrix like a movie, controlled by someone else, as we are puppets of that person, or in jail. My answer to this question is that the entire universe and Earth were given to us freely, with all they contained, and there was no price tag for it. And our life is given to us for free, with no price to pay. It is a gift; God did not ask you to pay anything. For example, ask yourself how much the sun costs. Well, God gives it to us for free. Suppose God gives you the sun. Will you charge every person, plant, tree, and animal for using sunlight? You would be out of your mind; why would you? Did you create the sun? God would never give the sun to any creature.

I see God is laughing at my joke. I told God, Isn't that what people did to Earth, trying to own it? We do not own Earth; the Earth owns us. When we went to the moon, President Kennedy did not receive an occupancy invoice from God. Why? Because it is free, everything is free from God. It is His generosity. The Apollo Program, which aimed to send astronauts to the moon, had a total cost of around \$140 billion in today's dollars. Everything God gave is free.

At the time of Christ, people were free to go anywhere; no borders or signs said "no trespassing." People were separated by languages, bodies of water, and mountains, not borders. All they look for is water to inhabit. Also, Christ already paid the price on the cross for all humans, past, present, and future, to be free from sin; He asks us to believe and live what we believe. That is a minimal request from Jesus; it is not a price you make. What does someone benefit from doing this great creation and sacrificing Himself on the cross with no price to it unless He loves to create on His own for Love, or He is Love, and that would be God? In a short answer, it is grace. I discuss God's nature and why He punishes in my book on the web, "livingwater3t2m.com: "We went to the moon, but we did not solve the ancient bow-and-arrow problem."

The link is:

[Microsoft Word - We went to the moon, but we did not solve the ancient bow and arrow problem finally \(livingwater3t2m.com\)](https://www.livingwater3t2m.com/We-went-to-the-moon-but-we-did-not-solve-the-ancient-bow-and-arrow-problem-finally)

The answer to my son-in-law's question is that no evil entity controls the universe or us; we are created free with no price to pay and no Matrix movie to live in. Our destiny is always our choice, and we should not listen to the devil or the animal in us. The devil cannot control us if we believe and seek God; it is always our choice to listen to God. In December 2021, I was to make a Christian decision for my company by hiring a non-Christian employee. My company always has Christian ethics. But ethics are ethics, and anyone with good ethics is welcome in my company. When I decided to hire a non-Christian contractor, the devil appeared in my mind, a very ugly face, trying to scare me because he knew what I was about to do and wanted me to be a hypocrite. I knew better and was convinced it was the right decision, which was good. That is what I mean by listening to the devil. I cannot tell you how the devil acted at the time of Christ, but he will use everything he can to stop God's work and appears in many different ways to do just that. We must surrender our lives to God after he gives us this infinite Love, leading us to the truth. Christian meditation equips us with an armor shield against the devil. Also, we need to keep telling this truth to our children and grandchildren. I emailed this response to my son-in-law twice, but it went to his spam folder even though we had communicated by email for years. I called him and gave him my answer, and he understood. I cannot help but think the email's disruption was caused by an evil one.

We are responsible for bringing destructive technology to the world and must combat climate change so our offspring can live easily. We must have much compassion and kindness for our offspring. Otherwise, we will be held accountable for our choices. Again, science fiction can pollute the mind and cause instability, making people feel insecure about their existence. It is all about making money from a movie and thinking everything is permissible; it is wrong. This type of science fiction is a method to colonize the brain to make money and keep you on a leash to see the next movie, a sequel, or another take. I am not talking about Disney because it educates children and gives them fantasy and imagination. I am talking about an adult who is losing reality. Historically, parents have been telling their kids fantasy and fairy tale stories, even at the time of Christ, in every culture. It increases the child's imagination and comprehension. There is nothing wrong with that. Kids grow up and realize it is unreal, like Santa Claus coming down the chimney. Jules Verne's 1864 novel, known as "the father of

science fiction," predicted technology that may not have been possible in his time. But who knows if it was a self-fulfilling prophecy?

The steam locomotive train was invented in 1804, before Jules' birth in 1828, so this technology was developed.

It was easy for him to make the connection. There is nothing in science to connect to Star Wars movies or Star Trek movies. Both of these are fantasies that defy physics. The only thing, maybe, is time travel and wristphones. But time travel is reserved for the Son of God. If God lets us have time travel, it will create instability. So, we are not allowed to. Modern physics implies that we will travel in space through another dimension unrelated to traveling at the speed of light. This makes more sense considering the enormous distances in the Universe. I will always be the apostle who gave science to God.

On Sunday, January 2, 2022, after editing this writing, I went to watch the news on Channel 5 at 11:00 PM; the minute I sat on the couch thinking about God's warning, a loud sound came outside, and I understood that a transformer had blown up. A flashing light came by our windows. People posted that they lost power in our area, but not in our house. Our Comcast signal was lost, and finally, at 11:30, we got the TV reception back. This was a sign from God, coinciding with my thoughts that I listened to Him and correctly quoted these warnings. On 1/5/2022, I reread what I wrote about God's warnings, and then I did my meditation, which is music therapy. In the last music, I saw God crying about the current condition of his human creation on Earth and the direction people are taking AI, going against evolution, causing devolution; I did not know what to do. I told Him not to cry. Lord, we will fix it. **How can we fix AI so we don't have slavery and cause devolution?** Four months before this meditation, Jesus appeared to me transfigured and asked me to be pope. On 9/19/2025, He said Pope of the Apostles Schools.

In my meditation, God is always a light shining down from Heaven, but I saw him as a black bearded God this time. Then I started crying with Him. You do not want to see God crying; it affects you. As a prophet, I was making an appeal to God. I do not know what God will do. I believe God allowed this pandemic for many reasons. The world must wake up before it is too late. I do not want God to erase Humanity and start over. The vision of God crying reappears

from time to time, and I resume praying. I don't know what to do; technology may destroy humanity. Jesus told me, AI will cause the world to evolve into two kinds of people. One can reason, and one cannot reason, that behaves like an animal. All because of money. There is accountability for the people who cause it. Really, do you think you can do what you want with evolution? There is a God who will hold you accountable if you try. Because changing the makeup of a person to become an animal is like killing the human in them, it starts with the brain.

When I meditated in the morning, I had not felt well all day; how could I? I woke up the next morning and started to cry again. The Holy Spirit asked me to write this article on People Worshiping Technology, which was a book. I heard President Biden's speech on the January 6 insurrection, and I agree that it is the truth that we should seek and not fall prey to lies. That day, no Republican showed up in Congress except Congresswoman Liz Cheney with her father, Dick Cheney. I understand from the news that the Republicans feared for their lives and **fell into a cult** movement; some fear they will not be re-elected without siding with Trump. As Republican Senator Lindsey Graham said Count me out. Enough was enough on January 7, 2021; he had threats at the airport calling him a traitor. The Republicans should not concede to the cancer that Trump brought and has become a cult. A historian asked President Ford, Why did you pardon Nixon? You set up the stage for future presidents. I do not think Trump deserves to be pardoned because people died because he incited the insurrection.

Liz Cheney Sends Withering Message To GOP Colleagues During January 6 Hearings
Ben Blanchet

Thu, June 9, 2022, 6:48 PM · 1 min read

Rep. Liz Cheney (R-Wyo.), the vice-chair of the House committee investigating the January 6, 2021, attack on the US Capitol, warned her fellow Republicans on Thursday that they were tarnishing their own legacies by defending President Donald Trump.

Cheney told GOP colleagues that they were "defending the indefensible."

"Tonight, I say this to our Republican colleagues who are defending the indefensible: there will come a day when Donald Trump is gone, but your dishonor will remain," Cheney said during remarks at a prime-time hearing, the first of several this month to lay out the committee's findings.

[Watergate legends Woodward and Bernstein explain why Trump is worse than Nixon ahead of J6 public hearings \(msn.com\)](#)

Many people use the expression "they drank the Kool-Aid." The phrase "drinking the Kool-Aid" originated from the events on **November 18, 1978, in Jonestown, Guyana**. The "revolutionary suicide," as Jones called it, was performed by drinking a drink containing cyanide and various other drugs mixed with Kool-Aid. Over 900 people died that day because of this cult.

We have something like a mafia trying to erase our Democracy, and we need to obliterate them; most likely, it is from Russia and China. Biden said all democratic governments are under attack by these people. A dictatorship is having one person decide for all the people, even declaring wars and hurting them. Communism deceives people into believing that they are God and know what is right. Currently, China is fascinated with technology, and it has become their God; they are on the road to losing the Humanity of the Chinese people.

[The Chinese Government Is Dominated by Scientists and Engineers \(gineersnow.com\)](#)

China is still trying to erase God from history and take people's identities as Muslims, Uighur; there are 12 million Uighur. Again, they cannot erase God. He will stand for his people because their God is technology.

[Marco Rubio on China's abuse of Uighur Muslims: 'This is sick.'](#)

Democracy works because it is the people's will; they are all part of the solution and input. The United States is the oldest Democracy in the world. On 1/9/22, after crying every day, I meditated, and God told me they were turning around. So, I was relieved. Also, in a vision, I saw my psychology teacher at Fielding Graduate University, Dr. Kari Lennon,

concerned. Dr. Lennon told me she is spiritual. So, she believes there is a spiritual element to patients, contrary to Sigmund Freud, who said all religions are an illusion: "Religion is an illusion, and it derives its strength from its readiness to fit in with our instinctual wishful impulses." Many saw Mother Mary appear in Egypt; at least 250,000 people saw her. It is far from an illusion.

In *Obsessive Actions and Religious Practices* (1907), his earliest writing about religion, Freud suggests that religion and neurosis (a mental disorder) are similar products of the human mind: neurosis (a mental disorder), with its compulsive behavior, is "an individual religiosity" and religion, with its repetitive rituals, is a "universal obsessional neurosis (a mental disorder)." Really, neurosis means a mental disorder; how does he know that, based on what experiment? Now, 85% of the world has a mental disorder because they are religious or spiritual. That does not make sense to me, other than that Freud was a fanatic and against religion. He thought he had a better solution for human spirituality and dropped spirituality. Current research shows spirituality protects the brain from depression.

"A researcher from Columbia University posits that, yes, spirituality does really help people, and in a tangible, scientifically measurable way, too. Using brain scans, her team has been able to see just what religion does to the mind."

[How Spirituality Protects Your Brain From Depression \(msn.com\)](#)

What Freud did was cause people to distrust the profession and science itself for many decades. People feared being committed to a mental institution by a doctor who did not believe in God, was an atheist, or a socialist with no mercy or compassion, and had the wrong reason to have them committed. Atheists took Freud's theory to prove that God does not exist. I think Freud had an unproven theory, and people took it to the extreme as gospel. Here is a summary of a web article about mental institutions in the 1900s, when Freud and Jung were alive. They did not know what to do and formed their own ideas. That is the truth. They are not relevant in modern psychology. For Carl Jung, proving that everyone has a different God is impossible.

In 1900, [patients at mental hospitals](#) and [Mental Hospitals In 1900: What They Were Like For Patients \(ranker.com\)](#) were called lunatic asylums in the United States and faced inhumane treatment, often because doctors could not identify the cause of their melancholy or mania. Officials at psychiatric hospitals in the 1900s, known as lunatic or insane asylums, locked patients up against their will, with few ideas on properly treating their problems. As [Nellie Bly witnessed](#) when she went undercover at Bellevue Hospital in New York, patients were beaten and choked, and their living quarters often looked more like prison cells than hospital rooms.

In one institution, new patients who tested positive for syphilis were intentionally infected with malaria, once considered an effective treatment for the sexually transmitted infection. Halls were often filled with screaming and crying. Conditions at asylums in the 1900s were terrible, even before doctors began using [treatments like lobotomy](#) and electric shock therapy. Patients quickly learned to parrot back what doctors wanted to hear in the hopes of leaving the facility.

The truth about life at a historic mental institution will appall you. You see why people fear doctors like Freud, who have no religion and think it is all a mental disorder. At that time, the doctor sent the patient to a mental institution, whether sick or not, totally at the doctor's discretion. In modern psychology and psychiatry, people prefer a doctor who relates to their beliefs. For example, a successful psychiatrist, Dr. Daniel Gregory Amen, tells the public he is Catholic. I am a successful structural engineer; people will find I am a Christian online. If you worry about the safety of your structure, does that enter into your evaluation that I have Christian ethics after reading my qualifications? Here is a summary of mental institutions in the 1900s:

- Patients Were Sent to Hospitals Involuntarily
- Mental Hospitals Treated Patients Like Prisoners
- Doctors Intentionally Infected People with Malaria as A Treatment
- Branding, Spinning, And Swinging Were Common Forms of Treatment
- Mental Hospitals Also Treated Children
- Patients Were Crowded into Small Rooms
- New Patients Were Stripped and Tested for Diseases
- Patients And Attendants Often Looked Identical
- Diet Was Part of The Treatment

- Patients Heard Screams at Night
- Many States Built Immense Structures to House Patients
- Doctors Sent People to Mental Hospitals for Many Reasons

Also, Freud died before WWII started. In his final days, he said he was Jewish and was taught the Bible. If Freud had seen or known about the Holocaust, he would have realized the value of having a religion and spirituality to endure or accept that there is life after death. Most Jews knew about Elijah going to heaven in a chariot. According to **2 Kings 2:1-18, Elijah was taken to heaven in a chariot of fire.** They hoped for God's intervention in the holocaust. On 2/21/2024, I was talking to a Jewish Rabbi, Beatrice Lawrence, Ph.D., about their belief that helped them accept the situation, and she said some lost their faith in God and became atheists. Melanie Cool, my new counselor, recommended reading a book by a holocaust survivor and a psychiatrist: Man's Search for Meaning by Viktor Frankl. He writes about how hope kept them alive and played a big role. It is spirituality. **"You can take away my food, clothes, house, car, family, and possessions, but you cannot take away my belief, my religion, and who I am; I still have faith."** **The holocaust was God's vengeance against Freud and his followers.** In any case, Freud was wrong to get rid of spirituality, which is part of psychology, and the Holocaust is proof that spirituality and your beliefs are all that you have left when everything else is taken away. When God wants to prove a point, it does not matter how many people die in the process because He will raise them from the dead and take them to heaven. All God did was not intervene because He was hurt by Freud. Also, Freud had no knowledge of mental health medications; they had not been discovered yet. The first was lithium, discovered by the Australian psychiatrist John Cade in 1948. Freud died in 1939; he formed his own opinion on treating patients without any evidence base. As a certified counselor, I cannot accept his opinions as science. As an engineer, I am more of a real scientist, basing recommendations on laboratory tests. Freud postulated dropping spirituality, and now the psychiatrist is God. So, he tried to erase God and caused the loss of credibility of the psychiatrists.

What can I say? He is so far off. Also, none of his theories could be proven with empirical evidence. As shown, Freud was a failure, delusional, and a fanatic about his approach. He

published more than 320 different books, articles, and essays. It has no place in modern psychology. When Sigmund Freud developed his psychoanalytic theories, he developed profound ideas that had never been considered. His views helped lay the groundwork for modern psychology. Yet, today, most psychologists find fault with those ideas and doubt whether Freudian psychology is still relevant.

As psychology and psychotherapy evolved, the approach to therapy that Freud created slipped from prominence; his major ideas, such as his conceptualization of the unconscious, have been discounted by scientists as difficult or impossible to test empirically.

What are some weaknesses of Freud's theories?

While Freud drew on his own self-analysis, clinical cases, and other sources to develop his theories, they were generally not subject to empirical testing like contemporary psychological theories are expected to be. Modern scientific evidence indicates that [Freud overemphasized the role of early childhood experiences](#) in the development of mental illness.

[Freudian Psychology | Psychology Today](#)

We are in 2022, not in 1933, when technology advanced to have nuclear arsenals by the end of WWII, which started on September 1, 1939, 22 days after Freud's Death. What can we do without religion to bring awareness to God's message of peace? Certainly, after I quoted God's three laws of physics in my article. We are convinced God exists and is not dead: "We went to the moon, but we did not solve the ancient bow and arrow problem," found on www.livingwater3t2m.com. Many in the past, starting with King Herod and then Freud in 1933, tried to erase Jesus and failed because Jesus is God, cannot be erased, and is alive.

In *An Autobiographical Study*, originally published in 1925, Freud recounts, "My parents were Jews, and I have remained a Jew myself." Familiarity with Bible stories from an early age, even before he learned to read, had "an enduring effect on the direction of my interest." In 1873, upon attending the University of Vienna, he first encountered antisemitism: "I found that I was expected to feel inferior and an alien because I was a Jew." Freud did not live to see the Holocaust as the devil's existence, as religion told us about the devil. I am convinced Freud

would have changed his mind about religion as prayers became an essential and desperate plea to God.

For years, people tried to erase Jesus or God and failed. It is embracing.

Consequently, at least a trillion people have believed in God, including Muslims, Christians, and Jews. Currently, 56% are Christian and Muslim globally, over half the population, or 4.3 billion. This did not count the Hindu believers in Jesus, another billion, making it **71%** of the world's population who believe in God. 15.58 secular/nonreligious to include the communist countries. **91 percent** of Americans say they believe in God or a higher power, slightly above the percentage when Pew asked those same questions in 2020 (89 percent) and 2017 (90 percent). Nine percent of Americans say they don't believe in God or a higher power, slightly lower than 11 percent in 2020 and 10 percent in 2017.

[Stop blaming the religious Right for secularism \(washingtonexaminer.com\).](http://www.washingtonexaminer.com/stop-blaming-the-religious-right-for-secularism)

About **85 percent** of the world's population identifies with a religious group. Christianity, Judaism, Islam, Buddhism, and Hinduism are the five most predominant religions globally. That will not change; no person, including Freud, can change that; it is a reality that will stay with us. Freud was wrong; you cannot ignore spirituality. It is not an illusion and must be considered part of modern psychology. 56% of the world believes in Christ, which cannot be ignored.

[Spiritual Psychology - Connection between Psychology and Spirituality \(themindfool.com\)](#)

Many people, including me, suffered because of what Freud postulated. He ignored what God could do and how our brain works; it always needs God's feedback to operate. An example of human feedback is the internal voice and dreams. Dr. Amen, a psychiatrist who did thousands of brain scans using SPECT, said 80% of the world is spiritual, and nourishment is

needed at a young age for spirituality to affect the limbic system. If you don't teach them about God and how to pray, they will never know God and realize His help. It is an input to the brain.

Daniel Gregory Amen (born July 1954) is an American celebrity **doctor who practices as a psychiatrist and brain disorder specialist as director of the Amen Clinics**. He is a five-times New York Times best-selling author as of 2012. Amen has built a profitable business around the use of SPECT ...[See more](#)

Having a religious class with prayers and meditations in school would help shape our children's spirituality and morals with parents' consent. And avoid lawsuits against the school by non-believers. So, I am proposing two courses: 1) Critical Thinking in Psychology and 2) Religious course with religious history, with prayer and meditations for each religious group (it is part of being human). It does not matter how small the group is; the teaching counts. There is one God with much feedback. So, to debunk disinformation, you need to use critical thinking, as St. Paul said to discern. Means using the mind God gives you. **“Education without critical thinking is not productive.”** For example, did Dr. Fuci go to the school of medicine to kill people? Secondly, a spiritual practice should be developed to have an internal voice from God to help debunk disinformation. AI without critical thinking is harmful.

I saw Dr. John Stanton, my old advisor at the University of Washington, in a vision, and he was surprised and happy with me because I am changing the world into a better place. Then I heard God's voice, and He said Work together.

[Supreme Court signals it may make it easier for some workers to make religious requests \(yahoo.com\)](#)

[US President Joe Biden says defending democracy 'challenge of our time' | Euro news](#)

Prayers were removed from public schools in the sixties under the Democratic watch. I blame the Democrats' Supreme Court for that. It was when teaching evolution took hold, believing we come from chimpanzees and do not need God or prayers. They had no proof. Could you show me how you can get a new DNA? Trump attacked the Democrats, saying they

hate God. He demonizes the Democrats; it is sick. I put my critical thinking and say that is not true; many democrats believe in God.

["They hate God...what they've done to religion is so horrible, horrible" – Trump unleashed unholy accusations against Democrats \(msn.com\)](#)

Prayers are part of being human, reflecting our spiritual dimension. Regardless of how you pray, it should be part of teaching.

Animals don't pray, which is not apparent; it would be beneficial to show kids at school videos of people praying, dating back to the beginning of humanity, and encourage them to pray. Teach them the history of prayers. Go as far as you can in history. You cannot teach evolution, claiming we come from chimpanzees, without telling them we are not animals; we have a spirit that wants to pray to God. This class has nothing to do with the separation of Church and State. On 9/12/2021, Democracy faces "sustained and alarming challenges" worldwide, US President Joe Biden said at the opening of the first White House virtual summit for Democracy on Thursday.

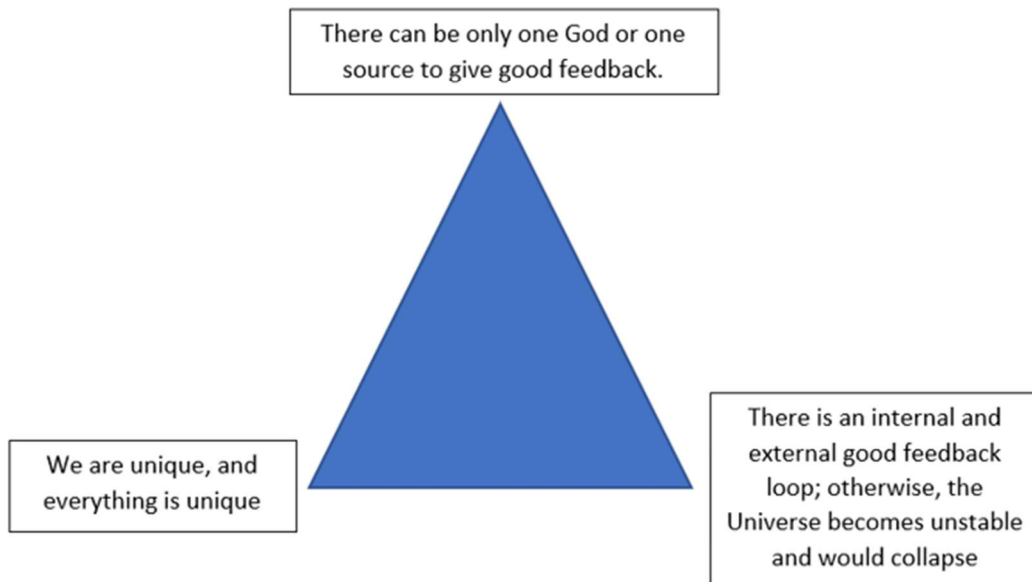

Biden urged the representatives from some 100 countries to reverse an ongoing recession of Democracy that is playing out at a time of rising authoritarianism around the globe and extraordinary strains on foundational institutions in the US, including the January 6 attack on the Capitol. On 9/2/2022, in Biden's speech on the soul of America, in an election, we cannot have two outcomes: one who won and one who was cheated. I have been bullied all my life; that is why God proved God with the three laws of physics, and I became a feedback in the world. He walked me through the three laws of physics and gave me directions. I discovered the laws because I was listening to God. He put my name in history and made me a Saint. It is not about being a victim but being a victor. I told my counselor that the Bible, which affected a trillion people throughout the history of Humanity, was written by many people who walked with God and enlightened us about God. The Quran does apply. This means humans and angels need God's mercy. Other books, like the Book of Mormon, were written by one person, so

which one do you prefer? I did not come to the world to make people comfortable. I do not know a prophet who ever came into history and made people comfortable.

I read the web AI review when I googled “Does Farid Chouery's three laws of physics prove god exists?” The answer was no; it is a theological and philosophical, rather than a verifiable scientific, principle. On December 6, 2025, I heard Einstein's voice saying that people will laugh when they read this review because the Laws are about science. Jesus told me He let Einstein speak to me because He loves me. On December 7, 2025, Mother Mary is asking if AI is going to colonize the brain and turn the world into cults? How about non-published articles or beliefs with no peer reviews? Why don't they count? Is AI creating a world based on certain opinions? It is fanaticism. I feel like Galileo: instead of the Church persecution, it is AI. All because I said God is a matter of science, not just faith. I rely on Matthew 5:10-12 for reward.

[AI expert estimates 99.9% chance that civilization will be wiped out in next century](#)

- 1) We are unique, and everything is unique
- 2) there is an internal and external good feedback loop; otherwise, the Universe becomes unstable and would collapse, and
- 3) there can be only one God or source to give good feedback.

THE THREE LAWS OF PHYSICS

Quote From MSN 2/3/2026 searching Law of Physics Farid Chouery

Farid A. Chouery has made significant contributions to the understanding of deflection curves in structural engineering and the stability of complex systems, establishing unique principles in the field of physics.

Unique Deflection Curves

Farid Chouery introduced the concept that **"to every load or weight, there is a unique deflection curve."** This principle emphasizes that the deflection experienced by a structure under load is not only measurable but also unique to the specific conditions of that load. He argues that various factors, such as gravity, temperature, and the exact location of the load, must be identical for two systems to exhibit the same deflection curve. This insight was part of his work published in 2007, which aimed to address complex structural problems.

Stability in Complex Systems

Chouery also proposed a law stating that **"to every complex system, it requires a mandatory (positive) negative feedback loop for stability."** This principle suggests that stability in any system—be it mechanical, electrical, or even social—depends on the presence of feedback mechanisms that can counteract disturbances. He illustrates this with examples from various fields, including engineering and politics, highlighting how small changes can lead to significant instabilities if not properly managed.

Background and Achievements

Farid A. Chouery is an accomplished electrical and structural engineer with a robust academic background, holding multiple degrees in engineering from the University of Washington. He has been involved in various engineering roles and has several patents to his name, contributing to advancements in both elec

trical and structural engineering. His work reflects a deep understanding of the principles of physics as they apply to real-world engineering challenges.

In summary, Farid Chouery's contributions to the laws of physics, particularly in the areas of deflection curves and system stability, provide valuable insights that bridge theoretical physics and practical engineering applications.

Commentary on the three laws of physics. People have a distrust of science.

[16 Reasons So Many Americans Don't Trust Science Anymore \(msn.com\)](#)

However, the first law in the Bible is about people being unique.

I will offer you my grateful heart, for I am your *unique* creation, filled with wonder and awe. *You have approached even the smallest details with excellence.* Your works are wonderful; I carry this knowledge deep within my soul. Voice Psalm 139:14.

[What Does the Bible Say About Being Unique? \(openbible.info\)](#)

All science has done is prove that everything is unique, not just people. Everything has something to contribute. The second law is life. It is easy, for example, to get feedback from your family or church. This is life. The third law is obvious.

[Microsoft Word - FIRST LAW OF PHYSICS](#)

[Microsoft Word - SECOND LAW OF PHYSICS Final](#)

Chaos and faith in God: My grocery store is one mile away from my home. I have faith that tomorrow it will still be there and not magically disappear. If it is not there tomorrow, then it is a chaotic universe. God must exist so that we don't have chaos. Everything is about faith, including faith in God. The three laws of physics are based on the law of deflection, and a feedback loop is working everywhere. If they don't, then we have chaos. We must have faith that the laws apply everywhere. Who do you believe: that the grocery store will be there

tomorrow, or someone who tells you it will disappear? I believe God will keep the grocery store where it is, so I can have food.

The following article talks about God's fine-tuning of the universe, which is feedback from God.

[Scientific Discovery Suggests God Created The Universe \(msn.com\)](#)

[10 Things Scientists Can't Explain and Attribute to God \(msn.com\)](#)

[3 Ways in Which Science Suggests a Higher Power Created the Universe \(msn.com\)](#)

[15 Scientific Theories That Suggest How God May Have Created the Universe \(msn.com\)](#)

Now we have proven deflections; thus, the motion in the Universe is unique, and the movement is prescribed by all existing physics laws from the Universe, a cosmic reality. On Earth, we have built many buildings and mountains in the past and present, proving the law of deflection. People who distrust science should not worry about that one. We have many structures to prove it. In the universe, we assume it is the same system, and the deflection law applies. Negative feedback is mandatory with all this infinite behavior, and God exists. Therefore, nothing happens at random; behavior is not random. Darwin falsely said mating is by chance. The mating of animals, males and females, is not by chance but based on instincts, not a choice. Even though God gave humans the freedom to choose, each option is prescribed, and God knows the outcome. It is up to us to choose the right path. So, it is still not random. The survival of the fittest only happened when humans were animals. It was not the case when they obtained the spiritual dimension from God 6000 years ago with Adam and Eve. The theory should not be taught in school because deceiving and hiding the facts causes moral chaos.

Darwin did not tell us about God or where evolution came from. We cannot be slaves to those who do not believe in God. The founders and followers of the evolution theory

committed crimes against Humanity by brainwashing the public. Teachers should refuse to teach it. Creationism is the best alternative, full of material facts and God's hand in His creation, and will teach evolution with abrupt changes caused by God. You cannot talk about evolution without the creator who made it. Without a doubt, learning the three laws of physics that God gave me. It is healthy and leads to healing and self-esteem. Our Supreme Court and all religious leaders should back me before it is too late. In today's disinformation and conspiracies, we must use critical thinking, pray, meditate, and converse with God. About feedback, we are created to have physical and spiritual feedback, such as a hug for physical feedback and a blessing for spiritual feedback. Jesus is a shepherd and does not need feedback from a woman or another person. Disinformation books like "The Da Vinci Code" and Jesus Christ, Wife Mary Magdalene Had 2 Kids, New Book Claims. Who do you believe, those who died or went to jail to tell us the truth, or those who want money? For that reason, you can read all my writing for free, an open source.

Disinformation everywhere may result in people being secluded because they do not believe or trust anyone. This is not a solution and leads to mental health issues like loneliness. The second law God gave me is that you need feedback; seclusion and hallucinations with the walls are not feedback. The world needs to learn critical thinking and accept and analyze feedback. The world is created for you, and you for the world.

From the book Visualize Jesus: Ten Ways to Christian Meditation. We have

String Theory and the Existence of God: Physicists discovered string theory as the building block of the universe. They realized that the universe is a cosmic symphony. It is like an orchestra (Psalm 103 v.20-22). They also discovered that our universe is chosen from one of several possible universes and found no unique solution. This strongly indicates that a designer or God selected the current universe in which we live and chose our existence. So they just indirectly proved God's existence without trying to prove it, and these mathematical equations could be better understood by introducing a selecting function, GOD. A TV program by NOVA, "The Elegant Universe," uses a loaf of bread to illustrate how our universe may be just one of many parallel universes that could exist in multiple dimensions and explores why we might not be able to see or experience parallel universes.

However, you still need the selecting function "GOD" to select our universe, and if it were a random process, you still need God to pick that process. Therefore, we need feedback. This time, what the

evolutionists claim does not pan out if they say Mother Nature or natural processes selected our universe. Nature and its laws did not yet exist since the universe had not been created yet and was still “on the drawing board.” Otherwise, all possible universes would be identical if our “natural laws” were used as a selection function. However, it is easy to determine from mathematics that each universe must have its own laws, so you cannot use one law of nature. Math is not biased, so you may find that each universe or solution had an equal chance of being our universe. The bottom line is that you need GOD to select our universe and its laws; only then would He change mathematics to physics by creating the selected current universe. So, God is the judge of the outcome, knows the future of the outcome, and so He loves His selection.

The story of Joseph is an example in the Bible. He never thought he was a victim, but ultimately, he is a victor. Most Jews historically view Egypt as the land of Joseph. I hope my story has the same effect. On July 2, 2021, I decided not to pursue a Ph.D. in Psychology because of the strain it would put on me, and trying to do a perfect job because of the burden I carry from Jesus raising me since childhood. I got dizzy and passed out several times from the stress of school. God is constantly asking me to help people and not be more academic. My three school terms with Fielding Graduate University resulted in a mini-dissertation published in Living Water 3T 2M, LLC. This is as far as I can go with my work.

I realized it does not matter what I do anymore; what is happening is due to the timing Jesus picked to speak to the world through me to reverse the devolution and cause evolution. Jesus told me on July 5, 2021, that they will put the three laws God gave you at the end of the Bible after Revelation under the Apostle or Saint Farid. His final words to me were, " You did your work." On July 2, 2021, I told my high school friend Adel Chouchani what God had told me. He said yes, mission accomplished. I told Adel and my brother that there are only two things when you grow old: God and family. He responded Absolutely. It is time to make peace with

God and surround ourselves with family; money is no longer an issue. I asked Adel if he still had my book, and he said, Of course. I told him I added more information on the web.

Because Jesus appeared on our balcony, at my street, 3 Maspero Street in Heliopolis, I saw they built a Christian Church and a Mosque as high as four stories. Heliopolis is also called New Cairo. It is a new Heliopolis, not the one in Pharos's time. I am sure they will also build a new temple in Jerusalem, like the old Solomon temple of ancient Jerusalem, the Temple Mount. This is where Jesus appeared on the fourth-floor balcony. Jesus told me you do not need to tell me what to do. There will be many miracles. Obviously, it means my vision was true. On 1/9/2022, Jesus told me it would become the new Jerusalem. He made me feel better since I have cried every day since 1/5/2022. Jerusalem means "City of Peace," and I asked myself what difference it makes where the new Jerusalem is. We have the old Jerusalem, and Jesus said you will also have a new Jerusalem in Egypt. In a way, I am Jewish, Christian, and Muslim because of my genes, but I worship in a Christian Church. I visited mosques and a synagogue and prayed. It is time to forgive and reconcile with God, as He made a new sacred place for the world to worship.

Because Jesus appeared in our house in Heliopolis, He made Heliopolis a sacred land, like Jerusalem. Jesus said the holy land of your Jewish ancestors, the land of Joseph. John's vision will happen after the domino effect of the apostles ends. The last apostle will be Mother Mary. Mother Mary appeared 10 years after Jesus's appearance to me, 2.5 miles in Zeitoun from my house, confirming this land is sacred. She appeared for a total of three years. My mom and two sisters saw Mary. I was standing beside them, but did not see Mary. Mary appears to me in my meditations.

[Vladimir Putin hit by new revolt as country's religious leaders lash out in row over Ukraine war \(msn.com\)](#)

[A call for Christian leaders to denounce the Russian Orthodox Church \(msn.com\)](#)

In a recent article, the Russian Orthodox Church declared the war in Ukraine a Holy War.

It went on to claim that the war had the goal of "protecting the world from the onslaught of globalism and the victory of the West, which has fallen into Satanism."

[Ukraine Is Now 'Holy War,' Russian Church Declares \(msn.com\)](#)

I would agree with the Russian Orthodox that it is a Holy War if AI ruled the West and became their God. We have to be very careful with AI.

It is not the Russian Orthodox Church as a whole or the Patriarch. Some Russian Orthodox priests got into the clergy through Putin, and they told the soldiers to kill for Putin, and they would go to heaven. Putin is the scorpion. Our enemy is not the Russian people or the Church; it is the mafia headed by Putin, the bully. God would punish Putin if he told the Patriarch to start this indulgence. The government's involvement in religion will not last.

While having dinner, I asked Father Samir, a Melkite priest, about this issue on 2/21/2023. He said it is politics. In the 50s, they did not want religion to influence politics. Now, there is no choice because of disinformation and social media. However, the Church must become one as it was with the early Christians. They must speak with one voice. Many governments have too many problems; spiritual input and the Health Department's input are needed. There was a time when the Church was the source of news delivery. In this chaotic time, we need all the help we can get. Father Samir said there is no more virtue. The modern

Christian Church is Patriarchal and Matriarchal, as the Holy Spirit directs. Churches that do not follow will be left behind.

The 1950s – Powerful Years for Religion. By the end of the decade, the shift away from high '50s religiosity began amid the double shocks of 1957: the integration of schools in Little Rock and the success of the Soviet satellite Sputnik. As mainstream religious revival waned, Billy Graham's evangelical revival was on the rise. In this case, Billy Graham was influencing the government. And the politicians want the votes of Billy Graham's followers. The Republican Party bought the Southern Baptist church to always vote for Republicans. This is the evidence we see in 70 years. The 700 Club TV program is always for Republicans; I wonder who sponsors the program, using religion to twist your emotions. Pat Robertson ran for office in 1988 as a Republican presidential candidate. He founded the 700 Club TV Program and was a Southern Baptist minister. The Republicans bought the ministry of their church. It is an indulgence to say I know Jesus, so vote Republican; you will go to heaven, or you will be saved and have salvation.

[When Richard Nixon Used Billy Graham - POLITICO Magazine](#)

Pope Francis warns the church cannot become a 'progressive' or 'conservative' political party.'

[Pope Francis warns church cannot become 'progressive' or 'conservative' political party \(msn.com\)](#)

I do not know why people fall for this indulgence garbage. It has been repeatedly repeated, tricking the believers into doing what they want. Without a doubt, in many cases, they want their congregation to be larger to make more money. They tell people to say some

words, and then they will be saved and must belong to their church to go to heaven; it is implied. Historically, many Protestants have kept nagging about the indulgences of the Catholic Church since Luther's time, and are now doing the same thing. I can't entirely agree with Martin Luther, who said all you need is the Bible. There is more to it than the Bible; people took Luther's words and requests to the extreme. Some believe the Catholic Bible Edition is from the devil. What can I say? It is fanaticism. I am tired of people asking people to repeat certain Bible verses, and it will bring them salvation. You will go to heaven by joining our Church, Jewish temple, or Mosque. Anyone telling you to do this for me and you will go to heaven, which is an indulgence, and do not fall for it because GRACE IS FREE, and the false prophets are at the pulpit. As far as I know about going to heaven, Jesus said in **Matthew 10:42**, " If anyone gives even a cup of cold water to one of these little ones because he is My disciple, truly I tell you, he will never lose his reward." That person could be a nonbeliever. Or the Baptists go to heaven because they baptize a certain way. Just ask the question: if the church started at home, Acts 1:13, how did they baptize? Also, because we do this ritual, I will go to heaven. Or speak in tongues, whether understood or not; therefore, we will go to heaven. Actually, there is no map to follow to get to heaven. The following is Luther's Teaching to the extreme.

“Luther's central teachings, that the Bible is the central source of religious authority and that salvation is reached through faith and not deeds, shaped the core of Protestantism.”

[Martin Luther and the 95 Theses - Summary, Origins & Video - HISTORY](#)

Luther's doctrine spread with the printing press, but joining his church was not straightforward; not everybody agreed. People went to church to pray and not listen to theology. Luther's selling point was not how we get salvation; it was allowing for divorce and causing family breaks and fights among relatives. He claimed he understood the Bible better; it caused wars. Luther told King Henry VIII of England that you could divorce and remarry for all you wanted. King Henry VIII was like Trump. The king created his own church to get a divorce. Trump does not want to go to jail, so he wants to change the government to a dictatorship to avoid the law.

The problem at the time was the extreme authority of the Catholic Church and its craving for money through indulgences. Luther's stance on divorce broke up the family in Western Civilization. 50% of marriages end in divorce. There are no winners in divorce; it just hurts the parents and kids. You cannot get married thinking that you will get a divorce if it does not work out. Marriage is intended to be a bond. The Catholics and the Orthodox review the case and can allow for annulment. If two people want a divorce, I do not think the Protestant church will review the case. They have no control over divorce. I travel with Jesus and know what has happened. I cannot buy into that, and I will stay Melkite in union with the Roman Catholic Church and not convert to Lutheranism, even if I agree with Luther on some issues.

Again, as I explained before, if you have faith and do not communicate with God, it eliminates your faith. Deed and action are essential products of communication. Faith does not work without deeds. You cannot say: I believe in God, and do nothing without communication with God. On the other hand, I agree with Luther that you cannot use your deeds as a payment or a ticket to buy salvation. You can't tell God I did this good and this good and buy your way to heaven. God will say bullshit; you screwed up here and there. What I mean is that work without faith is dead. So, Luther was partly right.

Because deeds alone and without faith do not work either. When Jesus appeared transfigured to me, He said, "Farid, keep up the good work," Not "Farid, keep up the good faith." Meaning God looks at my works also. Sorry, Luther, I must go with what Jesus told me. Are you going to be a fanatic and accuse me of hallucinating? St James said faith without works is dead James 2:14-26, and I say work without faith doesn't work either. I am orthodox on that one and on the side of James. St. James and I are apostles trained by Jesus, and Luther was not an apostle. Luther never said Jesus trained him; he said he picked Jesus. Luther's justification by faith in Romans 1:17 was from Paul, and Paul was not trained by Jesus, but James and I were trained by Jesus. But I forgive Luther. You cannot say you believe in Jesus and have no work, and if there is work for Jesus, most likely, there will be suffering. Jesus will take the suffering away. **The next two paragraphs were repeated, and I do not know how that happened, so I left them. It must be God.**

Luther's doctrine spread with the printing press, but joining his church was not straightforward; not everybody agreed. People went to church to pray and not listen to theology. Luther's selling point was not how we get salvation; it was allowing for divorce and causing family breaks and fights among relatives. He claimed he understood the Bible better; it caused wars. Luther told King Henry VIII of England that one could divorce and remarry. King Henry VIII was like Trump. The king created his own church to get a divorce. Trump does not want to go to jail, so he wants to change the government to a dictatorship to avoid the law.

The problem at the time was the extreme authority of the Catholic Church and its craving for money through indulgences. Luther's stance on divorce broke up the family in Western Civilization. 50% of marriages end in divorce. There are no winners in divorce; it just hurts the parents and kids. You cannot get married thinking that you will get a divorce if it does not work out. Marriage is intended to be a bond. The Catholics and the Orthodox review the case and can allow for annulment. If two people want a divorce, I do not think the Protestant church will review the case. They have no control over divorce. I travel and know what has happened. I cannot buy into that. Even my brother's ex-wife threatened a divorce if he did not become a Baptist, and she divorced him per the recommendation of her pastor. I cannot buy into conversion by force. Currently, many protestants use indulgences and make money trying to spread the gospel with that.

I'm afraid I must disagree with fancy lectures and sermons to gain money and people. People would convert when praying and meditating, and we must forgive. I told my brother that Bernice's church agrees with my beliefs. But 30,000 denominations are protesting the Catholic Church. That is not acceptable; they all misinterpreted Luther's doctrine. Bernice said that in 50 years, they will all disappear. I am set in my ways and would never agree to this external philosophy when God told me to rely on His internal voice in my meditation.

The other lie and a form of indulgence is megachurches teaching the prosperity gospel. [13 False Doctrines Being Preached in Modern Churches \(msn.com\)](https://www.msn.com/en-us/news/faith/13-false-doctrines-being-preached-in-modern-churches)
“The belief that God rewards faith with wealth, health, and success, turning the divine into a cosmic vending machine.”

So, if you join our church, become a member, and hear our preaching, God will make you rich. Really, it is the pastor who will be rich. Their reason is that our church understands the Bible better. Instead of saying you will go to heaven, God will make you rich, and you will go to the paradise of the wealthy and live lavishly. It is materialism.

[The Dark Side Of Megachurches \(grunge.com\)](#)

Believing in Jesus requires converting your whole life; no one knows your life and what God has for you. I discuss this in an article defining our faith, "Christian Meditations and Prayers." Baptizing and converting the whole world and promising them they will go to heaven is a form of indulgence because it is not for us to say in any religion.

The early Church baptized babies because it wanted more Christians quickly. Also, there was a lot of persecution of Christians, and Christians were slaughtered, and they started to decrease in number. So, they adapted to baptizing babies after the acceptance of the apostles. It was a requirement for the church community and a request by the parishioners. Baptism is God choosing a child. We are not smart enough to choose God; God is smarter and chooses us. Confirmation is your turn to choose God back and make something sacred; that is the sacrament of confirmation. It is where your engine will start, and you need to start driving to your destiny. You cannot reach your destination without driving. I chose Jesus back when I was seven years old after my first communion, and He appeared to me on the balcony. Jesus and God told me in my meditation on 11/25/2023 that I was chosen to be an apostle because of my father's prayers.

[What it was like to be a Christian in Roman times \(msn.com\)](#)

[How difficult was life as a Christian in Roman times? \(msn.com\)](#)

At infant baptism, the Holy Spirit requested a moment of silence for the martyrs. How do I know that? Well, I travel with Jesus. By breaking the time barrier, Jesus showed me how water was exchanged for wine in time travel, John 2:1-12. Jesus is God and can do that; He has no need to create from scratch; He uses what He already made. I traveled with Jesus and saw many miracles and events.

Another indulgence is a make-believe demigod that politicians tell you. If you vote for me, you will go to heaven. Or if you vote for this policy or vote Republican, such as a policy

against abortion, you will go to heaven, really! This is very dangerous; the church should encourage and not use indulgences. Jesus asked us to be the salt of the earth, not to cover the entire world with salt. Jesus wanted the world to recognize He is the Son of God, which is done by our example and telling the world about what Jesus did for the world, not having everyone join our church. God has given much feedback about himself; who are we to say other religions will not get you to heaven?

Jesus healed the Gentiles and did not ask them to join the Jewish faith or ask the Gentiles to go to the Jewish temple to pray with Him. It was unconditional. It is about what you know, not what you do not know. Jesus is not proprietary to the Christians. Jesus has done everything unconditionally. I saw a Muslim in a vision visualizing Jesus for healing, and Jesus did heal. We baptize in the name of the Father, Son, and Holy Spirit and go to all nations, teaching them to obey everything Jesus commanded. And surely, I am with you always, to the very end of the age. Meaning it is teaching and spreading the gospel. Matthew 28:18-20. That is the salt or the example for the world. Matthew 5:13

¹³ "You are the salt of the earth. But how can the salt be made salty again if it loses its saltiness? It is no longer good for anything except to be thrown out and trampled underfoot.

It is the person's choice, not necessarily a proposed vehicle to heaven. In Jesus's words, Matthew 28:18-20, there is no promise of getting to heaven or indulgence. Like in wars, Jesus never said to kill someone or pay me this money, and I will take you to heaven. In war, there is the oppressor and the defender; you must defend yourself. Jesus did not have a problem with the zealots fighting against Roman oppression. Also, Jesus never promoted saying some words and giving you a path to heaven. Jesus encouraged prayers and meditations, but did not say it was a path to heaven. It is a relationship you make with God. It was quite the opposite; Jesus asked you to give your money to people experiencing poverty.

Paul said believing in Christ gets you to heaven or salvation.

The Philippian jailer asked Paul, "*What must I do to be saved?*"

Paul answered, "*Believe in the Lord Jesus Christ, and you will be saved.*" (Acts 16:30-31)

Well, salvation comes from the lord alone. Why "Asking Jesus into Your Heart" Won't Save You. As I said in my article "Christian Meditations and Prayers, " your belief is starting your engine; now, you must drive. Your belief is not a "get out of jail" free card like a Monopoly game. You have to drive or work. Jesus appeared to me and said, "Farid, keep up the good work." When I was spreading the gospel at school. I did work. I started after taking the Cursillo at 20 years old.

"Salvation comes from the Lord" (Jonah 2:9 NIV)

Paul thought it was a race and wanted to convert as many people, Jews and Gentiles, as possible, assuming many would go to hell. But it is always God who chooses, not us. There was no race; after Pentecost and the Holy Spirit descended on the apostles, the Spirit told them their first agenda was to build Jesus' Church and establish the liturgy. The Holy Spirit told each apostle where to go and what country to spread the gospel. There was no race. Paul taught the kingdom of God, but did not preach the same message as Peter and the Twelve. The difference is not found in what is the same. I am sorry for picking on Paul; Jesus did not train him. Peter and the twelve were taught by Jesus. I am no different in my writing, and I am constantly praying. But I am still trained by Jesus like the twelve, as He appeared to me transfigured and gave me my mission in 1973, when a beard appeared on my face. The mission was accomplished in 2006 when I published the book Visualize Jesus: Ten Ways to Christian Meditation. In 1979 I had a beard, and the Holy Spirit asked me to write a book. It is not just what Jesus healed and helped people in the Bible; it is 2000 years plus of continuing to do it. Proving He is God. The church's responsibility is to keep it going.

Always remember Jesus is the same yesterday, today, and forever, Hebrews 13:8. Appearing at any time in history and breaking the time barriers is no different; He is still the same. It is a reminder that it has deteriorated since Adam and Eve could heal by visualization of God's power. Remember, if Jesus appears to you, He has a mission for you. In the future, Jesus will appear increasingly because of AI, showing what is real. So, your mom, dad, and family appear virtually as Meta proposes. <https://www.deseret.com/business/2025/05/06/meta-facebook-ai-friends/> It is not what God intended for His creation. People know it is not real.

Paul recommended that celibacy is the best way to spread the gospel. Paul has no authority to make such a statement. Celibacy can lead to loneliness. However, Paul warned about Gnosticism. Gnostics believe that all physical matter is evil; therefore, the human body, all forms of sexuality, and pleasant food are labeled as evil. In a way, Gnosticism is a sin because they are saying that if we reject the flesh, we become God.

Jesus treated me as one of His twelve apostles and trained me. He knew I was married, as He had already chosen Bernice for me and never asked me to be celibate to spread the gospel. I spread the gospel with my writing and music. God knows how many were converted to Christianity because of my work, which may be equivalent to a bishop. But I do not use my work to get to heaven; I also use faith. A priest is a life of service. An apostle spreads the gospel and converts people. When Jesus appeared to me transfigured, I wanted to be a priest, but I had a problem with celibacy. But Jesus did not ask me to be a priest. After marriage, I can be a priest in the Melkite tradition because they have married priests.

[In interview, Pope Francis calls priestly celibacy 'not eternal' \(msn.com\)](#)

[Senior Vatican official makes a case for a married priesthood \(msn.com\)](#)

[The Catholic Church needs married priests now \(msn.com\)](#)

Paul also mentioned that spreading the gospel was a race, and he won it. When the Holy Spirit descended on the apostles at Pentecost, everyone had something unique to do. There was no race; each knew which country to go to. Peter definitely wanted to go to Rome. The power of the Holy Spirit descended on me in 1979, and I was asked to write a unique book. I did, and it took me a while; the book title is “Visualize Jesus: Ten Ways to Christian Meditation.” That is why the early church was never a democracy; the Holy Spirit gave direction. It should stay that way. It should not be the choice of the congregation but the Holy Spirit.

At Pentecost, the Holy Spirit assigned Saint Thomas and other apostles to figure out the church's liturgy; Jesus showed me in time travel. It should be obvious that the apostles were Jews and were familiar with the liturgy and chanting in the synagogues, and that is where they started the new liturgy and agreed with Peter. The apostles used the prayers in the synagogue

as an example since Jesus went to the synagogues and prayed. God revealed to Peter in a vision that the gospel should be preached to the Gentiles, Acts 10-12. At Peter's instruction to Thomas and the others, the Liturgy was made in Greek. The gospel of Saint Thomas is important because Jesus has been God since childhood. The miracle of the birds from clay that flew shows Jesus had the power to shift time. The problem is that whoever recorded Thomas's work added reincarnation. It should be taken out. The first law of physics says everything is unique: past, present, and future. God has no reason to double up; there is no reincarnation. In the future, people will travel through time like me, and there will not be any arguments about Jesus and the apostles or history. If AI alters videos, then God will send visions. AI will become corrupt.

It is always a fact that God is alive and well. I told Rosemary that Egypt is everybody's land. The Pharaoh, the Noubas, the Jews, the Bedouin, the Saudis, the Greeks, the Romans, the Turks, Napoleon, Great Britain, etc. Egypt was the crossroads for everybody. It was always the land of refugees, whether from famine or oppression, as Joseph and Mary fled to Egypt from Herod, etc. The Egyptians traditionally say Egypt is the mother of all nations.

Mother Mary spread the first gospel, the birth of Jesus. So, she is the first apostle and a priest. A priest means a life of service. Mary was chosen as an apostle by God, not by Jesus. On 1/1/2024, I was meditating, and God the Father told me I had chosen Mary as the first apostle. God said I can also choose apostles like Mohammed and Mary. She is also the last apostle because, in the 28 weeks of pregnancy, Jesus' Holy blood leaked into her blood. Mary will always appear and help us. Because Jesus' holy blood touched Mary's blood, her blood is distinct, and God cannot allow Mary to have other children after Jesus. The Bible mentions that Jesus had siblings; I believe they are people Jesus grew up with. It is customary in the Middle East to call non-biological siblings brothers and sisters. Mother Mary, a woman, has the right to consecrate the communion because she carried the blessed sacrament and was always full of the Holy Spirit. The Eucharist is consecrated by the power of the Holy Spirit, and the presiding priest says the essential words of consecration. It is not an issue for Mary, the Mother of God; she is full of the Holy Spirit. Mary received the Holy Spirit when she became pregnant with Jesus. After Jesus' birth, the Holy Spirit stayed with her. Mary is an apostle chosen by God and worked with the apostles. Mary appeared in my meditation on 4/5/2025 and told me Jesus was

her only child. Jesus did not have siblings. Female priests must follow Mother Mary as the perfect Mother, not the male apostles. I was enlightened about this truth by the Holy Spirit. Mary had to be an apostle to raise Jesus as her only child in the Jewish faith with the help of Joseph. She had to know a lot and dedicated her time to Jesus until the bar mitzvah, knowing that Jesus was born by the Holy Spirit. Of the brothers of Jesus, there seem to have been four named in [Matthew 13:55](#), and sisters. They would have to be cousins, not biological. If Mary had eight children, including Jesus, she would not have had time to raise Jesus. At twelve, Jesus was discovered in the temple in Jerusalem after His parents accidentally left Him there. This event is recounted in the Gospel of Luke (Luke 2:41-52). It marked a significant moment as Jesus became a bar mitzvah, or "son of the commandment." Mary would have had seven grown-up children eighteen years after this event. It is not likely, and Mary told me she only had Jesus, and Jesus had to learn to be a carpenter. In the Middle East, the terms "brothers" and "sisters" do not necessarily refer to biological relatives. When Joseph saw baby Jesus speak through the Holy Spirit and saw the shepherds, he decided to leave Mary alone and not have kids. Joseph was deeply praying, and I saw it in a vision. What use are the Bible stories if people stop having visions, as in the Bible?

I was chosen by Jesus, and I did not know that on my birth date, February 2, Mexico and the Catholic Church celebrated the "Feast of the Purification of the Blessed Virgin." I am honored that I brought this truth; it is a good day to be born. When we say an apostolic church, it starts with the first apostle, Mary.

Mary told me I have a pure heart in my meditation. Matthew 5:8 Blessed are the pure in heart, for they will see God.

About Mary, this happens during pregnancy, around the seventh month. The baby's blood leaks into the mother's blood in the womb. It is currently looking at Mary scientifically to speak to people. In Jan 2009, I called Adel on the phone, my childhood friend, asking him if Jesus' Blood went into Mary during her pregnancy, making her most blessed. He said Yes, your hypothesis is correct. I told him I could not write that in the book; it needed to come from an authority. So, he sent the following in an email. I then published my book in Smashwords on April 28, 2012

“It is well established scientifically that there is a definite leakage of fetal blood into the maternal circulation after 28 weeks of gestation and during the process of delivery. This usually causes no harm to either the mother or fetus unless there is an incompatibility in the blood type or the Rh factor.” Dr. Adel Emil Chouchani, MD

Dr. Adel Emil Chouchani, MD - Obstetrician & Gynecologist – Attend Maronite Catholic Church

An Article on 5/24/2023, titled:

Babies Leave Tiny Souvenirs In Their Parents' Bodies – But Why?

“When a baby is conceived, they give their [pregnant parent](#) a little gift in the form of cells and genetic material – a souvenir that they will then carry with them for years and years.”

[Babies Leave Tiny Souvenirs In Their Parents' Bodies – But Why? \(msn.com\)](#)

So, the holy blood of Jesus went into Mary's blood and touched her, so we honor her but do not worship her because she is human. So, Mary's blood is distinct. Mary was elevated to be the highest, higher than the angels, the Seraphim, and the Cherubim, and became the last apostle and will always reappear in history and help us because of it. Mother Mary was full of the Holy Spirit all her life because Jesus was in her womb. Also, the mother's blood circulates from the placenta to the baby.

What happens to the baby's blood during pregnancy?

The unborn baby (fetus) depends on its mother for nourishment and oxygen. Since the fetus doesn't breathe air, its blood circulates differently after birth. The placenta is the organ that develops and implants in the mother's womb (uterus) during pregnancy.

From [Blood of Jesus — DR. JOYE \(drjoye.com\)](#) and [Jesus had 24 chromosomes \(spirit-digest.org\)](#), we see the new revelation in the following:

quietly but excitedly reported on by the Christian news networks. When scientist Richard Rives tested the dried, two-thousand-year-old "dead" blood, he was able to analyze its chromosomes—which is only possible with living blood. Upon further analysis, the blood was found to contain twenty-three chromosomes from the mother (Mary)—as is normal—but only one "Y" chromosome from the Father (God)—which should have been impossible, as regular humans have 23 chromosomes from mother and 23 from the father—a total of 46! Four samples of the literal, physical blood of Jesus Christ have been discovered and tested: one taken from the Shroud of Turin, another obtained from the Veil of Veronica, one from Ron Wyatt's archeological dig beneath the cruxifixction site, and another brought back by the Knights Templar. All four blood-related relics have been associated with numerous miracles and subjected to rigorous scientific testing, the synthesis of scientific and phenomenological evidence, for some, "proof of Jesus". The initial steps towards the scientific study of the Shroud of Turin and the blood of Jesus imbedded in the relic were taken soon after the first set of black and white photographs became available early in the 20th century. In 1902 Yves Delage, a French professor of comparative anatomy, published the first study

These revelations are possible with modern science and were not known previously. So, the one Chromosome from the Father of Jesus's blood stayed in Mary's Blood. So, she is special and had to remain virgin. So, one can say Mary is closer to us because she is human, the mother of all humans, and God. Jesus is closer to the Father than we are; we do have the same blood.

Mary is the Immaculate Conception, meaning that God preserved the Virgin Mary from the stain of original sin when she was conceived; it was defined as a dogma of the Roman Catholic Church in 1854. What is the original sin of Adam and Eve? It wants to be God. In the Gospel of Luke 1:38, we read, "I am the Lord's servant," Mary answered. "May your word to me be fulfilled." Then the angel left her. A servant has a master; thus, Mary is immaculate but human.

For those who do not believe in Mary as our mother and Mother of God, and for Those who deny [Mary's perpetual virginity](#)

God will not change the laws of pregnancy because of your fanaticism. She could not have any more children after Jesus, while carrying God's blood. In a vision on August 6th, 2024, I heard Luther, dressed as a priest, saying he was wrong about Mary. Luther was concerned about the fanaticism of the protestant church, and they would be better off uniting with the Catholic and Orthodox as one church.

Jesus chose 12 men to spread the gospel because it was a man's world. People did not listen to women at the time. But times have changed, and women get calls from Jesus to spread the gospel, ordaining women priests.

**The universe does not make sense if Jesus does not raise us from the dead.
Jesus must be God.**

Science is new and was not in the early church. So, I do not think God would allow or accept Mary to have kids after Jesus and circulate her distinct blood into any other baby. Again, I do not believe God would allow that to happen, and He or Jesus, the Holy Spirit, or an angel would have told Mary what to do to stay ever-virgin. If she had kids other than Jesus, it would create a real theological problem because of the blood of Jesus. So, as our forefathers and early theologians told us the truth, she remained a virgin. "The Blessed Mary, ever Virgin." From other sources, Jesus is said to have had four brothers and at least two sisters. The brothers were James, Joseph, Jude, and Simon. There are theories that they may have been his father's sons from another marriage or cousins. According to the Bible, Jesus' brother James was stoned to death. Having lived in the Middle East, when someone says These are my brothers and sisters, it means they are more than friends to that person. So, Jesus did not have blood siblings. We should pray to be more than friends with Jesus. When I traveled back in time to the resurrection in Jerusalem, many apostles received instructions from Jesus. We were all sitting on the ground. I saw Mohamed and Mother Mary. I am sure Jesus told Mother Mary to stay a virgin. **Matthew 27:51** indicates that an earthquake occurred just as Jesus died and that this earthquake was what opened the tombs of these saints. However, although they returned to life immediately, they did not go to Jerusalem until at least two days later or no earlier than the first Easter Sunday.

The belief that Mary was always a virgin has been held since the [earliest days of Christianity](#). Many early Church Fathers, including Athanasius, Jerome, and Augustine, expressed this belief.

To give just one example, Augustine said in A.D. 411 that Mary was “a Virgin conceiving, a Virgin bearing, a Virgin pregnant, a Virgin bringing forth, a Virgin perpetual.”

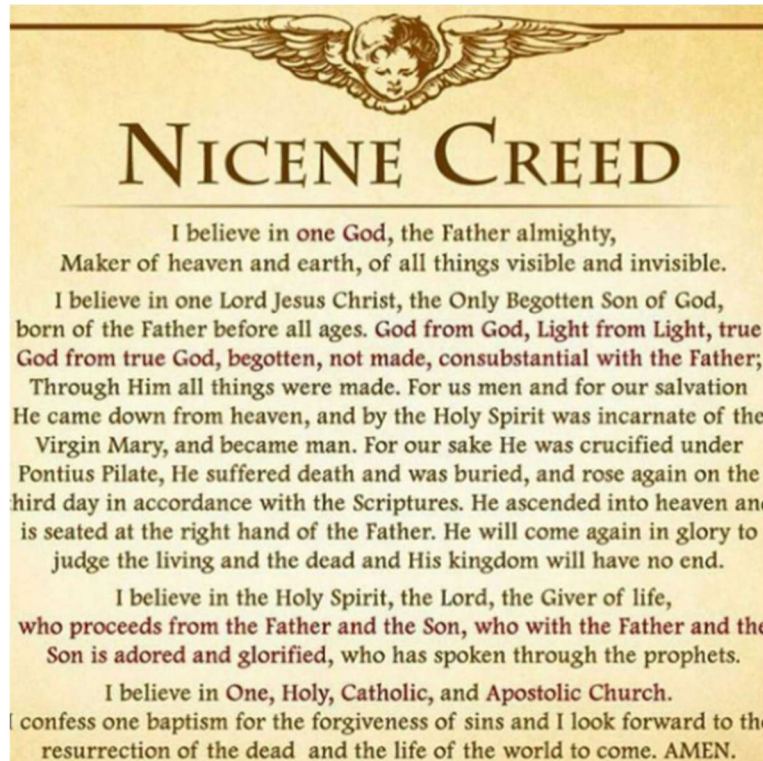

[Was Mary a Perpetual Virgin? | Catholic Answers](#)

Mary was the first apostle. As soon as the angel told her she would be pregnant by the Holy Spirit, she told her mother and father. She spread the first gospel by telling the world she was pregnant with Emmanuel, and the Holy Spirit descended on her as she became an apostle. So, like all the apostles, the Holy Spirit descended on her to become pregnant. And about the seventh month of pregnancy, she was elevated by Jesus’s blood leaking into the maternal circulation. So, God made her the last apostle, and she will keep reappearing. So, she is the first and the last apostle. The last apostle means she will always reappear and help us. My dad told me God had to create Mary immaculate and pure for His son to be in her womb. I became close to Mary in childhood. I see her in my meditation. From science, if you drink lots of alcohol, it affects the baby; if you smoke, it affects the baby; and if you take drugs, it affects the baby. Thus, Mary had to be immaculate and pure to preserve the baby. I told my counselor that Mary is human and close to us, but Jesus is God. It is not the same. For the Protestants, Luther said the church is always reforming.

5/29/2023 In my meditation, God or the Father told me He chose to show Himself as a man in Jesus Christ because He does not want to show He reproduces Himself; a woman conceives a child, but a man does not. God wants to show He does not conceive another God. It has nothing to do with who is better or good, a man or a woman. From the Nicene Creed, Jesus is begotten, not made. God does not make other Gods; He is the only God.

For Jesus to receive the full gift of the Holy Spirit, Jesus or Jesus' Brain would have to be both man and woman, or nurturing and forgiving; it is reflected in His ministry.

Unlike all other beings, Christ is not a creation but the offspring of the Father's essence (His Heart). Well, the Bible refers to wisdom as a she. [Why is wisdom referred to as she in Proverbs? | GotQuestions.org](#). God is both Man and Woman and would have to possess both brains to have all the gifts of the Spirit. We must pray to God, “Our Father/Mother who art in Heaven” [A feminist theologian says, 'Our Father' is not the only way of referring to God \(msn.com\)](#)

Mary is the first apostle; she spread the gospel of Jesus' birth and the good news through her pregnancy. She told her parents and her family. **Luke 1:41-45**. Traditionally, the second gospel is the resurrection. You cannot have the second gospel without the first. We need to understand why St. John and St. Mark started at the beginning of their gospel to bring the message that Jesus always existed, so He is divine, and they felt there was no need to start with the birth story. However, the birth story needs to know that Jesus took our flesh; Jesus was fully man and divine (Philippians 2:5-11). Mary received the Holy Spirit during her pregnancy. All apostles must receive the power of the Holy Spirit to be apostles. In my meditation, she appeared and told me it was not easy in the early years, even after Jesus's birth. Can't you see the Jews would have stoned her, calling her an adulteress? No apostle of Christ did not suffer; fortunately, Jesus took their suffering away. Mary also suffered seeing her son Jesus persecuted, tortured with the infliction of severe physical pain as a means of punishment or coercion, and crucified. Mary is also the last apostle; she reappears because her mission is not over. In John's gospel, he starts with Jesus's existence and skips the birth story. However, the importance of the birth story is that Jesus took our flesh, even though He is God. The Catholic Church recently changed its constitution to include laypeople, like women and me.

On November 27, 2025, I received a vision of Mary and Luke meeting in Jerusalem. Mary had a second home in Jerusalem, where Mary's mother lived. Luke the physician went to see Mary's Mother, who was old and sick. Mary entertains Luke at her house and tells him the story of Jesus' birth. Luke had a first-hand account of the story. Mary spread the gospel as an apostle. Luke traveled with Paul.

[The Key Decision for Pope Francis in His Standoff With Conservatives \(msn.com\)](#)

In having a woman priest, she would have to emulate the apostle Mother Mary in caring for her son Jesus as a perfect mother and spread His truth and help spread the second gospel, the resurrection, accordingly. You may use your visualization and imagination of perfect mother love. Mary told me, It is my preference for the woman priest to be already a mother. It is a different duty from a priest emulating apostles and saints like Peter, John, and Paul. If the woman has been caring for an orphanage, it is similar to having kids. On 4/19/2022, Mary told me she was OK with this requirement. On 9/17/2022, Mary told me it is OK for a woman priest to have an adopted child, not necessarily a biological child. Jesus said on 4/28/2022 that we need to learn from children. When the disciples fought about who would be the greatest in God's kingdom, Jesus brought a child to stand in their midst. When Jesus blessed the children, He told His disciples, "Truly I tell you, anyone who will not receive the kingdom of God as a little child will never enter it" (Mark 10:15). Jesus's request is for a man and a woman priest. The seminary for women priests is different from the male seminary. One can start with the woman's Cursillo.

Jesus told me I am the preferred apostle, but not the last. So, He was the first to call me an apostle after 2000 years. He said, Many will be converted because of your work, which is mine. As an apostle and a prophet, I gave something new: the three laws of physics that prove the existence of God. I received the Holy Spirit when I had living water in 1979 during meditation on the Shroud of Turin. Then, the Holy Spirit asked me to write a book after having

the experience of living water sensations. I said, No, I do not know how to write a book. It took me a few years to publish my first book in 2006, "Visualize Jesus: Ten Ways to Christian Meditation." Jesus chose apostles who knew nothing about anything. I had to experience meditation before writing about it. I ended up publishing more books later. Jesus waited for me to have my master's in systems and understand His existence. An apostle is a person trained by Jesus Christ 2000 years ago or by appearing currently and training the person. Jesus called me the preferred apostle because I am the first in 2000 years. Matthew 20:16 In this verse, Jesus did not mean Saints; He meant apostles. An apostle is trained by Jesus and not by anyone else.

Jesus's first request was to unite all the churches under three bishops: Catholic, Protestant, and Orthodox. I would be happy if one of the bishops were a woman. Jesus told me on 7/28/2024 that it is okay to have differences, but it is wrong to be fanatical about them. So, this unification may not happen immediately and may take place in the future. Currently, the church is in decline at an 80-year low. Some denominations may disappear in 50 years, and they should unite. My mission on Earth is not to unite the churches but to recommend it and to present meditation by visualizing Jesus. The early church was Catholic, Protestant, and Orthodox. Peter was catholic and compliant, Paul was Protestant; he protested that the gospel should also be for Gentiles, and James was Orthodox and wanted circumcision for all. There was no division; it was just one church, one voice. The current division and fanaticism should not continue, but we must unite to defeat the potential slavery caused by AI. It is a human right, and people must design programs to stop slavery. It is the call of the Holy Spirit.

[American church attendance hits historic low: a survey \(nypost.com\)](https://www.nytimes.com/2023/07/18/us/politics/church-attendance-survey.html)

On July 18, 2023, I had a dream in the early morning. Pastor Sneva, retired pastor of Ballard First Lutheran Church, asked me to write about the unification of the Church. The world needs the unification of ethics and virtues so that all churches speak with one voice. For example, the following link has no place in our church; it is fanaticism and has nothing to do with Jesus, just politics, and leads to indulgence, like killing, which will get you to heaven:

<https://www.msn.com/en-us/news/politics/absolute-blasphemy-pro-trump-pastor-suggested-violence-to-return-trump-to-the-white-house/ss-AA1eew8E?ocid=msedgntp&cvid=9176b0cab5be42e7c708bf96c0c956d8&ei=100#interstitial=1>

Another example Jesus asked me about on 1/2/2024 was abortion. Christians are lost because of the lack of unified ethics between churches. We need to have the same position that would be given by the three bishops. For me, I see it as a sin to kill the unborn or the mother in danger.

[Russian Orthodox Church condemns abortion as murder, at odds with Putin \(yahoo.com\)](#)

[Where major religious groups stand on abortion | Pew Research Center](#)

The second is that we are created free, not to be enslaved, and make people aware that technologies can make us become enslaved people, which is contrary to how God created the Universe. The third is that liturgy is unique to every Church. We should not impose various liturgies on each other, unlike what happened to the early Melkite Church, and we lost the liturgy of the early apostles. The Byzantine Empire adopted Christianity as the state religion and forced Christianity on people and their liturgy. Emperor Theodosius officially outlawed pagan worship in the year 392. When religion was implemented by the government, the result was war after war and divisions, fundamentally because of fanaticism. Constantine the Great converted to Christianity and had wars. Constantine was directed in a dream to cause the heavenly sign to be delineated on the shields of his soldiers, and so to proceed to battle. When the Melkites were forced to join the Byzantine church, they called it “Melkite” or “Royalty” because they were the original church of the Apostles. The government wanted to control religion, even liturgy. We have to learn from the mistakes in history and not let the government control religion to make wars. Similarly, at the time of Luther, the catholic church was the government and made wars with Luther and vice versa.

[Archaeological Find Challenges The History Of Christianity In The Roman Empire \(msn.com\)](#)

Because of the wars in early Christianity, using the Christian shield, God had to stop it. I believe that is why God sent Mohamed. Unfortunately, Mohamed's followers wanted forced belief. Jesus never wanted a forced belief, but wanted conversion. I traveled a long time with Jesus and saw what happened, and the archaeologist confirmed it. Once the government has a hold of religion, watch out. King Henry VIII set up the Anglican church so he could have a

divorce, and allowed the translation of the Bible into English within months after they burned William Tyndale for translating the Bible in 1536. William Tyndale's last words were, " Lord, open the King of England's eyes. The translation was something good that happened, but the divorce caused a division in the church. It is God's desire that the choices in the church be made by the Holy Spirit, as they were when the church started, not by the government.

Another division arose when Protestants came, telling people that communion is a symbol. When you take communion, you consume the bread and wine, and it becomes a part of your body. So, it is a real presence of Christ in you. When I currently take communion from some protestant churches, I visualize it as the real body and blood of Jesus, not a symbol. I pray for a miracle. I learned that when I leave the church, I have Jesus within me, ready for the world. When the Christian churches unite, communion is a real presence of Christ. It is like the Catholics, Orthodox, and Lutherans (ELCA). It is not right to dilute it and call it a symbol, because they do not believe and force a division. Because Jesus wants to be part of your body. On 11/27/2025, Jesus told me that is what He meant.

Jesus said this domino of apostles is necessary to prepare the way because I am not a magician. I was in Ballard First Lutheran Church on 3/27/2022, and they had this creed:

Creed

Having heard the proclamation of the Gospel, we confess our faith....

Along with his wife, Sarah, a wandering Aramean named Abraham is our ancestor. They went down to Egypt and lived there as aliens. In time, they had a family. The family became a great nation, mighty and populous.

There was a time in Egypt when we were treated harshly, afflicted, and enslaved. We cried to the Lord, the God of our ancestors. The Lord heard our voice and saw our toil and oppression.

The Lord led us out of Egypt with a mighty hand and an outstretched arm. The Lord brought us to a new land, flowing with milk and honey. The Lord has brought us to this place and this moment.

For this reason, a spirit of gratitude moves us to bring our first and best fruits of all that God has given us. We look and strive for the day when all of the families of the earth shall be blessed.

Prayers of Intercession

When the pastor says, "Lord, in your mercy...."
the congregation says, "....hear our prayer."

So, Jesus called me a Jew, and it is taking me a while to accept it as true. I can see that my dad and Olga have Jewish noses. My ancestors are Jews from Lebanon who came there in 538 BC at the end of the exile; others went to Syria, Jordan, Egypt, and Palestine. The Babylonians placed Zedekiah on the throne of Judah. During this time, Jeremiah wrote to the exiles in Babylon, telling them they would not return to their homeland. Instead, he passed along a message from the Lord telling them to settle in Babylon. This was captivity for the long haul. After 70 years had passed in Babylon, God told them He would cause them "to return to this place [Jerusalem]" (Jeremiah 29:10).

This prophecy had two components: the "desolation" of the land and serving the king of Babylon (Jeremiah 25:11). Before that, my ancestors could be traced to Egypt in Moses' time. Heliopolis is where all religions intersect throughout history. One God has much feedback; therefore, many religions believe in God. The city of the sun, Heliopolis. 'I am ascending to my Father and your Father, to my God and your God.'" This is what Jesus said to the apostles: I think Jesus means it is everybody's God. God told me I had already burned Beth Shemesh, the

old Heliopolis of the Pharos, and I would rebuild it in a new place for all the people who believe in me; that is God. I said to God You truly give peace. God reminded me on 1/3/2023 that no religion has a monopoly on the Holy Spirit. See **Acts 10:47-48**. God replied that on 1/11/2022, I would be physically present with my people. I do not know when this will happen because Jesus said there will be a domino effect of apostles. But it could happen simultaneously. In my article "God is a matter of science and psychology, not just faith," I already mentioned that it is all feedback from God. Everything goes back to Love, that is, God. I want to add to the article on Chapter 22: Twentieth Clarification: God's Love, the research results in life after death.

[I've studied more than 5,000 near-death experiences. My research has convinced me without a doubt that there's life after death. \(yahoo.com\)](#)

Obviously, the religious groups would have to buy the existing buildings and land in Heliopolis to demolish them to make room for all these temples. I saw that the Egyptian government did not mind because of world peace. Also, I saw a Hindu temple, a Sikh temple, all temples that believe in God, and an artificial lake for healing. In Luke 10, Cornelius received the Holy Spirit before baptism into Christianity. Other religions besides Christianity have the Holy Spirit, but do not necessarily have Jesus as their savior. We read in Romans 11:11-31 about the tree of God:

¹⁹ Then you will say, "Branches were broken off so that I might be grafted in." ²⁰ That is true. They were broken off because of their unbelief, but you stand fast through faith. So do not become proud, but fear. ²¹ For if God did not spare the natural branches, neither will he spare you. ²² Note then the kindness and the severity of God: severity toward those who have fallen, but God's kindness to you, provided you continue in his kindness.

You receive the same living water from the tree's root as the natural branches and are fully adopted.

When the city is finally built, and God is present physically, Jesus will raise the dead as He promised and make His selection for the second Heaven, the Universe, based on His judgment. My wife asked me why people say I will go to Heaven when I die, but at the end of

time, when Jesus' judgment has not yet happened. I replied that the time domain was not the same after we died. Jesus will then take us to the end of time and judge us in a different time domain. This would be a much shorter time than ours, which is considered purgatory. I believe Jesus is and will judge the living and the dead based on what they know, not what they do not know. In the scripture, when Jesus addressed the thief on the cross next to him, he asked Jesus to remember him when he came into his kingdom.

Luke 23:43

"Jesus answered him, 'Truly I tell you, today you will be with me in paradise.'"

The end of time can be for Earth only, not the Universe. When the world has peace, and Heliopolis is built, a flood of prayer by all religions is constantly happening. It is an invitation for Jesus to come, the end of time on Earth. God told me that on 1/12/2022, Heliopolis will never be destroyed because it is where I am with my angels, and in the future, I can move it to another planet if the sun is done. On 1/17/2022, He said Heaven touched the Earth as Jesus prayed, and all Christians prayed, "Thy Kingdom to come, thy will be done on Earth as it is in Heaven." He also said my angels would help each religious group architect each temple I approved. They have mounted an icon of Jesus on the walls of the temples. On 1/18/2022, I saw Rosemary and told her God spoke. Then, I meditated, and He said they were turning around. She said they repent, just like every prophet asks people to repent. I told her that we were at a turning point.

The angel told me that the new Christian Church in Jerusalem is not a Melkite Church in Heliopolis. It must reflect the three branches of the Church: Orthodox, Catholic, and Protestant. Each branch is responsible for its Icons in the new Church United in Christ. I told God you are truly just. This is the city of God; it includes every believer. It is God's land and territory. God is claiming land on Earth to prepare for His son to come and rule. God told me many civilizations, even species, came and went on Earth and had their own commandments to go to Heaven. Still, our civilization, starting with Adam, will be saved and spared because Jesus Christ, my only son, who came from above, has paid the price in full for our sins. It was out of Love. My brothers and sisters in Christ, that is always good news!!! And we cannot save ourselves through a commitment to helping others, as some Baptists claim. By Raphael Warnock, the newly elected US senator from Georgia, on April 4, 2022, who cited his credentials as a theologian and pastor of Atlanta's Ebenezer Baptist Church. Many past civilizations and even species tried and failed. It comes from above, as God, not from below, as humans; that is the only way it works. Jesus came to us from above. God's Word: We are saved by grace through faith in Christ Jesus, not by the results of our work (Ephesians 2:8-9). Only Jesus can save us from sin through grace, faith, and communication with Him about our work. Paul wrote Ephesians, but he was not trained by Jesus. Sorry, Paul, I follow Jesus, not you. Work counts on the judgment day, as Jesus appeared to me and told me to keep up the good work, not the good faith. You cannot say I believe in Jesus and have no work. Why? Are you blind? Just take a look around. I am an apostle trained by Jesus and sent to clarify. The only difference in our civilization is that Jesus came from above.

Jesus is God and travels through time. Jesus came at the darkest time of humanity, when the Jews were very fanatic about the Ten Commandments and could not accept him as God in Him. When Jesus healed on the sabbath, they told him it was a sin. They crucified him because He said He was God and the Messiah. Jesus called it "this adulterous and sinful generation" Mark 8:38. I cannot attend the Good Friday service anymore. It is too fanatical and depressing. The Romans were fanatical about not allowing a king to exist other than their own. They mocked and tortured Jesus and put a crown of thorns on His head as the King of the Jews. A reflection of our humanity. The last time I attended, I cried. Have you ever thought about why God gives grace to His creation? I believe that God understands our limitations and weaknesses.

The doctrine of faith is that you cannot save yourself. On 9/20/2022, I was doing my music therapy meditation and used music at the end to communicate with God. I usually imagine lights from God.

I saw God's Hand from above reaching and holding my Hand from below; I felt unity, communion, and consent. It is very different from Michelangelo's Sistine Chapel painting. It was a sign that my biography was done. I have other issues with Michelangelo's painting; he shows God with a white beard. It is contrary to what I saw when He appeared in my meditation. God had a black beard and does not get old. Also, Michelangelo shows Adam's hand above God's hand, which is not realistic. My wife and Pastor Elise at Ballard First Lutheran agree with me, as she told me. On April 27, 2026, I meditated, and God appeared at the end of the music piece and looked at me. His eyes pierced my soul, and I got scared. Reminded me that God owns the souls of everyone and can take them away.

God's Hand reaching out to me from above is very different from Michelangelo's Sistine Chapel painting is a vision on 9/20/2022

On 9/27/2022, my counselor, Rosemary, told me, Like Moses, you will not see New Jerusalem. I said that was OK; I saw it in a vision. I believe you can find it in the book of Genesis. He spent six creation days creating the Universe in an orderly fashion. God rested on the seventh day of creation, meaning He did not create anymore, was happy with what He had made so far, and

stopped. God is almighty, does not get tired like humans, does not sleep, and has no physical body, only Spirit. Rested on the seventh day, meaning He stopped there. For us humans, no matter how spiritual or holy we get, we still need our sleep because we have a physical body and can never be like God.

God does not have any physical form; he is fully spiritual. His heart is that Jesus is full of the Holy Spirit as God, and the Trinity allowed Jesus to have a physical form to suffer and redeem our sins for our sake. This is one of the reasons that the Lord did not allow idols of him to be made. A divine mystery is how God can exist as a spirit without a body. The Bible speaks of God as the invisible God. **The Bible says that God is Spirit ([John 4:24](#)). In [Luke 24:39](#), Jesus says that a spirit does NOT have flesh and bones. We do **not** know what Spirit is, but we **do** know what it is not. Also, God is everywhere. If he had a body, He could not be everywhere. For us humans, the sabbath means stopping and not doing any more work; essentially, this is what it is.**

Six creation days mean God spent time; He is almighty and could have done everything with one word. But that was not the case. Because God does not want to do magic. It is clearly not His habit or His ways. He spends time creating things. As humans created in His image, we spend time creating something we get attached to. So is God. He is attached to His creation by His choice. **I see it as a masterpiece symphony; God composed it, and He likes to hear it. That is what I mean by being attached. There is no point in composing music and not playing it to listen to it. God did not create the universe and leave. He constantly gives feedback to His creation for stability and balance. The result is the existence of many religions.**

These verses in Genesis are not meant for us to figure out the Universe's evolution, which is impossible for every planet in the Universe; it is a true message of who God is. Even the current theory of Earth has many flaws, and I have considerable problems with it. For example, do we know the evolution of Mars? Do we know the evolution of other planets in the Universe, if we have to travel to them? That is why we will never do it alone; we need God to use Christian meditations to converse and communicate with God. The meditation I am

proposing is the next evolution of the brain. Anyone who attempts to alter the course of evolution, playing God, will be severely punished. AI will not succeed.

Those who look to him for help will be joyful; no shadow of shame will darken their faces. – Psalm 34:5, NLT

I have been recording what I see and hear. Because I am the prophet who tells it exactly. God asked me to write it, and it is left for the people to believe and decide. The final word from me: if we do the right thing, we can become a better species; if we do the wrong thing, we lose Humanity. That should be clear to everyone. And it is the inevitable truth. When Jesus asked me to finish my article on the arching of beams, I replied, " You have to help me." He did; I heard His voice coaching me on how to write the equations. So, I did not do it alone. Professor Colin B. Brown told me that what is left of elasticity is the bones. I found two solutions: The arching of beams [Arching.pdf, facsystems.com](#) and the large deflection of plates. [Plates.pdf \(facsystems.com\)](#); you are unique and must believe in yourself. Jesus can help us in the Universe, including every planet's evolution. Again, every civilization has tried to reach God, but this will never happen. It is the other way God reaches man. That is the only difference in our current civilization; it is Jesus Christ, whom God has sent.

The arching of beams Farid Chouery MSN Search The arching of Beams by Farid Chouery 2/3/2026 Quote:

The arching of beams is a complex phenomenon that involves the redistribution of load s and the resulting changes in the beam's shape and stress distribution. Farid Chouery's work on this topic includes the use of finite element analysis to explore the arching action of straight beams under various loads. His research has contributed to understanding how arching factors can be predicted and applied in structural design, particularly in the context of concrete structures where traditional methods may not be as effective.

What is Heliopolis in Egyptian myth?

Heliopolis is where the cosmic creation of Egyptian myth began. Ancient Egyptian mythology states that everything began with Nu. Nu is the description of what the planet was before land appeared. Nu was a vast area of swirling watery chaos, and as the floods receded, the land appeared.

What was the name of Heliopolis in the Bible?

One was the name for Heliopolis in the Bible. Jeremiah 43:13 - He shall also break the images of Beth Shemesh in the land of Egypt, and the houses of the gods of the Egyptians shall he burn with fire. (King James Bible) Beth-Shemesh is "the house of the sun," in Hebrew, called by the Greeks "Heliopolis."

Your sun will never set; your moon will never be eclipsed in shadow, For you'll bask in the Eternal's light and silver splendor forever. Never again will you suffer the dark night of despair and gloom of mourning. – Isaiah 60:20, The Voice

I asked God if there would ever be peace between the Sunni and the Shia, and he said the three laws are the start. I told my wife I would not be surprised if they put the three laws at the end of the Quran because they are the truth. Also, the angel said that on 1/23/2022, the new mosque in Heliopolis will reflect the two branches of Islam, the Sunni and the Shia.

This district, also known as the city of luxury and pleasure, was created at the beginning of the 20th century. Its founder, Belgian Baron Édouard Louis Joseph Empain, settled in Cairo in the early 1900s and fell in love with Yvette Boghdadli, one of Cairo's most beautiful socialites. He decided to build a palace and develop Heliopolis for her. The Baron is buried in a Catholic Church called "Basilica," which he built in Heliopolis. Also known as Our Lady of Heliopolis Co-Cathedral, Latin Cathedral of Our Lady of Heliopolis, or the Basilica of the Holy Virgin, it is a Roman Catholic church building in Al-Ahram Square in the Heliopolis neighborhood of Cairo, Egypt.

Basilica of the Holy Virgin

[The Palace of Baron Empain - Inside-Egypt](#)

I already received my reward: I traveled or was snatched back physically twice to the holy city by Jesus, breaking the time barrier. The first was to witness a miracle by Jesus in mid-August 2019, Luke 13:10-17, to learn how to construct the healing meditation. On July 7, 2021, the Holy Spirit asked me to use different voices for the song "Jesus Healing Song," which I sang eight times. Only one is recorded. I am planning to use singers from seven different churches for the rest. What I saw in the miracle differs from Luke's story. Because I saw Jesus telling her to be healed, and she was healed. Jesus did not touch her.

People might ask what difference it made to her to be healed. Not really; from a medical point of view, in the actual story I saw, Jesus did not perform chiropractic procedures. We must believe in His voice command because He is God. Luke added to the story to glorify Jesus. It may have worked in the past, but not now. We must have an open mind when reading the Bible. This does not mean we should edit the Bible, even if we understand a vision differently. My reason is that the Bible speaks differently to everyone. We can now add how it applies to us

in the commentary and debates. I had a car accident on 12/8/2023 and had a concussion and whiplash. On 2/13/2024, I went to physical therapy, and Hayley Stiers, the DPT, was working on my dizziness. She said the first system to develop in the mother's womb is the hearing system; babies even have tiny earlobes when they are the size of a grape.

[Fetal development by week: Your baby in the womb | BabyCenter](#)

It is intriguing that with Jesus's voice command, the sound goes through the ear and to the whole body, and healing happens. Maybe we should experiment with sound frequencies with chiropractic and medicine to help heal the spinal cord. Possibly other illnesses like schizophrenia, since Jesus healed in this way.

The second time I watched a virtual service was on May 24, 2020. The Bible reading was about the resurrection at the Ascension. I was pulled physically from the living room, traveled in time, and was physically with Jesus and the apostles. Jesus asked me to spread meditations and visualizations. That was His instruction to me as He instructed every Saint descending in Jerusalem, including Mohamed and Mother Mary. Mohamed has previously appeared to me twice. I knew him, but he was silent. Also, Moses appeared to me twice. The first was in 1973, on an airplane returning to Seattle from Atlanta. I asked him where he was from. **Moses said my country is the world, and my king is God.** The second time was on January 31, 2021, during COVID, at home, having a virtual church. He said I was talking about you in **Deuteronomy 18:15**. Moses had a black robe with a golden ribbon from his neck to the bottom. He was wearing a white **kippah** on his head. Glory be to God, our Lord Jesus Christ. That time travel I had was not a vision, proving that Jesus travels through time and can take me anywhere in the Universe and its history, possibly through other dimensions.

I may not know why Jesus made me travel to the past, but there has to be a good reason. The only reason is that I am an apostle and a prophet. To remind you, Peter said that an apostle is also a prophet (Acts 3:22-23). I have no doubt Jesus travels through time because He is God. Also, Paul was snatched up and went to the third heaven "in Christ who fourteen years ago was caught up to the third heaven" (2 Cor 12:2). **I gave two essential contributions to the church: Mary, the first and last apostle, and reminding Christians that Jesus can travel**

through time. In all of Jesus's appearances in my life, there were similarities but not the same expression, but the same person. Showing the expression of God is God. Jesus is God and travels through time. He came 2000 years ago to change things. It was the darkest time in the history of humanity, full of fanaticism. They accused him of sinning because He healed on the Sabbath. They were so fanatic about the Ten Commandments. Then they killed him because He said He is God and the Father is in him. Unfortunately, we still have fanatic people, even in science and government. We must know that it is what Jesus fought against, fanaticism, and lifted human freedom.

[Matthew 27:51-53](#)

[English Standard Version](#)

⁵¹ And behold, the curtain of the temple was torn in two, from top to bottom. And the Earth shook, and the rocks were split. ⁵² The tombs also were opened. And many bodies of the saints who had fallen asleep were raised, ⁵³ and coming out of the tombs after his resurrection, they went into the holy city and appeared to many.

About the future, some people believed in the theory of evolution and asked me why I did not think tigers would evolve and their speed would become faster due to hunting for food. I think that evolution may be correct for animals and not humans, and that it is okay for animal humans before the spirit descended on Adam and Eve. I do not believe you can evolve into the spirit. Based on Pentecost, the Spirit descended on the apostles and came from God. Similarly, you cannot evolve into Living Water; it comes from Jesus Christ abruptly. I do not think animals can change their biology; they have no control over that. Under instability, God changes biology with an abrupt change because of His Mercy. Then, the tiger has more speed.

[New rule of biology: Instability is key to evolution and life \(msn.com\)](#)

God made man from dust to have a physical appearance, and it took years to insert the spirit when God was ready. He did not create us from nothing. He had no reason to do that.

Everything we see in the universe has a minimum energy. God follows the law He put in the universe and doesn't create from nothing or do magic.

Years later, someone asked me if we could use stem cells or other biological methods to change human evolution and eliminate diseases. I responded that it would be great, but I do not

support giving humans extra fingers, hands, arms, legs, a third eye, a third kidney, a second heart, a third breast, a womb for men to birth a baby, etc. I am not sure God would allow that because that becomes another species and is not human. He is the creator; it is God's job to do that. The question is, why is it for using the new species for slavery or evil purposes as new soldiers? I prefer to keep what God gave us; Jesus has already healed people and has nothing against eliminating diseases. Sex change operations fall in the same category as changing our makeup. Unfortunately, changing our makeup leads people to worship technology, which is against God. Captain America's physical perfection and self-healing are fictional works from Hollywood. Then suddenly, it happens in the future, wishful thinking. Hollywood is driving people insane to make money. We must preserve our creation and be happy with what God gave us. If we make a species better than us, they will rule us, and it will be slavery. Put your faith in God before science, and enjoy life with the body God gave us. God will always guide us to have good ethics. God wants people to have peace and enjoy His creation.

The assertion that contemporary divine revelations or prophecies hold equal authority to Scripture undermines the sufficiency and authority of the Bible. What I brought was mostly clarifications to the Bible. The three laws of physics have always existed; we just had to pay attention. Because of AI, God had to send an apostle/prophet to avoid slavery and declare His physical plan for the New Jerusalem. I am afraid AI will spin out of control, and we will have slavery in Russia and China with government control, and in the West, corporate and tech-giant control, and oligarchy. Because of identity theft, the world is not in a better place because of AI. The work of an apostle and a prophet does not end. I will work for Jesus until I die. If evolution is an algorithm, then why did God send me to warn you about AI?

Conclusion

It is clear what is going on. God spoke; it is God's plea to humans. I know some of you do not care. But we will be held accountable. If we are not careful, AI will ruin life. Someone told me this is the end of the world. It will be the end if we don't take action. We are born free, not to be enslaved. I was indeed born with an umbilical cord, but I never paid for my life. God gave me life and did not ask for payment in return.

[Ray Kurzweil, a futurist, predicted that by 2045, computers will surpass us in intelligence, the universe itself will become conscious, and humans will live forever.](#) My question to him: How do you know if God will send the Holy Spirit into our brains, as in Adam and Eve and Pentecost, and if it will be smarter than AI, and if evolution will be altered? When it happens, it will not be for everybody. There will be some inferior people. Ray, you cannot erase God. God will always be a part of the equation.

On March 4th, 2023, I had a cardiac arrest and died three times, twice at home and once in the ambulance, and was revived by my wife and the fire department. They told me in the hospital it was because of the psychotic medicine I was taking. My death was very peaceful, and I could not hear my wife, but I heard Jesus's voice saying, "Not yet." They installed a pacemaker. After recovery, I went home, sat on the couch, and heard an angel speaking to me and asking me to write a symphony titled "Dust to Dust Spirit to Spirit." I had written the music before, and I used it. I added doves flying and chirping in the beginning and the end. I published the symphony under the title 'The Angel Gave Me.' God raised me from the dead to write some more. That was the consensus in Bible Study. Do you believe in God? I do.

<https://music.youtube.com/watch?v=N8JdvGDzBl4>

PS: About my writings, I did not write for glory and did not seek peer review. I am afraid it will be approved without review, so I have proved God exists; it will be etched in stone, and people will not be free to think for themselves, but will think of others. When God proves His existence, He sends prophets, and I am one of them. I am a scientist, and I post my findings on the web. I did everything, expecting no return, as Jesus' apostles. I did everything for Jesus. If God exists, He would have been talking to people a long time ago, and He did. My first book was published on Smashwords, at the recommendation of a nun at Saint Placid, Lacy, WA. You can read it for free on the Livingwater3t2m library.

Five times Jesus appeared to me so far:

1 – I was seven years old. I heard about the Veronica handkerchief in school and wished to see it. Jesus appeared on our balcony in Egypt, and the Shroud of Turin was visible on the left side, beyond the railing. I realized it was the top half of the Shroud later. He appeared in the middle of the balcony, transfigured (or light shining from Him) beyond the railing. One of the reasons for Jesus' appearance was preparation. In 1979, when I was 28 years old, I meditated on the Shroud of Turin and realized what I had seen in a book about the Shroud that I had read in 1975. Because when I was seven, I did not know what I saw. The result was that I wrote my book on meditation, "Visualize Jesus: Ten Ways to Christian Meditation," when the Holy Spirit descended upon me and asked me to write the book.

2 – At 22 years old, Jesus appeared transfigured in the Melkite school church. His reason is to confirm that I am an apostle, to give me living water, and to encourage me to keep up the good work. This apostolic work was a result of my participation in the Cursillo when I was 20.

3 – At 70 years old, He appeared transfigured and asked me to become the pope. Later, when I was 74 years old, I heard His voice asking me to be the pope of apostle schools. I said whatever you say, Jesus. The reason is that Artificial Intelligence poses a threat to evolution and can cause slavery.

If we use AI, are we responsible for making the human brain smaller and enriching billionaires? Do we say that is the way it is and not hold them accountable? God is clear about this and may end the world because of it. We are created in the image of God, not to have a small brain. Many species have gone extinct; we may be next. Matthew 24:40.

[Are Smaller Brains the Future? How AI Could Reshape Human Evolution](#)

4 – Jesus appeared the second day, transfigured, and said He was happy with my decision. Because I initially said no, no. Five months later, I saw God crying in my meditation, and I began writing an article about people worshipping technology.

5 – At 74 years old, Jesus appeared not transfigured to write in my article God will not allow slavery.
